A History of States and Economic Policies in Early Modern Europe
Silvia A. Conca Messina, 2019-04-24. Why was early modern Europe the starting point of the economic expansion which led to the Industrial Revolution? What was the state's role in this momentous transformation? *A History of States and Economic Policies in Early Modern Europe* takes a comparative approach to answer these questions, demonstrating that wars, public finance, and state intervention in the economy were the key elements underlying European economic dynamics of the era. Structured in two parts, the book begins by examining the central issues of the state-economy relationship, including military revolution, the fiscal state, and public finance, mercantilism, the formation of commercial empires, and the economic war between Britain and France in the 1700s. The second part presents a detailed comparison between the different economic policies of the most important European states, looking at their unique demographic, economic, military, and institutional contexts. Taken as a whole, this work provides a valuable analysis of early modern economic history and a picture of Europe's global position on the eve of the Industrial Revolution. This book will be useful to students and researchers of economic history, early modern history, and European history.

Richard Hakluyt and Travel Writing in Early Modern Europe
Claire Jowitt, 2016-03-23. *Richard Hakluyt and Travel Writing in Early Modern Europe* is an interdisciplinary collection of 24 essays which brings together leading international scholarship on Hakluyt and his work. Best known as editor of *The Principal Navigations* (1589, expanded 1598-1600), Hakluyt was a key figure in promoting English colonial and commercial expansion in the early modern period. He also translated major European travel texts, championed English settlement in North America, and promoted global trade and exploration via a Northeast and Northwest Passage. His work spanned every area of English activity and aspiration, from Muscovy to America, from Africa to the Near East, and India to China and Japan, providing up-to-date information and establishing an ideological framework for English rivalries with Spain, Portugal, France, and the Netherlands. This volume resituates Hakluyt in the political, economic, and intellectual context of his time. The genre of the travel collection to which he contributed emerged from Continental humanist literary culture; Hakluyt adapted this tradition for nationalistic purposes by locating a purported history of English enterprise that stretched as far back as he could go in recovering antiquarian records. The essays in this collection advance the study of Hakluyt's literary and historical resources, his international connections, and his rhetorical and editorial practice. The volume is divided into 5 sections: Hakluyt's Contexts, Early Modern Travel Writing Collections, Editorial Practice, Allegiances and Ideologies, Politics, Religion, Nation, and

Hakluyt Rhetoric and Writing The volume concludes with an account of the formation and ethos of the Hakluyt Society founded in 1846 which has continued his project to edit travel accounts of trade exploration and adventure *English Literature in Context* Paul Poplawski, 2017-05-18 This is the second edition of *English Literature in Context* a popular textbook which provides an essential resource and reference tool for all English literature students Designed to accompany students throughout their degree course it offers a detailed narrative survey of the diverse historical and cultural contexts that have shaped the development of English literature from the Anglo Saxon period to the present day Carefully structured for undergraduate use the eight chronological chapters are written by a team of expert contributors who are also highly experienced teachers Each chapter includes a detailed chronology contextual readings of selected literary texts annotated suggestions for further reading a rich range of illustrations and textboxes and thorough historical and literary overviews This second edition has been comprehensively revised with a new chapter on postcolonial literature a substantially expanded chapter on contemporary literature and the addition of over two hundred new critical references Online resources include textboxes chapter samples study questions and chronologies

They Flew Carlos M. N. Eire, 2023-08-29 An award winning historian's examination of impossible events at the dawn of modernity and of their enduring significance Accounts of seemingly impossible phenomena abounded in the early modern era tales of levitation bilocation and witchcraft even as skepticism atheism and empirical science were starting to supplant religious belief in the paranormal In this book Carlos Eire explores how a culture increasingly devoted to scientific thinking grappled with events deemed impossible by its leading intellectuals Eire observes how levitating saints and flying witches were as essential a component of early modern life as the religious turmoil of the age and as much a part of history as Newton's scientific discoveries Relying on an array of firsthand accounts and focusing on exceptionally impossible cases involving levitation bilocation witchcraft and demonic possession Eire challenges established assumptions about the redrawing of boundaries between the natural and supernatural that marked the transition to modernity Using as his case studies stories about St Teresa of Avila St Joseph of Cupertino the Venerable Mar a de greda and three disgraced nuns Eire challenges readers to imagine a world animated by a different understanding of reality and of the supernatural's relationship with the natural world The questions he explores such as why and how impossibility is determined by cultural contexts and whether there is more to reality than meets the eye or can be observed by science have resonance and lessons for our time
