The Legality and Legitimacy of the Use of Force in Northeast Asia Brendan Howe,Boris Kondoch,2013-06-06 In *The Legality and Legitimacy of the Use of Force in Northeast Asia* Brendan Howe and Boris Kondoch bring together distinguished authors with extensive Northeast Asian backgrounds to offer a diverse and comprehensive evaluation of when it is right from regional perspectives to use force in international relations The use of force in international relations has been severely curtailed by pragmatic considerations of international order and further constrained by positive international law In Northeast Asia the prohibition of aggression has remained uncontested Strict adherence to non intervention in Northeast Asia has however increasingly come under attack from internal and external normative communities The contributors therefore use regional legal normative cultural and historical insights to shed light on the contemporary positions of Northeast Asian political communities with regard to the use of force

Scharfstein, 2016-02-24 This is a study of how and why politics is amoral It deals especially with what the author terms Machiavellism the disregard of moral scruples for political ends that leads to the justification and use of deception and force in all aspects of political life A comparative cultural study it examines the theory and practice of politics in ancient China ancient India Renaissance Italy and modern Europe as well as tribal cultures in order to test how widespread such political amorality has been throughout history Scharfstein concludes that political or ethical theories that do not view Machiavellism

as inseparable from political life are inadequate to human affairs and of doubtful relevance to politics In reaching this conclusion he explores such topics as why people readily accept political violations of truthfulness and fairness whether decisive philosophical arguments have been advanced against Machiavellism whether the use of deception in politics is in politicians own best interests and whether the prevalence of Machiavellism rules out the likelihood of a better political future
