**Magic Lands** John M. Findlay, 1993-09-22 The American West conjures up images of pastoral tranquility and wide open spaces but by 1970 the Far West was the most urbanized section of the country Exploring four intriguing cityscapes Disneyland Stanford Industrial Park Sun City and the 1962 Seattle World's Fair John Findlay shows how each created a sense of cohesion and sustained people's belief in their superior urban environment This first book length study of the urban West after 1940 argues that Westerners deliberately tried to build cities that differed radically from their eastern counterparts In 1954 Walt Disney began building the world's first theme park using Hollywood's movie making techniques The creators of Stanford Industrial Park were more hesitant in their approach to a conceptually organized environment but by the mid 1960s the Park was the nation's prototypical research park and the intellectual downtown for the high technology region that became Silicon Valley In 1960 on the outskirts of Phoenix Del E Webb built Sun City the largest most influential retirement community in the United States Another innovative cityscape arose from the 1962 Seattle World's Fair and provided a futuristic somewhat fanciful vision of modern life These four became magic lands that provided an antidote to the apparent chaos of their respective urban milieus Exemplars of a new lifestyle they are landmarks on the changing cultural landscape of postwar America

Disney Declassified Aaron H. Goldberg, 2016-01-13 Welcome to the

world of Disney Declassified a REAL look at some of the situations that play out in their theme parks their corporate boardroom and all too often a courtroom Some of the situations are heartbreaking others are head scratching and all of them are tales Disney would rather you not hear Walt Disney the company bearing his name and their theme parks have been analyzed and chronicled almost ad nauseam The word Disney conjures up different feelings for different people For many The Walt Disney Company stands for all things wholesome family centric moral and entertaining but every now and then scandalous and salacious behavior seeps into the utopian world of Disney Disney Declassified isn't about the analysis of the Disney Company at a deep or philosophical level actually it's quite the contrary it's a collection of true stories with Disney being the setting or the catalyst in situations that are very un-Disney like In some of these instances not every Disney story ends happily ever after The shocking time a baby was born and abandoned in a Magic Kingdom toilet When an eight year old girl was randomly shot in the back while riding aboard the Disneyland Railroad The controversial story of a handicapped woman having her Disneyland annual pass suspended for speeding and running into other guests with her motorized scooter What do a priest accused of molesting multiple children and the founder of a Ponzi scheme have in common They both fled their situations and went to work at Walt Disney World The role a former Nazi SS member played in the construction of Walt Disney World Two hostage situations at Walt Disney World with one at EPCOT tragically ending in suicide How a peeping Tom set up an elaborate system to spy on female cast members as they changed for work inside of Cinderella's Castle Ever hear of something called Sphinctering If you were one of the unlucky guys working for the fire company on Walt Disney World property you may have been subjected to this form of male on male sexual harassment Find out how the public helped to identify and track down a despicable child pornographer based on the Disney resort in the background images the police released from his reprehensible videos The Disney docket doesn't end with cases of ride accidents sex crimes death and violence There are multiple stories of people faking cancer to score a free trip to Walt Disney World interesting copyright infringement and Americans with Disability Act lawsuits and a touching story how a young boy with autism utilizes Disney characters to communicate with his family However you feel about Disney lover or hater explore these stories and many more when the real world collides with Disney and their world Chances are you may never view Disney the same way again

**Billboard**, 1967-09-09 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends Golden State, Golden Youth Kirse Granat May, 2010-03-15 Seen as a land of sunshine and opportunity the Golden State was a mecca for the post World War II generation and dreams of the California good life came to dominate the imagination of many Americans in the 1950s and 1960s Nowhere was this more evident than in the explosion of California youth images in popular culture Disneyland television shows such as The Mickey Mouse Club Gidget and other beach movies the music of the Beach Boys all

these broadcast nationwide a lifestyle of carefree wholesome fun supposedly enjoyed by white middle class suburban young people in California Tracing the rise of the California teen as a national icon Kirse May shows how idealized images of a suburban youth culture soothed the nation's postwar nerves while denying racial and urban realities Unsettling challenges to this mass mediated picture began to arise in the mid 1960s however with the Free Speech Movement's campus revolt in Berkeley and race riots in Watts In his 1966 campaign for the governorship of California Ronald Reagan transformed the backlash against the dangerous youths who fueled these actions into political triumph As May notes Reagan's victory presaged a rising conservatism across the nation

*Television in Black-and-white America* Alan Nadel, 2005 La couverture indigène Alan Nadel's new book reminds us that most of the images on early TV were decidedly Caucasian and directed at predominantly white audiences Television did not invent whiteness for America but it did reinforce it as the norm particularly during the Cold War years Nadel now shows just how instrumental it was in constructing a narrow conservative and very white vision of America During this era prime time TV was dominated by adult Westerns with heroes like The Rebel's Johnny Yuma reincarnating Southern values and Bonanza's Cartwright family reinforcing the notion of white patriarchy programs that Nadel shows bristled with Cold War messages even as they spoke to the nation's mythology America had become visually reconfigured as a vast Ponderosa crisscrossed by concrete highways designed to carry suburban white drivers beyond the moral challenge of racism racial poverty and increasingly vocal civil rights demands
