The Representation of the Ottoman Orient in Eighteenth Century English Literature Hasan Baktir, 2010-08-01 Inspired by the growing interest in oriental countries and cultures Hasan Baktir examines the representation of the Ottoman Orient in 18th century English literature taking a new perspective to achieve a comprehensive understanding and investigating different aspects of the interaction between the Ottoman Orient and 18th century Europe A number of questions continue to arise in the wake of Said s 1978 landmark study Orientalism How monodirectional was the flow of power in such representations To what extent did the travelling observer also participate and become influenced by the phenomena he tried to depict without attachment What variety of motivations lay behind the desire to know and represent the Oriental other was it simply a question of political control Or were there deeper more enigmatic factors at play sexuality existential affirmation even utter idiosyncrasy How various and diverse was the Western response to the East can we discern degrees of sympathy knowledge and difference in the various Orients offered to us by

the canonical and non canonical figures of 18th century English letters Baktir s study provides answers to many aspects of these questions through a detailed examination of very different texts Baktir does not completely reject Said s argument that European writers created a separate discourse to represent the Orient rather he shows us that there was also a dialogic and negotiating tendency which did not make a radical distinction between the East and the West Relying his argument on 18th century pseudo oriental letters oriental tales and oriental travelogues Baktir demonstrates that the representation of the Ottoman Orient in 18th century English literature differs essentially from earlier centuries because a developing critical and liberal spirit established a negotiation between the two worlds In this book he indicates how the critical and inquisitive spirit of the age of Enlightenment interanimated Oriental and European cultures

Backscheider, Catherine E.

Ingrassia, 2009-10-30 This anthology gathers 368 poems by 80 British women poets of the long eighteenth century Few of these poems have been reprinted since originally published and all are crucial to understanding fully the literary history of women writers Paula R Backscheider and Catherine E Ingrassia demonstrate the enormous diversity of poetry produced during this time by organizing the poems in three broad and deliberately overlapping categories by genre establishing that

women wrote in all of the forms that men did with equal mastery and creativity by theme offering a revisionary look at the range of topics these writers addressed including war ecology friendship religion and the stages of life and by the poems more specific focus on the women's experiences as writers Backscheider and Ingrassia have selected poems that represent the best work of skilled poets creating a wonderful mix of canonical and little known pieces They include the complete texts of longer poems that are abridged or omitted in other collections Their substantial part introductions textual notes bibliographical information and biographical sketches situate the poets and their writings within the cultural and political milieu in which they appeared To generate further scholarship on this subject this essential anthology puts primary texts in front of students scholars and general readers It fills the persistent need to document women's poetic expression during the long eighteenth century and to rewrite the literary history of the period a history from which women have largely been excluded

Charlotte Smith's Liberal Feminism Anne Chandler, 2025-09-01 This book re-assesses the feminist politics of Charlotte Smith 1749-1806 by prioritizing the editorial content of her fiction over the Romantic lyricism of her poetry It describes Smith's application of patriot Whig discourse to the controversies of the Revolutionary era Two constants emerge in Smith's novelistic canon a reform agenda endorsing partisan opposition and a social contract and a feminist agenda foregrounding intellectual freedom These liberal stances provide a counterpoint to a research tradition that has viewed the ups and downs

of Smith's radicalism as need-driven responses to Revolutionary events and domestic hardships. The policy discussions embedded in Smith's novels show that her theory of reform rested as much on ideals of British constitutionalism and enlightened fraternalism as on her own experiences of patriarchal oppression. Earnest young men seeking jobs and helping women along the way were central to her vision of cultural renovation. Her depictions of male sociability connect with her clear emulation of such forebears as Fielding and Smollett whose comedic methods add nuance to her polemics. Smith the novelist was more interested in the entertainment value of low humour than biographical readings have suggested. Overall then this book raises Smith's stature as a contributor both to the Burke-Wollstonecraft-Paine debates of the 1790s and to the liberal feminism of the early nineteenth century by emphasizing the variety of her prose sources.

**Exploring Borders and Boundaries in the Humanities** Melih Karakuzu, Hasan Baktır, Banu Akçeşme, Betül Ateşçi Koçak, 2021-05-26 In a post-everything world we have felt more pain than happiness in building and tampering with borders. The term border has been expanded to become a ploy for grim chauvinistic self-flattery and ultra-nationalist bigotry. We have also faced notorious coverage of the border in the media worldwide and its diverse forms have been extensively deployed in cinema and literature. Centering on a wide range of literary and cinematic genres, the contributors to this volume explore and explain distinct theoretical and scholarly arguments to promote research on literary, linguistic and media representations of the word border.

*Poetics of the Hive* Christopher Hollingsworth, 2005-04 Cris Hollingsworth's waggledance after scouting the rangiest field of literature, Virgil and Homer down to Milton and Swift on to Plath and Byatt, leads you to where the nectar hides. He wisely roams extracting an anthology of poetry, prose, psychology, history, most of all perception that tops the bee's knees. Paul West, author of *The Secret Life of Words*, Hollingsworth's wide-ranging exploration of the image of the hive is impressive. *Poetics of the Hive* and its panoply of references cannot fail to enrich university classrooms, especially those devoted to both the visual arts and literature. Dore Ashton, author of *A Fable of Modern Art*, Cris Hollingsworth's *Poetics of the Hive* is complex even daring in argument. I'm even more impressed by his skill at an increasingly rare critical art: the educing of argument from careful, often brilliant, analytical reading of literary texts. Thomas R.

Edwards executive editor of *Raritan A Quarterly Review* A study to delight the passionate reader *Poetics of the Hive* tells the story of the evolution of the insect metaphor from antiquity to the multicultural present An experiment in the evolutionary biology of artistic form *Poetics of the Hive* freshly examines classic works of literature offering a view of poetic creation that complicates our ideas of the past and its formative role in modern consciousness and world literature In the first part of this lyrical synthesis of rhetoric visual and postmodern theory and cognitive science Cristopher Hollingsworth reveals the structure behind his metaphor redefining it as an aesthetically and philosophically potent tableau that he calls the Hive He traces the Hive s evolution in epic poetry from Homer to Milton which establishes antithetical but complementary images of angelic and demonic bees that Swift Mandeville and Keats use variously to debate classical versus emerging ideas of the individual s relationship to society But the Hive becomes fully psychologized Hollingsworth argues only when its use by Conrad and Wells to explore Europe s colonial imagination of the Other is transformed by Kafka and Sartre into competing symbols of the modern self s existential condition Cristopher Hollingsworth is an assistant professor of English at St John s University Staten Island     *Approaches to Teaching the Novels of Henry Fielding* Jennifer Preston Wilson,Elizabeth Kraft,2015-12-01 Offers pedagogical techniques for teaching Henry Fielding s novels bringing considerations of epic comedy romance religion law politics class gender narrative voice style formalism historicism and book history into the college classroom Includes information on editions reference works biographies and online resources Gives syllabus suggestions for undergraduate and graduate courses     **Spirits Unseen** Christine Göttler,Wolfgang Neuber,2008 Investigating the meanings and uses of spiritus in a variety of early modern disciplines and fields natural philosophy theology music literature and the visual arts this book revisits the ambivalent history of a central ancient concept in a period of crisis and change
