**Citizens** Susan Greenhalgh, 2010-10-15 Current accounts of China's global rise emphasize economics and politics largely neglecting the cultivation of China's people Susan Greenhalgh one of the foremost authorities on China's one child policy places the governance of population squarely at the heart of China's ascent Focusing on the decade since 2000 and especially 2004-09 she argues that the vital politics of population has been central to the globalizing agenda of the reform state By helping transform China's rural masses into modern workers and citizens by working to strengthen technoscience and legitimize the PRC regime and by boosting China's economic development and comprehensive national power the governance of the population has been critically important to the rise of global China After decades of viewing population as a hindrance to modernization China's leaders are now equating it with human capital and redefining it as a positive factor in the nation's transition to a knowledge based economy In encouraging human development the regime is trying to induce people to become self governing self enterprising persons who will advance their own health education and welfare for the benefit of the nation From an object of coercive restriction by the state population is being refigured as a field of self cultivation by China's people themselves

Too Hot to Handle Jonathan Zimmerman, 2015-02-22 The first comprehensive history of sex education around the world Too Hot to Handle is the first truly international history of sex education As Jonathan Zimmerman shows the controversial subject began in the West and spread steadily around the world over the past century As people crossed borders however they joined hands to block sex education from most of their classrooms Examining key players who supported and opposed the sex education movement Zimmerman takes a close look at one of the most debated and divisive hallmarks of modern schooling In the early 1900s the United States pioneered sex education to protect citizens from venereal disease But the American approach came under fire after World War II from European countries which valued individual rights and pleasures over social goals and outcomes In the so called Third World sex education developed in response to the deadly crisis of HIV AIDS By the early 2000s nearly every country in the world addressed sex in its official school curriculum Still Zimmerman demonstrates that sex education never won a sustained foothold parents and religious leaders rejected the subject as an intrusion on their authority while teachers and principals worried that it would undermine their own tenuous powers Despite the overall liberalization of sexual attitudes opposition to sex education increased as the century unfolded Into the present it remains a subject without a home Too Hot to Handle presents the stormy development and dilemmas of school based sex education in the modern world

*Chinese Translation Studies in the 21st Century* Roberto Valdeon, 2018-11-09 Chinese Translation Studies in the 21st Century which presents a selection of some of the best articles published in the journal Perspectives in a five year period 2012-2017 highlights the vitality of Translation Studies as a profession and as a field of enquiry in China As the country has gradually opened up to the West translation academic programmes have burgeoned to cater for the needs of Chinese corporations and political institutions The book is divided into four sections in which authors explore theoretical and conceptual issues such as the connection between translation and adaptation multimodality and the nature of norms audiovisual translation including studies on news translation and the translation of children's movies bibliographies and bibliometrics to assess for example

the international visibility of Chinese scholars and interpreting analyzing pauses in simultaneous interpreting and sign language among other aspects The book brings together well established authors and younger scholars from universities in mainland China Hong Kong Macao and Taiwan The chapters in this book were originally published in various issues of Perspectives Studies in Translatology

**Migrants In Chinese Megacities: Producing Transient Urban Spaces In The Pearl River Delta** Bettina Gransow, 2025-07-23 This book starts from the assumption that there is no single path of migrant integration or incorporation into the megacity It then asks what kinds of migrant pathways into the Chinese megacity might be discovered by studying migrants own agency Based on over one hundred qualitative interviews conducted in the Pearl River Delta the micro studies in this volume show how different high risk migrant groups voluntary and involuntary blue collar and white collar internal and international connect to the megacity through their everyday routines and practices constituting and appropriating transient urban spaces It also examines the responsiveness of the Chinese government s migration policies from the perspective of these different migrant groups The study brings aspects of migration sociology and risk sociology into dialogue with each other and with urban China studies Linked to ideas of the global risk society and planetary urbanisation the study provides an empirical and theoretical building block beyond China s national development Its findings are expected to contribute to current debates on restricting or promoting migration to Chinese megacities

*Rebel Men* Pamela Hunt, 2022-05-10 Masculinity fast changing and regularly declared to be in the throes of crisis is attracting more popular and scholarly debate in China than ever before At the same time Chinese literature since 1989 has been characterized as brimming with countercultural attitude This book probes the link between literary rebellion and manhood in China showing how as male writers critique the outcomes of decades of market reform they also ask the same question how best to be a man in the new postsocialist order In this first full length discussion of masculinity in post 1989 Chinese literature Pamela Hunt offers a detailed analysis of four contemporary authors in particular Zhu Wen Feng Tang Xu Zechen and Han Han In a series of insightful readings she explores how all four writers show the same preoccupation with the figure of the man on the edges of society Drawing on longstanding Chinese and global models of maverick as well as marginal masculinity and responding to a desire to retain a measure of masculine authority their characters all engage in forms of transgression that still rely heavily on heteronormative and patriarchal values *Rebel Men* argues that masculinity so often overlooked in literary analysis of contemporary China continues to be renegotiated debated and agonized over and is ultimately reconstructed as more powerful than before An exceptionally lucid elegant study of masculinity in mainland Chinese fiction of the 1990s and 2000s Both historically and theoretically informed *Rebel Men* Masculinity and Attitude in Postsocialist Chinese Literature offers a major new perspective on post 1989 Chinese counterculture Julia Lovell Birkbeck University of London

**Sissi's World** Maura E. Hametz, Heidi Schlipphacke, 2018-07-12 Sissi s World offers a transdisciplinary approach to the study of the Habsburg Empress Elisabeth of Austria It investigates the myths legends and

representations across literature art film and other media of one of the most popular revered and misunderstood female figures in European cultural history Sissi's World explores the cultural foundations for the endurance of the Sissi legends and the continuing fascination with the beautiful empress a Bavarian duchess born in 1837 the longest serving Austrian empress and the queen of Hungary who died in 1898 at the hands of a crazed anarchist Despite the continuing fascination with the beloved Sissi the Habsburg empress her impact and legacy have received scant attention from scholars This collection will go beyond the popular biographical accounts recountings of her mythic beauty and scattered studies of her well known eccentricities to offer transdisciplinary cultural perspectives across art film fashion history literature and media Sex, Culture, and Modernity in China Frank Dikötter, 1995-01-01 With the disintegration of Confucian cosmology after the fall of the imperial system in China medical science was introduced as an epistemological foundation for social order The construction of sexuality as a dangerous drive which was thought to form the very core of the individual led to the emergence of a wide range of identities like the menstruating girl the hysterical housewife the masturbating adolescent and the syphilitic husband The naturalization of desire also introduced a tension between the sexual responsibilities of the individual and the coercive intervention of civil society in the name of the collective health of future generations Although new categories of analysis such as population race sex woman and youth were introduced to early Republican China from abroad their reception and adaptation were founded on cultural reorientations which may have taken place as long before as the 17th and 18th centuries Instead of describing the rise of normative naturalism as a derivative discourse from the West this book recognizes that the roots of modernizing representations may have had to be sought in a rich and diverse past in China itself The author's analysis is based on medical and lay texts such as handbooks marriage guides and introductions to physiology and sexual hygiene The epilogue demonstrates how the sexual identities invented early this century are still in place in China today
