Gender and Peacebuilding

Maureen P. Flaherty,Thomas G. Matyók,Sean Byrne,Hamdesa Tusso,2015-10-16 The twenty first century has brought with it a shift from the notion of human security being located in secure national borders to the need to secure the safety freedom and dignity of all Despite efforts to equalize women s status in the world evidenced by changes in many international projects requiring a gender focus women and men experience most of the world in very different ways according to gender Further the reality is that humans who do not all fall neatly into one of these categories male or female often find their lives further challenged In the 1980s Peace and Conflict Studies first began to acknowledge and study the different experiences males and females have during war and peace Since then there have been books about women and war women working at grassroots levels to build peace women and transitional justice women and peace education and women s views of human security All of these works have contributed to the discourse of our changing world This book brings together some of those themes and voices and adds more with the final product being more than the sum of its parts We add to the conversation a book that considers foundational fundamental issues that span from the interpersonal to the global Many of the chapters describe empirical research completed with author and community shared here for the first time Part One is a collection of case studies documenting challenges and responses to peacebuilding by women from various parts of the world Part Two focuses on Peace and Conflict Studies PACS as a discipline examining not only what is but also what should be taught This section critiques today s efforts at teaching Peace and Conflict Studies and provides suggestions of how this important work might be shared in more open and equitable ways Part Three enters territory found even less in the PACS literature In this section our authors confront patriarchy engage in a discussion about the contribution queer theory makes to PACS and tussle with

the notion of inclusivity with considerations of both gender and disability It then ends with a discussion about the contribution feminist methodologies make to PACS

Love's Extra Inning Jess Hansen,2025-09-23 Gary Taylor Blue Claws manager likes the worn out feel of his baseball cap the predictable schedule of the season and the comfortable distance he keeps from everyone He runs his ball club just like his life with no surprises That all changes when the front office sends him a new athletic trainer Catherine Wheeler is as bright and optimistic as Gary is stubborn and set in his ways Looking for a fresh start she instantly falls in love with the team and the charming small town of Red Bird Despite her lukewarm welcome she s determined to make this work and maybe even make a new friend along the way Their grumpy sunshine clash has the ballpark buzzing and it isn t long before the whole town is playing matchmaker just in time for the Blue Claw Ball Can Gary and Cat win this game in extra innings or will it be a shutout Love s Extra Inning is a cozy and clean later in life romance filled with witty banter charming small town vibes and the delightful chaos of new beginnings

Oops! Hywel Roberts,2012-04-30 The book also shines a spotlight on the role of the teacher and how he or she can do the right things to get the absolute best from students Some of the best learning takes place when rather than imposing on young people a pre determined curriculum you find the stimulus that is relevant and engaging for them and build from there Then the curriculum starts to emerge in a way that simply hooks students into learning almost despite themselves There is nothing for them to push against What s the point This is boring as they have helped shape the direction of the lesson in a way that makes it real and useful to them All this without them even realising

what is going on They have been lured into learning and the process is shared with teachers in this book with examples as to how it can be done and how the author has done it Reading this book will support teachers in developing ideas that motivate everybody in the classroom from infants to secondary and beyond Whether you re new to teaching or have vast experience you will find in this book inspiration to raise achievement improve behaviour and enhance creativity in the classroom and you will change the way you approach lesson planning forever Shortlisted for the Education Resources Awards 2013 Secondary Resource non ICT category Oops Book Launch Waterstones Sheffield May 2012 Photography by Jane Hewitt www.janehewittphotography.co.uk
