The task of our human self is to open up to this big dream of the soul and allow it to reconcile anything that is not aligned with this great soul's intent in our current life. Each of us moves within the flow of life as an endless experiment. Collectively we are on Earth in the middle of a war for our consciousness and energy. The only way out of the chaos is through higher vibrational states of being such as love, peace, and joy. It all starts with our thoughts, emotions, words, and actions. Let's not wait for any savior to tell us what to do. Instead, let's turn inward to the truth about the light of the Source, which is our essence. Let's anchor in the awareness that we are love and thus allow our body to radiate it in the form of light outside of us. A few years ago I had a dream in which I was presented with a list of values that will be fundamental on Earth in the future. I missed humanity among them. Our soul, heart, empathy, and humanness; these qualities are now needed more than ever before. As the old structures of the outside world fall apart and we are seemingly constrained by restrictions, we are presented a life chance to immerse ourselves inside and by consciously sailing the endless sea of dreams on the waves of love to return to our essence, which is crystal clear love. Only when we harmonize within may the outside world change. The game we play here therefore begins and ends inside each of us.     **Moby Dick** Herman Melville, 1902     *Song of the Whale* Sunil MS, 1901
