Teaching English in Africa Anderson, Jason,2016-04-30 Teaching English in Africa is a practical guide written for primary and secondary school teachers working all over the continent This book relates the practice of English language teaching directly to the African context As well as covering the underlying theory of how children learn languages and how teachers can best facilitate this learning it also provides practical resources and ideas for activities and techniques that have proved successful in English

classrooms in Africa both at primary and secondary level It is intended to be a practical guide so references and citations are kept to a minimum and concepts are presented using examples that are likely to be familiar to most teachers working in Africa If there is a bias in this book it is towards the needs of teachers working in low resource isolated contexts in Africa as these teachers are so often neglected by literature on teaching methodology *Michigan School Moderator* ,1888

Reading Empirical Research Studies John R. Hayes,Richard E. Young,Michele L. Matchett,Maggie McCaffrey,Cynthia Cochran,2020-10-07 For the most part those who teach writing and administer writing programs do not conduct research on writing Perhaps more significantly they do not often read the research done by others because effective reading of articles on empirical research requires special knowledge and abilities By and large those responsible for maintaining and improving writing instruction cannot without further training access work that could help them carry out their responsibilities more effectively This book is designed as a text in graduate programs that offer instruction in rhetoric and composition Its primary educational purposes are to provide models and critical methods designed to improve the reading of scientific discourse to provide models of effective research designs and projects appropriate to those learning to do empirical research in rhetoric Aiming to cultivate new attitudes toward empirical research this volume encourages an appreciation of the rhetorical tradition that informs the production and critical reading of empirical studies The book should also reinforce a slowly growing realization in English studies that empirical methods are not inherently alien to the humanities rather that methods extend the power of humanist researchers trying to solve the problems of their discipline Slow Learners Diane Griffin,2005-08-02 First Published in 1978 Routledge is an imprint of Taylor Francis an informa company **Reports of Patent, Design, Trade Mark and Other Cases** ,1888 **Everyday Classics** Fannie Wyche Dunn,Franklin Thomas Baker,Ashley Horace Thorndike,1922
