Tragedies and Christian Congregations Christopher Southgate, Carla Grosch-Miller, Hilary Ison, Megan Warner, 2019-09-26 When tragedy strikes a community it is often unexpected with long lasting effects on the people left in its wake Too often there aren't adequate systems in place to aid those affected in processing what has happened This study uniquely combines practical theology pastoral insight and scientific data to demonstrate how Christian

congregations can be helped to be resilient in the face of sudden devastating events Beginning by identifying the characteristics of trauma in individuals and communities this collection of essays from practitioners and academics locates sudden trauma inducing tragedies as a problem in practical theology A range of biblical and theological responses are presented but contemporary scientific understanding is also included in order to challenge and stretch some of these traditional theological resources The pastoral section of the book examines the ethics of response to tragedy locating the role of the minister in relation to other helping agencies and exploring the all too topical issue of ministerial abuse Developing a nuanced rationale for good practical pastoral liturgical and theological responses to major traumas this book will be of significant value to scholars of practical theology as well as practitioners counselling in and around church congregations

Consumption and Culture in the Seventeenth and Eighteenth Centuries John Brewer,1991 The Scriblerian and the Kit-Cats ,1993 *Coronations* János M. Bak,2024-03-29 Fascination with royal pomp and circumstance is as old as kingship itself The authors of *Coronations* examine royal ceremonies from the ninth to the sixteenth century and find the very essence of the monarchical state in its public presentation of itself This book is an enlightened response to the revived interest in political history written from a perspective that cultural historians will also enjoy The symbolic and ritual acts that served to represent and legitimate monarchical power in medieval and early modern Europe include not only royal and papal coronations but also festive entries inaugural feasts and rulers funerals Fifteen leading scholars from North America Britain France Germany Poland and Denmark explore the forms and the underlying meanings of such events as well as problems of relevant scholarship on these subjects All the contributions demonstrate the importance of in depth study of rulership for the understanding of premodern power structures Emphasis is placed on interdisciplinary approaches drawing on the findings of ethnography and anthropology combined with rigorous critical evaluation of the written and iconic evidence The editor s historiographical introduction surveys the past and present of this field of study and proposes some new lines of inquiry For reality is not a one dimensional matter even if we can establish what actually transpired we still need to ask how it was perceived by those present This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990 Infanticide Rachel Dixon,2023-02-02 *Infanticide* examines medical expert evidence in infanticide cases focusing specifically on the shifting notion of certainty in medical testimony Beginning in the Early Modern period and concluding in the mid twentieth century it considers how courts determined whether an infant died from natural causes or other reasons including violence The book explores expert evidence in cases of infanticide and examines the extent of certainty created by medical specialists who founded their testimony on anatomical exploration and science As the book progresses it becomes clear that medical specialists were unable to scientifically

establish cause of death and in doing so conveyed uncertainty in court proceedings Rather than being regarded as a professional failing Dixon argues that the uncertainty created by medical specialists redirected the outcomes of infanticide cases The combination of uncertainty and the changing perceptions of infanticidal women by the court lead juries to find infanticidal women not guilty of a capital offence in many cases This book will be of great interest to students and scholars of Criminology Law and History
