embrace the already but not yet impacts of the inevitable total destruction of the ecology in the near future The vanities in current ecotheologies are divided into religious economic and political categories Among the major ones discussed in this book are the vanities of ecological meditation theology leftist and rightist economic theologies as well as ecotheologies of green authoritarianism and deliberative democracy Even if these ecotheologies work perfectly as they were intended to global ecological crises have passed the point of no return i e post ecology and rendering all of them a global vanity Based on a Chinese Christian social scientist s perspective this book proposes a moderate course of ecological spirituality economic behaviors and democratic actions but with a radical devotion to crisis management and evangelism in preparation for the Doomsdays This book is unique in its balanced interdisciplinary composition employing theories from cognitive science Christian theology economics and political science **Christian Advocate** ,1906 **Two Thousand Years with the Word** C.
