No One at the Wheel Samuel I Schwartz, 2018-11-20 The country s leading transport expert describes how the driverless vehicle revolution will transform highways cities workplaces and laws not just here but across the globe Our time at the wheel is done Driving will become illegal as human drivers will be demonstrably more dangerous than cars that pilot themselves Is this an impossible future or a revolution just around the corner Sam Schwartz America s most celebrated transportation guru describes in this book the revolution in self driving cars The ramifications will be dramatic and the transition will be far from seamless It will overturn the job market for the one in seven Americans who work in the trucking industry It will cause us to grapple with new ethical dilemmas if a car will hit a person or a building endangering the lives of its passengers who will decide what it does It will further erode our privacy since the vehicle can relay our location at any moment And like every other computer controlled device it can be vulnerable to hacking Right now every major car maker here and abroad is working on bringing autonomous vehicles to consumers The fleets are getting ready to roll and nothing will ever be the same and this book shows us what the future has in store *Popular Science Monthly and World's Advance* , 1922 **The Popular Science Monthly** , 1922 **Railway Locomotives and Cars** , 1927 **The Reo Review ...** Reo Motor Car Company, 1921 Sports Car Market magazine - January 2008 , **Chemistry** Joan Solomon, 2000 Each Science
