Looking-Glass Wars: Spies on British Screens since 1960 Alan Burton, 2018-01-31 Looking Glass Wars Spies on British Screens since 1960 is a detailed historical and critical overview of espionage in British film and television in the important period since 1960 From that date the British spy screen was transformed under the influence of the tremendous success of James Bond in the cinema the spy thriller and of the new style spy writing of John le Carr and Len Deighton the espionage story. In the 1960s there developed a popular cycle of spy thrillers in the cinema and on television. The new study looks in detail at the cycle which in previous work has been largely neglected in favour of the James Bond films The study also brings new attention to espionage on British television and popular secret agent series such as Spy Trap Quiller and The Sandbaggers It also gives attention to the more realistic representation of spying in the film and television adaptations of le Carr and Deighton and other dramas with a more serious intent In addition there is wholly original attention given to nostalgic spy fictions on screen adaptations of classic stories of espionage which were popular in the late 1970s and through the 1980s and to historical spy fiction dramas which treated real cases of espionage and their characters most notably the notorious Cambridge Spies Detailed attention is also given to the secret state thriller a cycle of paranoid screen dramas in the 1980s which portrayed the intelligence services in a conspiratorial light best understood as a reaction to excessive official secrecy and anxieties about an unregulated security service. The study is brought up to date with an examination of screen espionage in Britain since the end of the Cold War The approach is empirical and historical The study examines the production and reception literary and historical contexts of the films and dramas It is the first detailed overview of the British spy screen in its crucial period since the 1960s and provides fresh attention to spy films series and serials never previously considered Post-war British Drama: Looking Back in Gender Michelene Wandor, 2003-12-16 In this extensively revised and updated edition of her classic work Look Back in Gender Michelene Wandor confirms the symbiotic relationship between drama and gender in a provocative look at key representative British plays from the last fifty years Repositioning the text at the heart of hteatre studies Wandor surveys plays by Ayckbourn Beckett Churchill Daniels Friel Hare Kane Osborne Pinter Ravenhill Wertenbaker Wesker and others Her nuanced argument central to any analysis of contemporary drama discusses the imperative of gender in the playwright's imagination the function of gender as a major determinant of the text's structural and narrative drives the impact of socialism and feminism on post war British drama and the relevance of feminist dynamics in drama differences in the representation of the fmaily sexuality and the mother before and after 1968 the impact of the slogan that the personal is political on contemporary form and content *Through the Looking Glass:* Byzantium through British Eyes Robin Cormack, Elizabeth Jeffreys, 2016-12-05 The papers in this volume derive from the 29th Spring Symposium of Byzantine Studies This was held for the Society for the Promotion of Byzantine Studies in the University of London in March 1995 in order to complement the British Museum exhibition Byzantium Treasures of Byzantine Art and Culture The objective of the symposium was to explore the ways in which British scholars travellers novelists architects churchmen and critics came into contact with Byzantium and how they perceived what they saw The present volume sets out some of the results of this enquiry Byzantium is treated both as a source of influence on British culture as well as an idea which British culture constructed in different ways in different periods of history To give some comparative context attention is also paid to attitudes towards Byzantium in continental Europe Papers deal amongst other topics with the collecting of objects representative of Byzantine culture and with the changing appreciation of Byzantine manuscripts They also include a series of case studies of individual historians and Byzantinists and two deal in particular with Ruskin who emerges as a perceptive 19th century critic of Byzantine Christopher Carr, 2003-09-02 This book addresses the widespread concern regarding British industry's ability to compete internationally Through an analysis of the UK automotive components sector the author examines the central issues at the core of the competitiveness debate and outlines why there has been such a widespread and severe decline in the performance of British manufacturing It draws on findings from visits to thirty British manufacturers and also to thirty overseas manufacturers in Germany the USA and Japan matched on a product basis to allow comparisons and a genuine international perspective The author concludes that competitive decline is due in part to a weakness in the strategic management capability of many UK companies and also to the lack of adequate co ordination and co operation between customer and supplier industries Dr Carr identifies the remaining areas of vulnerability and priorities for action and finally considers the implications for
