**Sex and Supervision** Joycelyn M. Pollock, 1986-10-21 For decades Zig Ziglar has steered millions of people toward richer more satisfying lives Now in God s Way Is Still the Best Way this dynamic author and speaker teaches you biblical principles that will infuse your faith with action and skyrocket your impact on the world Ziglar shares how developing the fruits of the Holy Spirit are key to an energized God centered life Each chapter is filled with stories of men and women like Tony Evans Mary Kay Ash and Dr Kenneth Cooper whose love for Jesus propels them to share their faith and provide relief to a hurting world A lively Christ centered book that teaches by example God s Way Is Still the Best Way will inspire you to experience success God s way which as Ziglar says is the only permanent way Bowker's Law Books and Serials in Print, 1986 **The Cumulative Book Index**, 1988 A world list of books in the English language **A London Bibliography of the Social Sciences**, 1931 Vols 1 4 include material to June 1 1929 **Subject Guide to Books in Print**, 1993 **Choice**, 1987 Forthcoming Books Rose Army, 1987 **Women's Prison** Gene Kassebaum, 2017-07-28 A thoroughly researched pioneering work based on personal interviews with inmates and prison personnel and on data compiled from questionnaires and inmate record files Women s Prison reveals that homosexual liaisons are the primary foundation of the social structure of female inmates shows that homosexual behavior can be a superficial kind of adjustment to particular situational privations amplifies and broadens the application of earlier findings on men s prisons opens the way for future studies involving the delineation of homosexual roles in the free community This study began with both of the authors interest in gathering data on women in prison to see whether there were female prisoner types consistent with the reported characteristics of male prisoners Early in the course of this study it became apparent that the most salient distinction to be made among the female inmates was between those who were and those who were not engaged in homosexual behavior in prison and further of those who were so involved between the incumbents of masculine and feminine roles It has become increasingly apparent that prison behavior is rooted in more than just the conditions of confinement Unlike their male counterparts who establish the so called inmate code women prisoners suffer intensely from the loss of affectional relationships and form homosexual liaisons as the primary foundation of their social organization The great majority of homosexually involved inmates have their first affair in prison returning to heterosexual roles outside prison Women s Prison is a revealing study of social structure and homosexuality for sociologists of vital interest to social workers parole officers and chaplains dealing with female inmates as well as penologists and criminologists and provocative reading for the non specialist **Risk Markers for Sexual Predation and Victimization in Prison**, 2009 The study found that male inmates engaged in more predatory bartered and consensual sex with other inmates however these different types of sex were highly related suggesting that inmates who engage in one type of sex are far more likely to be involved in the other types of sex A discussion of the implications of these findings for inmate programming highlight the importance of developing gender specific programs that address a broad

spectrum of behaviours associated with sexual violence The discussion reflects on the issue of consent as attributed to prison inmates and addresses the importance of boundary training for the correctional staff at risk for sexual involvement with inmates The analytic process resulted in the construction of nine valid conceptual models for predatory victimized bartered and consensual sex in prison each of which was different for male and female inmates This exploratory research was the first effort to apply empirically validated static and dynamic risk factors for violence to sexual predation and victimization in prisons The models were developed using a sample of 471 inmates 288 males and 183 females from two States

*Risk Markers for Sexual Victimization and Predation in Prison* Janet I. Warren, Shelly L. Jackson, 2013 Risk Markers for Sexual Victimization and Predation in Prison contains the results of Dr Warren and Dr Jackson's study in response to the 2003 Prison Rape Elimination Act and extends the literature on prison rape in important and distinct ways

*Men Behind Bars* Wayne S. Wooden, Jay Parker, 1982 Investigates the sexual behavior and relationships of prison inmates and examines the attitudes of officials and guards toward sex in prison

*Watching You, Watching Me* Brenda V. Smith, 2008 This article examines one of the most often called for remedies for sexual abuse of female inmates ending cross gender supervision of female inmates by male correctional staff Part I of the article describes the context of sexual misconduct against prisoners in the United States highlighting important cases and discourse Part II examines important differences in the legal decisions that address claims challenging cross gender supervision raised by or concerning male and female inmates Part III addresses the disconnect between the jurisprudence involving cross gender supervision of men and women positing a dignity and shame approach by the court and examines the explicit and implicit assumptions about race and gender that account for the difference in treatment of male and female prisoners Part IV concludes with a recommendation that the U S establish a zone of privacy for both male and female inmates that exists regardless of the inmate's gender It further concludes that while same sex supervision of male and female inmates is an imperfect solution it remains the best response presently available The article also provides recommendations for implementing same sex supervision consistent with Title VII thereby recognizing both the importance of equal employment opportunities and the right to privacy and basic human dignity of both male and female inmates
