Hurst,2014-10-07 David Hurst has a unique knowledge of organizations their function and their failure both in theory and in practice He has spent twenty five years as an operating manager often in crises and turnaround conditions and is also a widely experienced consultant teacher and writer on business This book is his innovative integration of management practice and theory using a systems perspective and analogies drawn from nature to illustrate groundbreaking ideas and their practical application It is designed for readers unfamiliar with sophisticated management concepts and for active practitioners seeking to advance their management and leadership skills Hurst s objective is to help readers make meaning from their own management experience and education and to encourage improvement in their practical judgment and wisdom His approach takes an expansive view of organizations connecting their development to humankind s evolutionary heritage and cultural history It locates the origins of organizations in communities of trust and follows their development and maturation He also crucially tracks the decline of organizations as they age and shows how their strengths become weaknesses in changing circumstances Hurst s core argument is that the human mind is rational in an ecological rather than a logical sense In other words it has evolved to extract cues to action from the specific situations in which it finds itself Therefore contexts matter and Hurst shows how passion reason and power can be used to change and sustain organizations for good and ill The result is an inspirational synthesis of management theory and practice that will resonate with every reader s experience **Golf Guide for Parents and Players** Jacqui McSorley,Johnny Gonzales,2007 Whether your kid is 2 or 18 just starting has played some golf or is already a champion this guide provides practical answers and new ideas to help them get the most out of the game and enjoy an exhilarating golfing life **The British National Bibliography** Arthur James Wells,2005 **International Commercial Litigation** Trevor C. Weedon's Way - The Pain-Free Way Reeves Weedon, 2022-10-06 With back injuries in golf rising there is clearly a need to investigate and resolve the problem via the biomechanics of the swing rather than researching the technology of the clubs Having worked with scientists and doctors with a historical interest in innovation within sporting techniques at Northern Michigan University Michigan State University USA and Sports Surgery Clinic Dublin we have discovered that compared to the modern swing our revolutionary Weedon s Way swing creates significant less torque between the thorax and pelvis without loss of performance The Pain Free Way A Swing for Golfers with Bad Backs In the modern swing during the downswing the thorax accelerates whilst the pelvis decelerates As a consequence the thorax and pelvis act in opposite directions massive torque is inflicted on the lumbosacral spine mainly at L5 S1 In the Weedon s Way swing the thorax and pelvis travel at similar speeds reducing the aforementioned torque In essence we remove the axis tilt i e body s side bend on the downswing In the course of my project I have collated and reviewed 17 years of scientific research papers relating to low back pain in golf The solution common to all papers is to play practise less whilst performing core strengthening exercises There has never been an evidence based alternative until now Swing Weedon s Way The Pain Free Way *Swinging with Gar Gar* Witherspoon, 1987-03
