Setting National Priorities The 1980 Budget:

Setting National Priorities, 1979 **Publishers Trade List Annual, 1996, 1** R R Bowker Publishing, Trade List Annual 199 Publishers', 1996-09 *Setting National Priorities : the 1980 Budget*, 1979 **The Federal Government and Urban Housing** R. Allen Hays, 1985-01-01 The Federal Government and Urban Housing provides a comprehensive overview of federal housing and community development policy during the last fifty years with special emphasis on the crucial decade of the 1970s It relates housing policy developments to broad ideological and political changes that have taken place in the U S during this period R Allen Hays covers virtually every major program that has attempted to provide housing for disadvantaged persons including public housing Section 235 Section 8 and housing rehabilitation He compares the underlying approaches to housing embodied in these programs and examines the impact of urban renewal and Community Development Block Grants on urban housing The successes and failures of federal housing programs are considered within a detailed historical context The book concludes with a look at housing policy under the Ronald Reagan Administration and a discussion of the future of housing policy *The American Economy in Transition* Martin Feldstein, 2009-05-15 This unusual volume marks the sixtieth anniversary of the National Bureau of Economic Research In contrast to the technical and specialized character of most NBER studies the current book is designed to provide the general reader with a broad and critical overview of the American economy The result is a volume of essays that range from monetary policy to productivity development from population change to international trade *Cataloged Serial Holdings* National Defense University. Library, **Budgeting and Governing** Aaron Wildavsky, 2017-07-05 Aaron Wildavsky's greatest concern as expressed in his writings is how people manage to live together This concern may at first appear to have little to do with the study of budgeting but for Wildavsky budgeting made living together possible Indeed as he argues in *Budgeting and Governing* now available in paperback if you cannot budget you cannot govern **Social Security Bulletin**, 1981 *Hearings, Reports and Prints of the Senate Committee on the Judiciary* United States. Congress. Senate. Committee on the Judiciary, *Books in Print*, 1982 *Strategic Review*, 1979 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States **Setting National Priorities** Joseph A. Pechman, 1979 The federal budget is probably the single most important expression of America's priorities The administration's judgments about the size and allocation of public resources lead to budget decisions that profoundly affect national life Yet the President's budget proposals each year reflect only the final decisions reached by the President after considering the options available The public is rarely informed of alternative ways of achieving the the government's objectives or the reasons for discarding them The purpose of this book the tenth in an annual series is to explain the President's budget examine alternative policies and evaluate the short and long run budgetary implications of the various options The authors deal with economic policy and the defense and nondefense budgets The contributors who are members

of the Brookings staff include Henry Aaron Thomas A Dine Robert W Hartman Bruce K MacLaury and Daniel J B Mitchell
