Lord Grey And The World War:

Lord Grey and the World War Hermann Lutz, 2013-10 This is a new release of the original 1928 edition *Lord Grey and the World War* Hermann Lutz, 1928 **Hidden History** Gerry Docherty, James MacGregor, 2013-07-04 Think you know about British history and the causes of the First World War Think again This fascinating and gripping study of events at the turn of the Twentieth Century is a remarkable insight into how political and social factors that we widely accept to be the causes of The Great War were really just a construct put together by a very small but powerful political elite Thought provoking Docherty and Macgregor do not mince their words their arguments are powerful Britain at War Simply astonishing Reader review Very illuminating Reader review You simply MUST read this book Reader review This is a page turner Reader review Hidden History uniquely exposes those responsible for the First World War It reveals how accounts of the war's origins have been deliberately falsified to conceal the guilt of the secret cabal of very rich and powerful men in London responsible for the most heinous crime perpetrated on humanity For ten years they plotted the destruction of Germany as the first stage of their plan to take control of the world The assassination of Archduke Franz Ferdinand was no chance happening It lit a fuse that had been carefully set through a chain of command stretching from Sarajevo through Belgrade and St Petersburg to that cabal in London Our understanding of these events has been firmly trapped in a web of falsehood and duplicity carefully constructed by the victors at Versailles in 1919 and maintained by compliant historians ever since The official version is fatally flawed warped by the volume of evidence they destroyed or concealed from public view Hidden History poses a tantalising challenge The authors ask only that you examine the evidence they lay before you [The Genesis of the World War](#) Harry Elmer Barnes, 1929 Selected references and Footnotes and further references at end of each chapter The literature of war guilt pages 713 717 *The Contemporary Review*, 1928 **The Library World**, 1927 *The New Europe*, 1919 **McNaught's Monthly** Virgil V. Whyte, 1919 **The Living Age**, 1925 [Instruments of Peacemaking 1870-1914](#) Michael Reynolds, 2021-07-01 This book focuses on Anglo American disputes arising out of the civil war in the United States and British interests in the American continent the Geneva Arbitration the Venezuela Guiana Arbitration and the Bhering Sea Arbitration It draws on those cases as model proceedings which laid the foundations and inspiration for a promotion of international law through the Hague Conferences and by the work of English and American

jurists It considers the encouragement these cases gave to the promotion of public international law and how that contributed to the resolution of inter state disputes *The Origins of World War I* Richard F. Hamilton, Holger H. Herwig, 2003-02-24 This work poses a straightforward yet at the same time perplexing question about World War I Why did it happen Several of the oft cited causes are reviewed and discussed The argument of the alliance systems is inadequate lacking relevance or compelling force The arguments of mass demands those focusing on nationalism militarism and social Darwinism it is argued are insufficient lacking indications of frequency intensity and process how they influenced the various decisions The work focuses on decision making on the choices made by small coterie in Austria Hungary Germany Russia France Britain and elsewhere The decisions made later by leaders in Japan the Ottoman Empire Italy the Balkans and the United States are also explored The final chapters review the basic causes once again An alternative position is advanced one focused on elites and coterie their backgrounds and training and on their unique agendas **Crude Genius** Gary May, 2022-12-02 An unknown and hitherto untold story of one of the true pioneers of the international oil industry William McGarvey was crowned the Petroleum King of Austria dubbed Europe s Rockefeller advised the British government in the great debate over converting its naval fleet to oil fuel in preparation for World War I His story is one that links Canada the US Austro Hungary Russia and Romania Today we are witnessing a global campaign to bring to an end King Oil s 150 year reign by shrinking the world s reliance on fossil fuels Yet the story of the early years of how the petroleum world evolved remains wrapped in obscurity *Crude Genius* fills in an important gap in that history The story of William McGarvey covers just five decades Yet in that period McGarvey became a leader in the procurement of oil and raised it from a primitive act to a sophisticated international business He transformed the primitive practice of oil extraction into a science and a powerful technology He drilled and refined oil he manufactured equipment and built pipelines He created a global vision and brought that vision from North America to the Austro Hungarian province of Galicia now part of Poland and Ukraine and made it for a time the third largest oil producing jurisdiction in the world He expanded his empire to Russia and Romania McGarvey was among a handful of individuals responsible for bringing petroleum to the brink of ubiquity The arrival of World War I in 1914 solidified its global omnipresence *Crude Genius* is based upon two decades of research in six countries Gary May has also collected a massive photo archive that visually documents his detailed research This book reads like an adventure story full of intriguing characters stretching many decades engaging in numerous plots and subplots through many countries Most of all this book informs us how the son of an Irish immigrant to Canada put down roots in a very small industry and ho
