The Matrophobic Gothic and Its Legacy Deborah D. Rogers, 2007 Although in recent years maternity has become a contested site of political discourse the matrophobia that characterizes many mother daughter bonds has hardly been theorized This book defines matrophobia as fear of mothers as fear of becoming a mother and as fear of identification with and separation from the maternal body Deborah D Rogers argues that matrophobia is the central metaphor for women's relationships with each other within a patriarchal culture Analyzing different contexts in which matrophobia problematizes feminism this book begins with matrophobic discourse in eighteenth century England Significantly the self sacrificing construction of motherhood emerges at the same time as the novel a genre that develops as a locus for the radical displacement of matrophobia Coining the term Matrophobic Gothic to describe works in which inadequately mothered heroines reconcile with maternal figures that the narrative has repressed Rogers focuses on this phenomenon in the works of Ann Radcliffe and Jane Austen Her consideration of matrophobia extends to early modern male authored texts including Samuel Richardson's representation of maternity and Sir Walter Scott's exploration of gender roles and identity These issues

continue unabated in televised serial drama All told this book powerfully argues for the necessity of confronting the matrophobia at the heart of feminism **Quick Transmigration: Cannon Fodder Hotline** Nai LiangYu,2020-03-22 Luo Qiqi was only the most ordinary member of the myriad of living creatures but the incident of one in ten thousand living beings falling from the sky caused her to have an extraordinary journey She traveled between each and every mission and trained for many lifetimes allowing this tiny soul to slowly grow stronger **Something Within** Nollaig
