Lloyd, 2022-08-19 Drawing on rich archival research and focusing on works by leading artists including Guido Reni and Gian Lorenzo Bernini Karen J Lloyd demonstrates that cardinal nephews in seventeenth century Rome those nephews who were raised to the cardinalate as princes of the Church used the arts to cultivate more than splendid social status Through politically savvy frescos and emotionally evocative displays of paintings sculptures and curiosities cardinal nephews aimed to define nepotism as good Catholic rule Their commissions took advantage of their unique position close to the pope embedding the defense of their role into the physical fabric of authority from the storied vaults of the Vatican Palace to the sensuous garden villas that fused business and pleasure in the Eternal City This book uncovers how cardinal nephews crafted a seductively potent dialogue on the nature of power fuelling the development of innovative visual forms that championed themselves as the indispensable heart of papal politics The book will be of interest to scholars working in art history early modern studies religious history and political history

**Art and Identity in Early Modern Rome** Jill Burke, 2017-07-05 From the late fifteenth to the late seventeenth century Rome was one of the most vibrant and productive centres for the visual arts in the West Artists from all over Europe came to the city to see its classical remains and its celebrated contemporary art works as well as for the opportunity to work for its many wealthy patrons They contributed to the eclecticism of the Roman artistic scene and to the diffusion of Roman artistic styles in Europe and beyond Art and Identity in Early Modern Rome is the first book length study to consider identity creation and artistic development in Rome during this period Drawing together an international cast of key scholars in the field of Renaissance studies the book adroitly demonstrates how the exceptional quality of Roman court and urban culture with its elected monarchy its large foreign population and unique sense of civic identity interacted with developments in the visual arts With its distinctive chronological span and uniquely interdisciplinary approach Art and Identity in Early Modern

Rome puts forward an alternative history of the visual arts in early modern Rome one that questions traditional periodisation and stylistic categorisation      Gods of Play Kristiaan Aerccke,1994-08-04 This book studies the close connections between politics culture art and philosophy in seventeenth century Europe As an emblem of this interrelationship the author has chosen the phenomenon of the splendid festive performance of spectacular plays and operas given at absolutist courts in Rome Madrid Paris Versailles and Vienna between 1631 and 1668 Gods of Play fills voids in the scholarly literature on the seventeenth century on absolutism on courtly theatricality and on the philosophy of play Aerccke demonstrates that such splendid performances were not just frivolous entertainment for the courtly class but were serious activities with far ranging political consequences      **Caravaggio** DavidM. one Roman aristocratic family the Barberini was not squeezed out of governing by the extension of the papal bureaucracy but rather became increasingly engaged with it during the long eighteenth century Through their participation in the rural commune villagers in an extensive territory belonging to the Barberini became active participants in the governing of the countryside Villagers cultivated and exploited interference from the aristocratic family and the papal government but they also kept urban elites at bay defending their rights through the strategies of adversarial literacy Such literate practices drew on village mastery of local constitutions debates in the village assembly and brilliant use of the legal system of the papacy to thwart the designs of the Barberini Later villagers created and interpreted sources for themselves effectively challenging the elite monopoly on making and interpreting texts A lost world of increasingly savvy villagers irate nobles and exasperated bureaucrats emerges here in an engaging narrative that chronicles how seemingly marginalized villagers challenged the pragmatic control of the Roman countryside using texts and ideas that urban elites had exported to the countryside for other purposes
