Austrian Capital Theory Peter Lewin, Nicolas Cachanosky, 2019-01-10 This Element presents a new framework for Austrian capital theory starting from the notion that capital is value Capital is the value attributed by the valuer at any moment in time to the combination of production goods and labor available for production Capital is the result obtained by calculating the current value of a business unit or business project that employs resources over time It is the result of a subjective entrepreneurial calculation process that relates the flow of consumptions goods to the value of the productive resources that will produce those consumptions goods The entrepreneur is a ubiquitous calculating presence In a review of the development of Austrian capital theory by Carl Menger Eugen von Böhm-Bawerk Ludwig von Mises Friedrich Hayek Ludwig Lachmann as well as recent contributions the Element incorporates the seminal contributions into the new framework in order to provide a more accessible perspective on Austrian capital theory Distinctives Vaughan Roberts, 2000-03-01 In a fresh and readable style Vaughan Roberts issues a challenging call to Christians to live out their faith We should be different from the world around us Targeting difficult but crucial areas such as our attitude to money and possessions sexuality contentment relativism and service this teaching is holiness in the tradition of J C Ryle for the

contemporary generation Roberts helps us to consider how we are to respond biblically to the temptations and pitfalls surrounding us giving what we cannot keep to gain what we cannot lose Global Business Strategy: Asian Perspective (Second Edition) Hwy-chang Moon,2022-01-07 As the second edition of Global Business Strategy this book provides novel insights on how a firm can formulate a successful approach toward its global business from both the Western and Asian perspectives In this respect the book s overall goal is to bridge the gap between these two different viewpoints This second edition includes more recent business theories techniques and cases within the field of global business strategy Specifically it includes new theories and techniques like creating shared value CSV the global value chain platform strategy and business ecosystem They are shown to be important tools for enhancing competitiveness and maintaining sustainability among firms in today s rapidly changing international business environment This is very much evident today given the critical challenges arising from the trade tensions between the United States and China emerging technologies such as artificial intelligence and digital transformation and the unprecedented disruptions brought on by the coronavirus pandemic We hope that this book will serve as a useful companion for students business practitioners policymakers and the more general readers interested in issues related to competitiveness and business **Perspectives on Intellectual Capital** Bernard Marr,2012-06-14 Perspectives on Intellectual Capital bridges the disciplinary gaps and facilitates knowledge transfer across disciplines featuring views on intellectual capital from the fields of accounting strategy marketing human resource management operations management information systems and economics It also offers interdisciplinary views on intellectual capital from the perspectives of public policy knowledge management and epistemology By analyzing the various perspectives Editor Bernard Marr is able to present a truly comprehensive understanding of what intellectual capital is including the state of the art thinking about it in each discipline the common key trends and the trajectories for future developments learning and practice Contributors include many of the leading thinkers in their respective disciplines Mie Augier and David Teece on the Economic Perspective Bernard Marr and Goran Roos on the Strategy Perspective Baruch Lev Leandro Canibano and Bernard Marr on the Accounting Perspective Sudi Sudarsanam Ghulam Sorwar and Bernard Marr on the Finance Perspective Jan Mourtisen Per Nikolaj Bukh and Bernard Marr on the Reporting Perspective Lisa Fernstrom on the Marketing Perspective Ulf Johanson on the HR Perspective L Martin Clotier and E Richard Gold on the Legal Perspective Partick H Sullivan on the Intellectual Property Perspective Giovanni Schiuma Antonio Lerro and Daniela Carlucci on the Interfirm Perspective Ahmed Bounfour and Leif Edvinsson on the Public Policy Perspective J C Spender and Bernard Marr on a Knowledge Based Perspective Goran Roos on An Epistemology Perpective Foreword by Robert Grant Bernard Marr is a Research Fellow in the Centre for Business Performance at Cranfield School of Management UK and Visiting Professor University of Basilicata Italy Citizens Plus Alan C. Cairns,2011-11-01 We are in the midst of a fundamental re evaluation of the desired relation of Aboriginal and non Aboriginal peoples to each other and of how the former are to be institutionally

and constitutionally accommodated within Canada Words matter How we think about where we are and about the future goal of our relationship can confine us in an intellectual prison or liberate us from choices we will otherwise regret In Citizens Plus Alan Cairns unravels the historical record to clarify the current impasse in negotiations between Aboriginal peoples and the state He considers the assimilationist policy assumptions of the imperial era examines more recent government initiatives and analyzes the emergence of the nation to nation paradigm given massive support by the Royal Commission on Aboriginal Peoples We are battered by contending visions he argues a revised assimilation policy that finds its support in the Canadian Alliance Party is countered by the nation to nation vision which frames our future as coexisting solitudes Citizens Plus stakes out a middle ground with its support for constitutional and institutional arrangements which will simultaneously recognize Aboriginal difference and reinforce a solidarity which binds us together in common citizenship Essential reading for those in political science history Native studies public administration and law Citizens Plus will also appeal to the general public interested in one of the most important and complex issues on our agenda Selected as a BC Book for Everybody

century and shows how as soon as the invention spread it was used to achieve subtle and fascinating aesthetic effects A clear presentation of the fundamental concepts of perspective and the reasons for its effectiveness drawing on the latest laboratory research on how people perceive leads into the development of a new theory to explain why Renaissance artists such as Leonardo and Mantegna used perspective in unorthodox ways which have puzzled art scholars This theory illuminates the author s broader consideration of the evolution of art the book proposes a resolution of the debate between those who believe that the invention discovery of perspective is a stage in the steady progress of art and those who believe that perspective is merely a conventional and arbitrary system for the representation of space

Understanding Extreme Sports: A Psychological Perspective Eric Brymer, Francesco Feletti, Erik Monasterio, Robert D. Schweitzer, 2020-03-30 Extreme sports those activities that lie on the outermost edges of independent adventurous leisure activities where a mismanaged mistake or accident would most likely result in death have developed into a significant worldwide phenomenon Brymer Patterson 2002 and Generation Z turn to extreme sports because they are popular and linked to escapism Giannoulakis Pursglove 2017 Arguably extreme sports now support a multi billion dollar industry and the momentum seems to be intensifying Traditional explanations for why extreme sports have become so popular are varied For some the popularity is explained as the desire to rebel against a society that is becoming too risk averse for others it is about the spectacle and the merchandise that is associated with organised activities and athletes For others it is just that there are a lot of people attracted by risk and danger or just want to show off For others still it is about the desire to belong to sub cultures and the glamour that goes with extreme sports Some seek mastery in their chosen activity and in situations of significant challenges This confusion is unfortunate as despite their popularity there is still a negative perception about extreme sports participation There is a pressing need for clarity The dominant research perspective has focused on positivist theory driven perspectives that attempt to match extreme sports against predetermined characteristics For the most part empirical research has conformed to predetermined societal perspectives Other ways of knowing might reveal more nuanced perspectives of the human dimension of extreme sport participation This special edition brings together cutting edge research and thought examining psychology and extreme sports with particular attention payed to the examination of

motivations for initial participation continued participation effective performance and outcomes from participation
