Seven French Chroniclers Paul J. Archambault, 1974      Seven French Chroniclers Paul J. Archambault, 1974      *Seven French Chronicles*, 1974      Rhetoric and the Writing of History, 400-1500 Matthew Kempshall, 2011-08-31 This book provides an analytical overview of the vast range of historiography which was produced in western Europe over a thousand year period between c 400 and c 1500 Concentrating on the general principles of classical rhetoric central to the language of this writing alongside the more familiar traditions of ancient history biblical exegesis and patristic theology this survey introduces the conceptual sophistication and semantic rigour with which medieval authors could approach their narratives of past and present events and the diversity of ends to which this history could then be put By providing a close reading of some of the historians who put these linguistic principles and strategies into practice from Augustine and Orosius through Otto of Freising and William of Malmesbury to Machiavelli and Guicciardini it traces and questions some of the key methodological changes that characterise the function and purpose of the western historiographical tradition in this formative period of its development

**Johann Sleidan and the Protestant Vision of History** Alexandra Kess, 2017-03-02 One of the major challenges faced by the emergent Protestant faith was how to establish itself in a hitherto Catholic world A key way it found to achieve this was to create a common identity through the fashioning of history emphasising Protestantism's legitimacy and authority In this study the life and works of one of the earliest and most influential Protestant historians Johann Sleidan 1506-1556 are explored to reveal how history could be used to consolidate the new confession and the states which adopted it Sleidan was commissioned by leading intellectuals from the Schmalkadic League to write the official history of the German Protestant movement resulting in the publication in 1555 of *De statu religionis et reipublicae Carolo Quinto Caesare Commentarii* Overnight his work became the standard account of the early Reformation referenced by Catholics and Protestants alike in subsequent histories and polemical debates for the next three centuries Providing the first comprehensive account of Sleidan's life based almost entirely on primary sources this book offers a convincing background and context for his writings It also shows how Sleidan's political role as a diplomat impacted on his work as a historian and how in turn his monumental work influenced political debate in France and Germany As a moderate who sought to promote accommodation between the rival confessions Sleidan provides a fascinating subject of study for modern historians seeking to better understand the complex and multi-faceted nature of the early Reformation

Emotions in a Crusading Context, 1095-1291 Stephen J. Spencer, 2019 *Emotions in a Crusading Context* is the first book length study of the emotional rhetoric of crusading It investigates the ways in which a number of emotions and affective displays primarily fear anger and weeping were understood represented and utilised in twelfth and thirteenth century western narratives of the crusades making use of a broad range of comparative material to gauge the distinctiveness of those texts crusader letters papal encyclicals model sermons chansons de geste lyrics and an array of theological and philosophical treatises In addition to charting continuities

and changes over time in the emotional landscape of crusading this study identifies the underlying influences which shaped how medieval authors represented and used emotions analyzes the passions crusade participants were expected to embrace and reject and assesses whether the idea of crusading created a profoundly new set of attitudes towards emotions Emotions in a Crusading Context calls on scholars of the crusades to reject the traditional methodological approach of taking the emotional descriptions embedded within historical narratives as straightforward reflections of protagonists lived feelings and in so doing challenges the long historiographical tradition of reconstructing participants beliefs and experiences from these texts Within the history of emotions Stephen J Spencer demonstrates that despite the ongoing drive to develop new methodologies for studying the emotional standards of the past typified by experiments in neurohistory the social constructionist or cultural historical approach still has much to offer the historian of medieval emotions Thomas Basin (1412-1490): The History of Charles VII and Louis XI Mark Spencer, 2025-02-03 This tale of two kings a remarkable historiographical achievement earned Basin the characterisation of one of the greatest historians of the fifteenth century

**Philippe de Commines** Irit Ruth Kleiman, 2013-03-22 Philippe de Commines a diplomat who specialized in clandestine operations served King Louis XI during his campaign to undermine aristocratic resistance and consolidate the sovereignty of the French throne He is credited with inventing the political memoir but his reminiscence has also been described as the confessions of a traitor Commines had abandoned Louis rival the Burgundian duke Charles the Bold before joining forces with the king This study provides a literary re evaluation of Commines text a perennial subject of scandal and fascination while questioning what the terms traitor or betrayed meant in the context of fifteenth century France Drawing on diplomatic letters and court transcripts Irit Kleiman examines the mutual connections between writing and betrayal in Commines representation of Louis reign the relationship between the author and the king and the emergence of the memoir as an autobiographical genre This study significantly deepens our understanding of how historical narrative and diplomatic activities are intertwined in the work of this iconic iconoclastic figure *A Global History of History* Daniel

Woolf, 2011-02-17 An illustrated survey of global historical scholarship from the ancient world to the present for courses in theory and historiography **Crusading in the Age of Joinville** Caroline Smith, 2017-05-15 Crusading in the Age of

Joinville enhances the current literature dealing with the issue of crusaders motivations by providing a detailed examination of the ideas and experiences of those who promoted and participated in the crusades of Louis IX of France in the mid thirteenth century It assesses the possibilities and problems associated with the source material available to historians of crusading in the thirteenth century and highlights the unique nature and value of John of Joinville s *Life of Saint Louis* Two distinct approaches are taken to the analysis of these sources in order to demonstrate their richness The first of these is thematic and is employed to reveal contrasts between the idealised images of crusading depicted by its promoters and the experiences of those who responded to their calls to take the cross Secondly the careers of Joinville and his close

contemporary Oliver of Termes provide extended case studies demonstrating that involvement with crusading could have very different origins and expressions Overall Crusading in the Age of Joinville provides an innovative and accessible study of crusaders and crusading in the thirteenth century **Revisiting Decadence** Lia Ross,2010-02-19 This volume is an
