Modest Mouse's The Moon & Antarctica Zachary Petit, 2024-11-14 In 1999 Modest Mouse struck out for Chicago to record their major label debut for Epic Records Amid indie circle cries of sellouts a largely untested producer and a half built studio the trio recorded the instrumental basics of The Moon Antarctica and then singer songwriter Isaac Brock got his face smashed by a hooligan in a park With barely any vocals recorded Brock emerged from the hospital with his jaw completely wired shut and returned to a mostly empty studio And there on a diet of painkillers in a neighborhood that wanted to purge the band from its borders a creative alchemy took place that would redefine Modest Mouse and indie rock at large The fact that the band finished the album at all is surprising The fact that it is now considered by critics as hands down one of the greatest records ever made NME is perhaps an utter miracle The Moon Antarctica is an album so strange and enigmatic from those sweet opening notes to the plunging depths of the middle to the shocking furious end that you almost hesitate to listen to it again for fear of it losing its chaotic magic But then you do and you discover all new sounds a lost harmonic here a stray
