The Poetics of Apocalypse Martha Nandorfy,2003 Guided by the duende liminal principle of creativity and death Lorca represents New York as dystopia cum Armageddon ultimately redeemed by the Blacks of Harlem and the telluric forces unleashed to retake the decadent soulless civilization of North America **BOOK JACKET** **Six Masters of the Spanish Sonnet** Willis Barnstone,1997 With poems selected and translated by one of the preeminent translators of our day this bilingual collection of 112 sonnets by six Spanish language masters of the form ranges in time from the seventeenth to the twentieth centuries and includes the works of poets from Spanish America as well as poets

native to Spain Willis Barnstone's selection of sonnets and the extensive historical and biographical background he supplies serve as a compelling survey of Spanish language poetry that should be of interest both to lovers of poetry in general and to scholars of Spanish language literature in particular Following an introductory examination of the arrival of the sonnet in Spain and of that nation's poetry up to Francisco de Quevedo Barnstone takes up his six masters in chronological turn preceding each with an essay that not only presents the sonneteer under discussion but also continues the carefully delineated history of Spanish language poetry Consistently engaging and informative and never dull or pedantic these essays stand alone as appreciations in the finest sense of that word of some of the greatest poets ever to write It is however Barnstone's subtle musical clear and concise translations that form the heart of this collection As Barnstone himself says In many ways all my life has been some kind of preparation for this volume

A Generation of Spanish Poets 1920-1936 C. B. Morris, 1969-09 This critical study of the group of remarkably talented poets who flourished in Spain between the First World War and the Spanish Civil War includes copious quotations accompanied by English prose translations Mr Morris treats his poets as a group showing how they shared certain themes and attitudes He begins with a general study of the generation as a whole and then examines the use of tradition the zest and levity of the Jazz Age the exaltation of life as a shared attitude then its converse the escape from life and finally the expression in complex imagery of personal tensions and disturbances These are often difficult poets but become less so when they are sympathetically examined in this way and in relation to earlier literary traditions Mr Morris enables the reader to take bearings and establish relationships which are enhanced by reproductions of photographs of the poets

From Romanticism to Surrealism Robert Havard, 1988-01-01 The book offers an in depth critical appreciation of seven major Spanish poets Emphasis is on the modern period with five of the poets being twentieth century poets It is argued that the roots of modern poetry are to be found in Romanticism's anguished search for meaning The seven Spanish poets include Becquer Rosalia de Castro Antonio Machado Jorge Guillen Pedro Salinas Garcia Lorca and Rafael Alberti
