Longshoring On The San Francisco Waterfront:

Longshoring on the San Francisco Waterfront Reg Theriault, 1978 Decasualization of Longshore Work in San Francisco Marvel Keller, 1939 The Globalisation of the Oceans Frank Broeze, 2017-10-18 This book maintains that container shipping is vital to the actualisation of globalisation and that without it globalisation would remain a concept rather than reality It argues that container shipping has been academically overlooked as a global business sector in favour of more prominent sectors such as oil or arms trade and aims to provide a complete history of containerisation from the 1950s to the turn of the millennium This history explores the growth of the container industry due to prominent innovation in vessel design early adoption of the internet large international mergers and significant physical alterations to the global port system With particular emphasis on the east west trade the chapters cover the growth and development of the container industry to the social changes experienced by seafaring labour forces the cultural impact of the container bringing a domineering land presence to maritime activity through to the environmental concerns surrounding the industry. The study is not a quantitative economic analysis of the industry rather an updated history that strives to demonstrate the importance of transport infrastructures to any consideration of global business sectors by providing evidence of the container industry s stimulation of the global economy Report and Recommendations of the Pacific Coast Longshore Fact Finding Board United States. Department of Labor, 1946 Harry Bridges Robert W. Cherny, 2023-01-10 Winner of a Silver Medal from the Independent Publisher Book Awards Won Honorable Mention for 2023 ILHA Book of the Year International Labor History Association The iconic leader of one of America's most powerful unions Harry Bridges put an indelible stamp on the twentieth century labor movement Robert Cherny's monumental biography tells the life story of the figure who built the International Longshore and Warehouse Union ILWU into a labor powerhouse that still represents almost 30 000 workers An Australian immigrant Bridges worked the Pacific Coast docks His militant unionism placed him at the center of the 1934 West Coast Waterfront Strike and spurred him to expand his organizing activities to warehouse laborers and Hawaiian sugar and pineapple workers Cherny examines the overall effectiveness of Bridges as a union leader and the decisions and traits that made him effective Cherny also details the price paid by Bridges as the US government repeatedly prosecuted him for his left wing politics Drawing on personal interviews with Bridges and years of exhaustive research Harry Bridges places an extraordinary individual and the ILWU within the epic history of twentieth century labor radicalism **A Cultural History** of the Radical Sixties in the San Francisco Bay Area Anthony Ashbolt, 2015-10-06 The San Francisco Bay Area was a meeting point for radical politics and counterculture in the 1960s Until now there has been little understanding of what made political culture here unique This work explores the development of a regional culture of radicalism in the Bay Area one that underpinned both political protest and the counterculture **Studies of the Effects of Industrial Change on Labor** Markets ,1937 Dock Workers Sam Davies, Colin J. Davis, David de Vries, Lex Heerma van Voss, Lidewij Hesselink, Klaus

Weinhauer, 2017-09-29 Workers who loaded and unloaded ships have formed a distinctive occupational group over the past two centuries As trade expanded so the numbers of dock labourers increased and became concentrated in the major ports of the world This ambitious two volume project goes beyond existing individual studies of dock workers to develop a genuinely comparative international perspective over a long historical period Volume 1 contains studies of 22 major ports worldwide Built around an agreed framework of issues these port studies examine the type of workers who dominated dock labour their race class and ethnicity the working conditions of dockers and the role of government as employer arbitrator and supporter The studies also detail how dockers organized their labour patterns of strike action and involvement in political organizations The structure of the port city is also outlined and descriptions given of the waterside environment These areas of investigation form the basis for a series of 11 thematic studies which comprise Volume 2 Drawing on the information provided in the port studies these essays identify important aspects and recurring themes and explain how and why particular cases diverge from the rest The final chapter of the book synthesizes the various approaches taken to offer a model which suggests several configurations of dock labour and presents suggestions for future research This major scholarly achievement represents the most sustained attempt to date to provide a comparative international history of dock labour An annotated bibliography completes this essential reference work Decisions and Orders of the National Labor Relations On the Job Craig Heron, Robert H. Storey, 1986 Every day Board United States. National Labor Relations Board, 1953 millions of Canadians go out to work They labour in factories offices restaurants and retail stores on ships and deep in mines And every day millions of other Canadians mostly women begin work in their homes performing the many tasks that ensure the well being of their families and ultimately the reproduction of the paid labour force Yet for all its undoubted importance there has been remarkably little systematic research into the past and present dynamics of the world of work in Canada

Report to the President and to the Congress United States. Maritime Labor Board,1940 **Ocean Beach Storm Damage Reduction Feasibility Study, City and County of San Francisco, CA** United States. Army. Corps of Engineers. San Francisco District,1996 The report presents information developed in the course of a multi year investigation of the need for shore protection and storm damage reduction The study area was 8 6 miles of the Pacific coast known as Ocean Beach in the City of San Francisco CA The study area extended from Cliff House to Fort Funston The beach portion of the study area is in the Golden Gate National Recreation Area under the jurisdiction of the National Park Service Facilities threatened with damage included the Great Highway parking lots of the GGNRA a buried storm and sewer water transport box a sewer pumping plant and ultimately houses and businesses The report records the Ocean Engineering Economic and Geotechnical studies used to formulate and analyze a variety of alternative measures including structural seawalls and revetments as well as beach and dune nourishment The final analysis indicated that most of the study area while not absolutely safe had a low probability of erosion In the one area with a possible federal interest the sponsor was unable to agree to cost share at the

sharing Solidarity Stories Harvey Schwartz,2015-08-03 The International Longshore and Warehouse Union born out of the 1934 West Coast maritime and San Francisco general strikes under the charismatic leadership of Harry Bridges has been known from the start for its strong commitment to democracy solidarity and social justice In this collection of firsthand narratives union leaders and rank and file workers from the docks of Pacific Coast ports to the fields of Hawaii to bookstores in Portland Oregon talk about their lives at work on the picket line and in the union Workers recall the back breaking humiliating conditions on the waterfront before they organized the tense days of the 1934 strike the challenges posed by mechanization the struggle against racism and sexism on the job and their activism in other social and political causes Their stories testify to the union s impact on the lives of its members and also to its role in larger events ranging from civil rights battles at home to the fights against fascism and apartheid abroad Solidarity Stories is a unique contribution to the literature on unions There is a power and immediacy in the voices of workers that is brilliantly expressed here Taken together these voices provide a portrait of a militant corruption free democratic union that can be a model and an inspiration for what a resurgent American labor movement might look like The book will appeal to students and scholars of labor history social and economic history and social change as well as trade unionists and anyone interested in labor politics and history

Committee on Education and Labor, 1951 Argonaut ,1935 **Divided We Stand** Bruce Nelson, 2021-03-09 Divided We Stand is a study of how class and race have intersected in American society above all in the making and remaking of the American working class in the nineteenth and twentieth centuries Focusing mainly on longshoremen in the ports of New York New Orleans and Los Angeles and on steelworkers in many of the nation's steel towns it examines how European immigrants became American and white in the crucible of the industrial workplace and the ethnic and working class neighborhood As workers organized on the job especially during the overlapping CIO and civil rights eras in the middle third of the twentieth century trade unions became a vital arena in which old and new immigrants and black migrants forged new alliances and identities and tested the limits not only of class solidarity but of American democracy The most volatile force in this regard was the civil rights movement As it crested in the 1950s and 60s the Movement confronted unions anew with the question Which side are you on This book demonstrates the complex ways in which labor organizations answered that question and the complex relationships between union leaders and diverse rank and file constituencies in addressing it Divided We Stand includes vivid examples of white working class agency in the construction of racially discriminatory employment structures But Nelson is less concerned with racism as such than with the concrete historical circumstances in which racialized class identities emerged and developed This leads him to a detailed and often fascinating consideration of white working class ethnicity but also to a careful analysis of black workers their conditions of work their aspirations and identities their struggles for equality Making its case with passion and clarity Divided We Stand will be a compelling and controversial book
