

MARC MULHOLLAND

The LONGEST WAR

NORTHERN IRELAND'S TROUBLED HISTORY

Longest War Northern Irelands Troubled History

Liam Kennedy

Longest War Northern Irelands Troubled History:

The Longest War Marc Mulholland, 2023 The troubles in Northern Ireland have proved to be one of the most intractable conflicts in Europe since World War II This exploration of the issues debates about Northern Ireland sets them in the historical context of hundreds of years of conflict

The Longest War Marc Mulholland, 2002 The Troubles in Northern Ireland have proved to be one of the most intractable conflicts in Europe since the Second World War consistently attracting international attention particularly from the United States This highly readable exploration of the central issues and debates about Northern Ireland sets them in the historical context of hundreds of years of conflict It introduces all the key figures and organizations involved in current violent and political conflicts and tackles many questions such as What accounts for the perpetuation of ethnic and religious conflict in Ireland Why has armed violence proven so hard to control Who are the major figures and issues in the conflict Can we expect more Northern Irelands in the future A concise reliable introduction to the historical and current situation this book is ideal reading for anyone wanting to know more about the political climate of Northern Ireland

The Northern Ireland Troubles Aaron Edwards, 2023-09-28 In this fully illustrated introduction acclaimed historian Dr Aaron Edwards provides a concise overview of one of the most difficult and controversial actions in recent history Spanning 38 years of the Troubles the British Army's deployment in Northern Ireland codenamed Operation Banner was one of the most difficult and controversial in its recent history Over 10 000 troops were on active service during much of the campaign which saw armoured vehicles helicopters and special forces deployed onto the streets of Ulster In this book Dr Aaron Edwards considers the strategic operational and tactical aspects of Operation Banner as the Army's military objectives morphed from high profile peacekeeping into a covert war against the IRA Using personal testimony from both sides of the sectarian divide as well as insights from the soldiers themselves he presents an authoritative introduction to the Army's role in the Troubles providing expert analysis of Operation Banner's successes and failures Updated and revised for the new edition with full colour maps and 50 new images this is an accessible introduction to the complicated yet fascinating history of modern Britain's longest military campaign

Who Was Responsible for the Troubles? Liam Kennedy, 2020-09-23 The Troubles claimed the lives of almost four thousand people in Northern Ireland most of them civilians forty five thousand were injured in bombings and shootings Relative to population size this was the most intense conflict experienced in Western Europe since the end of the Second World War The central question posed in this book is fundamental yet it is one that has rarely been asked Who was primarily responsible for the prosecution of the Troubles and their attendant toll of the dead the injured and the emotionally traumatized Liam Kennedy who lived in Belfast throughout most of the conflict was long afraid to raise the question and its implications After years of reflection and research on the matter he has brought together elements of history politics sociology and social psychology to identify the collective actors who drove the conflict onwards for more than three decades from the days of the civil rights movement in the late 1960s to

the signing of the Good Friday Agreement in 1998 The Troubles in Northern Ireland are a world class problem in miniature The combustible mix of national ethnic and sectarian passions that went into the making of the conflict has its parallels today in other parts of the world Who Was Responsible for the Troubles is an original and controversial work that captures the terror and the pain but also the hope of life and the pursuit of happiness in a deeply divided society *Northern Ireland's Troubles* Marie-Therese Fay, Mike Morrissey, Marie Smyth, 1999-03-20 This work provides a background to the Northern Ireland conflict The authors investigate the human effect of the violence looking at the geographical religious gender and age distribution of deaths due to the troubles They analyse the impact of the activities of the various armed participants and examine the relationship between deprivation and levels of violence Looking at suicide rates levels of prescribed drug use and mental health admissions they examine the social impact of the conflict They then compare this with the impact on the economy GDP unemployment levels and public expenditure putting forward a positive agenda for dealing with the effects of conflict and for moving away from violence towards peace **Anglo-Irish Relations in the Early Troubles** Daniel C. Williamson, 2016-12-01 In 1969 the once peaceful Catholic civil rights movement in Northern Ireland degenerated into widespread violence between the nationalist and unionist communities The conflict known as the Troubles would last for thirty years The early years of the Troubles helped to define the nature of the conflict for years to come This was the period in which unionism divided into moderate and extreme wings the Provisional IRA emerged amidst the resurgence of violent republicanism and British military and governmental responsibility for Northern Ireland culminated in direct rule Based on extensive research in British Irish and American archives *Anglo Irish Relations in the Early Troubles* examines the diplomatic relationship between the key players in the formative years of the Northern Ireland conflict It analyses how the Irish government attempted to influence British policy regarding Northern Ireland and how Britain sought to affect Dublin's response to the crisis It was from this strained relationship of opposition and co operation that the long term shape of the Troubles emerged *The Routledge Handbook of the Northern Ireland Conflict and Peace* Laura McAtackney, Máirtín Ó Catháin, 2023-11-13 The Routledge Handbook of the Northern Ireland Conflict and Peace is the first multi authored volume to specifically address the many facets of the 30 year Northern Ireland conflict colloquially known as the Troubles and its subsequent peace process This volume is rooted in opening space to address controversial subjects answer key questions and move beyond reductive analysis that reproduces a simplistic two community theses The temporal span of individual chapters can reach back to the formation of the state of Northern Ireland with many starting in the late 1960s to include a range of individuals collectives organisations understandings and events at least up to the Good Friday Belfast Agreement in 1998 This volume has forefronted creative approaches in understanding conflict and allows for analysis and reflection on conflict and peace to continue through to the present day With an extensive introduction preface and 45 individual chapters this volume represents an ambitious expansive interdisciplinary engagement with the North of Ireland through society conflict

and peace from a wide range of disciplinary perspectives theoretical frameworks and methodological approaches While allowing for rich historical explorations of high level politics rooted in state documents and archives this volume also allows for the intermingling of different sources that highlight the role of personal papers memory space materials and experience in understanding the complexities of both Northern Ireland as a people place and political entity *A History of Counterinsurgency* Gregory Fremont-Barnes, 2015-05-05 This two volume history of counterinsurgency covers all the major and many of the lesser known examples of this widespread and enduring form of conflict addressing the various measures employed in the attempt to overcome the insurgency and examining the individuals and organizations responsible for everything from counterterrorism to infrastructure building How and when should counterinsurgency be pursued as insurgency is growing in frequency and conversely while conventional warfare continues to decline as a means by which political rivals seek to impose their will upon each other What lessons from the past should today's policymakers strategists military leaders and soldiers in the field keep in mind while facing off against 21st century insurgents This two volume set offers a comprehensive history of modern counterinsurgency covering the key examples of this widespread and enduring form of conflict It identifies the political military social and economic measures employed in attempting to overcome insurgency examining the work of the individuals and organizations involved demonstrating how success and failure dictated change from established policy and carefully analyzing the results Readers will gain valuable insight from the detailed assessments of the history of counterinsurgency that demonstrate which strategies have succeeded and which have failed and why After an introductory essay on the subject each chapter provides historical background to the insurgency being addressed before focusing on the specific policies pursued and actions taken by the counterinsurgency force Each section also provides an assessment of those operations including in most cases an analysis of lessons learned and where appropriate their relevance to counterinsurgency operations today The set's coverage spans modern counterinsurgencies from Europe to Asia to Africa since 1900 and includes the ongoing counterinsurgency operations in Afghanistan today Its wide international approach to the subject makes the set a prime resource for readers seeking specific information on a particular conflict or a better understanding of the general theories and practices of counterinsurgency *Times of Troubles* Andrew Sanders, 2012-05-02 This is the first academic study of the British Army in Northern Ireland It investigates the complex experiences of English Scottish Welsh and Irish soldiers alike during the often controversial Operation Banner 1969-2007 The experiences of these soldiers raise many important and difficult questions on war and policy When do troubles riots and insurgency become war How does a liberal state respond to an internal war within its own borders How does it decide on its rules of engagement for its armed forces Featuring key interviews with former soldiers paramilitaries and Special Branch detectives amongst other key actors the authors attempt to answer these questions and enhance our knowledge of conflict resolution by providing a deep analysis of one of the most significant British military operations since the Second World War

International Law and the Classification of Conflicts Elizabeth Wilmshurst, 2012-08-02 This book comprises contributions by leading experts in the field of international humanitarian law on the subject of the categorisation or classification of armed conflict. It is divided into two sections: the first aims to provide the reader with a sound understanding of the legal questions surrounding the classification of hostilities and its consequences; the second includes ten case studies that examine practice in respect of classification. Understanding how classification operates in theory and practice is a precursor to identifying the relevant rules that govern parties to hostilities. With changing forms of armed conflict which may involve multi-national operations, transnational armed groups and organized criminal gangs, the need for clarity of the law is all important. The case studies selected for analysis are Northern Ireland, DRC, Colombia, Afghanistan from 2001, Gaza, South Ossetia, Iraq from 2003, Lebanon 2006, the so-called war against Al Qaeda and future trends. The studies explore the legal consequences of classification, particularly in respect of the use of force, detention in armed conflict and the relationship between human rights law and international humanitarian law. The practice identified in the case studies allows the final chapter to draw conclusions as to the state of the law on classification. Turning Points of the Irish Revolution B.

Grob-Fitzgibbon, 2007-05-14 In his exploration of the use of intelligence in Ireland by the British government from the onset of the Ulster Crisis in 1912 to the end of the Irish War of Independence in 1921, Grob-Fitzgibbon analyzes the role that intelligence played during those critical nine years. **Strained Peace: Northern Ireland from Good Friday to Brexit**

Amanda Hall, 2024-09-30 As the United Kingdom continues to grapple with the aftermath of Brexit, one corner of the Union has remained caught in the crosshairs. Northern Ireland has been the subject of renewed scrutiny since 2016 as efforts to leave the European Union come up against the terms of the Good Friday Agreement and threaten the region's hard-won peace. The reasons for these challenges can be traced back to the Agreement itself as the negotiated settlement and its immediate aftermath set in place a strained peace. This book examines the function and dysfunction of peace after 1998 to explain why its endurance cannot be taken for granted. Strained peace stands apart from the traditional peace-violence binary. Structures of conflict and patterns of division are reiterated in the structures of peace. Tensions might relax just as they might be inflamed by new challenges, but the threat of a return to violence is never fully gone. This book explores how such a condition developed between Good Friday and Brexit, addressing variations in the quality of peace in the insecurity of official structures at Stormont, the shifting role of community groups and the third sector, and the adaptation of culture as a culture war replaced physical violence on the streets. **The Cost of Counterterrorism** Laura K. Donohue, 2008-04-14

In the aftermath of a terrorist attack, political stakes are high: legislators fear being seen as lenient or indifferent and often grant the executive broader authorities without thorough debate. The judiciary's role too is restricted: constitutional structure and cultural norms narrow the courts' ability to check the executive at all but the margins. The dominant Security or Freedom framework for evaluating counterterrorist law thus fails to capture an important characteristic: increased executive power.

that shifts the balance between branches of government This book re calculates the cost of counterterrorist law to the United Kingdom and the United States arguing that the damage caused is significantly greater than first appears Donohue warns that the proliferation of biological and nuclear materials together with willingness on the part of extremists to sacrifice themselves may drive each country to take increasingly drastic measures with a resultant shift in the basic structure of both states

Terrorism and Nationalism in the United Kingdom Nick Brooke,2018-04-17 This book makes a timely contribution to the analysis of nationalism and terrorism and also the absence of terrorism It proposes to analyse why Scottish Welsh and English nationalism has never had as significant a turn to political violence as the case of Irish nationalism has This will answer a question which is too rarely asked why do certain groups not turn to terrorism Nick Brooke makes an important contribution to debates on nationalism in the United Kingdom as well as to debates on the relationship between nationalism and terrorism Furthermore the text provides complete narrative accounts of nationalist terrorism in Scotland Wales and England and considers how recent political developments impact the likelihood of further nationalist terrorism

Terror's Triumph William Meier,2024-11-19 The idea of modern terrorism and the practice of terrorist violence emerged in Britain s first colony Ireland before spreading through imperial networks to South and East Asia to Africa and to the Middle East Thus empire not only birthed terror but also made it global And the sheer spread diversity and longevity of that empire produced multiple stages in the evolution of terrorism from rural intimidation to urban guerilla warfare to homegrown radicalism Indeed today s global terror challenges the ethics of counter terrorism the threats of Islamist and international terrorism and the rise of homegrown right wing extremism all have roots in colonialism

The Oxford Handbook of the Archaeology of the Contemporary World Paul Graves-Brown,Rodney Harrison,Angela Piccini,2013-10 This Handbook is the first comprehensive survey of a rapidly expanding sub field in archaeology the study of the present and recent past It seeks to explore the boundaries of this emerging area to develop a tool kit of concepts and methods which are applicable to this new sub field and to suggest important future trajectories for research

Ireland Joseph Coohill,2014-03-06 From the first prehistoric inhabitants of the island to the St Andrews Agreement and decommissioning of IRA weapons this uniquely concise account of Ireland and its people reveals how differing interpretations of history ancient and modern have influenced modern Irish society Combining factual information with a critical approach Coohill covers all the key events including the Great Famine Home Rule and the Good Friday Agreement Updated with two new chapters expanding the discussion of pre modern Ireland as well as developments in the 21st century this highly accessible and balanced account will continue to provide a valuable resource to all those wishing to acquaint themselves further with the complex identity of the Irish people

Encyclopedia of the World's Minorities Carl Skutsch,2013-11-07 This study of minorities involves the difficult issues of rights justice equality dignity identity autonomy political liberties and cultural freedoms The A Z Encyclopedia presents the facts arguments and areas of contention in over 560 entries in a clear

objective manner For a full list of entries contributors and more visit the Encyclopedia of the World's Minorities website

An Introduction to the Geopolitics of Conflict, Nationalism, and Reconciliation in Ireland Kara E. Dempsey, 2022-07-29
This book examines ethnoterritorial conflict and reconciliation in Ireland from the 1916 Rising to Brexit 2021 including the production and consequences of the island's two distinct political units Highlighting key geographic themes of bordering unity division and national narratives it explores how geopolitical space has been employed over time to re-define divided national allegiances throughout Ireland and within Irish-British relations The analysis draws from in-depth interviews and archival research and spans supranational state municipal neighborhood and individual scales The book pays particular attention to uneven power structures statecraft perceived truths lived experiences reconciliation efforts and renegotiations of national narratives in the production of symbolic landscapes divided cities and shared space *An Introduction to the Geopolitics of Conflict Nationalism and Reconciliation in Ireland* provides readers with an analysis of geopolitical power relations and different spatial productions of conflict and peacebuilding in Ireland Offering deeper understanding of these historic and contemporary geopolitical intersections this book makes a valuable contribution to the fields of Political Geography Border Studies Irish Studies European Studies International Relations Cultural Geography and Regional Studies

Cumulative Extremism Alexander J. Carter, 2019-12-06 This book frames several historical incidents of violent movement counter-movement conflicts within the concept of cumulative extremism the mutually reinforcing dynamic of radicalisation that can develop between two or more antagonistic groups Drawing on several in-depth case studies including the contests between British fascist and anti-fascist groups in the interwar period and from 1967 to 1979 and 1980 to 2000 the Troubles in Northern Ireland from the late 1960s to mid 1970s and Islamist extremists and the far-right counter-jihad movement in Britain since 2009 this book presents the first in-depth academic analysis of the concept of cumulative extremism and constructs a theoretical framework through which to assess its development This is a groundbreaking volume which will be of particular relevance to scholars with an interest in the extreme right social movements political violence and criminology It will also be of interest to policy makers and to practitioners dealing with extremism and radicalisation including youth workers prevent coordinators community support officers and police officers
