## Setting Municipal Priorities 1983:

**Community Power in a Postreform City** Eugene B. Rumer, Dmitrii Trenin, Huasheng Zhao, 2007 The eminent contributors to this volume offer a four part analysis of Central Asia's new importance in world affairs since the disintegration of the Soviet Union      *Setting Municipal Priorities, 1983* Brecher, 1984-12-01      *Community Power in a Postreform City* Robert F. Pecorella, 2019-07-26 This book represents the culmination of several years of research on community politics in New York City      *Ethnic Minorities and Industrial Change in Europe and North America* Malcolm Cross, 1992-10-22 Following World War II racial and ethnic minorities formed a pool of low paid labour upon which the industrial city depended When industrial production shifted overseas the new local technological industries required fewer better skilled workers The consequence for those excluded was disastrous In this book leading authorities compare the situation of minorities in the post industrial cities of Europe and North America      **Regenerating the Cities** Michael Parkinson, Bernard Foley, Dennis R. Judd, 1988      *Homelessness in America--II: Appendixes A-G* United States. Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on Housing and Community Development, 1984      **Homelessness in America--II** United States. Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on Housing and Community Development, 1984      **The Federal Response to the Homeless Crisis** United States. Congress. House. Committee on Government Operations. Intergovernmental Relations and Human Resources Subcommittee, 1985      **Political Crisis/fiscal Crisis** Martin Shefter, 1992 This study examines the factors that caused New York City's financial crisis in 1975 and demonstrates how these manifestations of newly evolved political alliances and systems continue to undermine the city's financial stability It shows how these problems which are enduring features of the city's political system are not unique to New York but a threat to the financial stability of most major American cities The volume won the American Political Science Association's Award for the Best Book on Urban Policy      **Power Failure** Charles Brecher, Raymond D. Horton, 1993 They examine the operation of the Office of the Mayor and the City Council covering everything from the number of members and their annual salaries Council Members receive 55 000 per year the Council President 105 000 to the mayoral races of John V Lindsay Abraham Beame and Edward I Koch Much of this encyclopedic work focuses on New York's ever present financial woes including the financial crisis of the mid 1970s when the City had an unaudited deficit of over a billion dollars and the public credit markets closed their doors      *New York, New York, New York* Thomas Dyja, 2022-03-15 A lively immersive history by an award winning urbanist of New York City's transformation and the lessons it offers for the city's future      **A Phoenix in the Ashes** John Hull Mollenkopf, 2021-04-13 In the years following its near bankruptcy in 1976 until the end of the 1980s New York City came to epitomize the debt driven deal oriented economic boom of the Reagan era Exploring the interplay between social structural change and political power during this period John Mollenkopf asks why a city with a large minority population and a long tradition of liberalism elected a conservative mayor who promoted real estate

development and belittled minority activists Through a careful analysis of voting patterns political strategies of various interest groups and policy trends he explains how Mayor Edward Koch created a powerful political coalition and why it ultimately failed

**Power, Culture and Place** John H. Mollenkopf, 1989-02-16 With a population and budget exceeding that of many nations a central position in the world's cultural and corporate networks and enormous concentrations of wealth and poverty New York City intensifies interactions among social forces that elsewhere may be hidden or safely separated The essays in *Power Culture and Place* represent the first comprehensive program of research on this city in a quarter century Focusing on three historical transformations the mercantile industrial and postindustrial several contributors explore economic growth and change and the social conflicts that accompanied them Other papers suggest how popular culture public space and street life served as sources of order amidst conflict and disorder Essays on politics and pluralism offer further reflections on how social tensions are harnessed in the framework of political participation By examining the intersection of economics culture and politics in a shared spatial context these multidisciplinary essays not only illuminate the City's fascinating and complex development but also highlight the significance of a sense of place for social research It has been said that cities gave birth to the social sciences exemplifying and propagating dramatic social changes and proving ideal laboratories for the study of social patterns and their evolution As John Mollenkopf and his colleagues argue New York City remains the quintessential case in point

Handbook of Strategic Management, Second Edition, Jack Rabin, Gerald J. Miller, 2000-05-16 Revised and updated for the second edition the *Handbook of Strategic Management* provides a set of broad based bibliographic essays on strategic management It covers synoptic approaches complexity theory organizational capacity financing strategy networks and chaos theory and offers an in depth look the use of strategic management in the private public and nonprofit sectors The National Institute of Personnel Management called this book the most comprehensive single source treatment of strategic management New topics discuss the role of strategic management in political decision making uncertainty the absence of strategy productivity teamwork leadership and change

*The Two New Yorks* Gerald Benjamin, Charles Brecher, 1988-12-15 Over the past eight years a marked shift in the national political mood has substantially reduced the federal government's involvement in ameliorating urban problems and enhanced the prominence of state and local governments in the domestic policy arena Many states and big cities have been forced to reassess their traditionally vexed relationships Nowhere has this drama been played out more stormily than in New York In *The Two New Yorks* experts from government the academy and the nonprofit sector examine aspects of an interaction that has a major impact on the performance of state and city institutions The analyses presented here explore current state city strategies for handling such troubling policy areas as education health care and housing Attention is also given to important contextual factors such as economic and demographic trends and to structural features such as the political framework relationships with the national government and the system of public finance Despite its uniquely large scope the drama of the

new New Yorks parallels or presages issues faced by virtually all large cities and their states This unprecedented study makes a vital contribution in an era of declining federal aid and pressing urban need All the Nations Under Heaven Frederick M. Binder, David M. Reimers, 1995 In All the Nations Under Heaven Frederick Binder and David Reimers trace the shifting tides of New York's ethnic past from its beginnings as a Dutch trading outpost to the present age where Third World immigration has given the population a truly global character All the Nations Under Heaven explores the processes of cultural adaptation to life in New York giving a lively account of immigrants new and old and of the streets and neighborhoods they claimed and transformed All the Nations Under Heaven provides a comprehensive look at the unique cultural identities that have wrought changes on the city over nearly four centuries since Europeans first landed on the Atlantic shore While detailing the various efforts to retain a cultural heritage the book also looks at how ethnic and racial groups have interacted and clashed over the years From the influx of Irish and Germans in the nineteenth century to the recent arrival of Caribbean and Asian ethnic groups in large numbers All the Nations Under Heaven explores the social cultural political and economic lives of immigrants as they sought to form their own communities and struggled to define their identities within the growing heterogeneity of New York **Law Books in Print: Subjects** Nicholas Triffin, 1987

**Reagan and the Cities** George E. Peterson, Carol Weiss Lewis, 1986 New York Court of Appeals. Records and Briefs. New York (State)., **Majority and Minority** Norman R. Yetman, 1991 A collection of 27 readings for advanced undergraduate and graduate students based on the assumption that the study of racial and ethnic relations should focus primarily on patterns of differential power and intergroup conflict Many articles demonstrate that racial and ethnic relations cannot be understood apart from a transnational perspective and all explore aspects of race and ethnicity in the US and address broader conceptual issues Most selections are presented in their entirety with introductions No index Annotation copyrighted by Book News Inc Portland OR
