Los Chinos De Cuba Apuntes Etnograficos:

Los chinos de Cuba José Baltar Rodríguez, 1997 The Chinese Trace in Cuban Literature Rogelio Rodriguez Coronel, 2024-10-30 A Chinese proverb that reminds us of this book reads The strongest and most luxuriant tree lives from what it has underneath Thus Cuban culture has nourishing sources that must be fully known in order to enjoy and understand what we are Generally the analyses of the nation s profile pay attention to the Hispanic and African components and the important role of the Chinese channel in our culture is often overlooked The Chinese Trace in Cuban Literature is without a doubt the most notable effort so far to reveal this trace in our literature from the 19th century to today and in different literary genres and discursive types as its author maintains From the creation of novel characters designed within a reproductive realism the assumption of signs typical of Chinese culture and thought for the shaping of the text the treatment of historical issues either in the evolutionary outline of a lineage or in the investigation of significant events the incursion into this problem from generic modalities or literary renovation proposals to the aesthetic feat of the transcoding of forms and meanings from Chinese to our language and culture The Chinese in Cuba, 1847-Now Mauro García Triana, Pedro Eng Herrera, 2009-01-16 This book deals with Chinese immigrants role in the struggle for Cuban liberation and in Cuba s twentieth century revolutionary social movement the history of the Chinese economy in Cuba and the Chinese contribution to Cuban music painting food sport and language The centerpiece of the book is a translation of a study by Mauro García Triana and Pedro Eng Herrera on the history of the Chinese presence in Cuba Over many years García and Eng have collaborated closely on scholarly research on the Chinese contribution to Cuban life and politics although their work is not widely known Both are well equipped for such an enterprise Eng as a Cuban of Chinese descent and a participant in the ethnic Chinese revolutionary movement in Cuba starting in the 1950s García as a participant in the struggle against Batista and Cuban Ambassador to China during the period of the Cultural Revolution The study is supplemented by an extensive collection of archival photographs and of paintings on Cuban Chinese themes by Pedro Eng who is not just a chronicler of the community but a well known worker artist who paints in a style described by commentators as naive The volume has three appendices excerpts from the Cuba Commission s 1877 report on Chinese emigration to Cuba the rebel leader Gonzalo de Quesada y Arstegui s pamphlet The Chinese and Cuban Independence translated from his book *Mi primera ofrenda* My first offering first published in 1892 and the chapter on Coolie Life in Cuba from Duvon Clough Corbitt s *Study of the Chinese in Cuba* 1847 1947 Wilmore 1971 **Voices Out of Africa in Twentieth-century Spanish Caribbean Literature** Julia Cuervo Hewitt, 2009 Hewitt Spanish and Portuguese Pennsylvania State U explores the representation of Africa and Afro Caribbean ness in Spanish Caribbean literature of the 20th century Her main argument is that the literary representation of Africa and Africanness meaning practices belief systems music art myths popular knowledge in Spanish speaking Caribbean societies constructs a self referential discourse in which Africa and African things shift to a Caribbean landscape as the site of the M

Other Or in other words these representations imaginatively rescue and simultaneously construct a Caribbean cultural imaginary conceived as the Other within that associates Africa with a cultural womb Among the texts she explores are Fernando Ortiz's interpretations of the Black Carnival in Cuba the early Afro Cuban poems of Alejo Carpentier the Afro Cuban stories of Lydia Cabrera a number of literary representations of the figure of the runaway slave and two works by Puerto Rican novelist Edgardo Rodríguez Juliá

Alien Nation Elliott Young, 2014-11-03 In this sweeping work Elliott Young traces the pivotal century of Chinese migration to the Americas beginning with the 1840s at the start of the coolie trade and ending during World War II The Chinese came as laborers streaming across borders legally and illegally and working jobs few others wanted from constructing railroads in California to harvesting sugar cane in Cuba Though nations were built in part from their labor Young argues that they were the first group of migrants to bear the stigma of being alien Being neither black nor white and existing outside of the nineteenth century Western norms of sexuality and gender the Chinese were viewed as permanent outsiders culturally and legally It was their presence that hastened the creation of immigration bureaucracies charged with capture imprisonment and deportation This book is the first transnational history of Chinese migration to the Americas By focusing on the fluidity and complexity of border crossings throughout the Western Hemisphere Young shows us how Chinese migrants constructed alternative communities and identities through these transnational pathways

The House of the Pain of Others Julián Herbert, 2019-04-16 A brilliant work of historical excavation with profound echoes in an age redolent with violence and xenophobia Early in the twentieth century amid the myths of progress and modernity that underpinned Mexico's ruling party some three hundred Chinese immigrants close to half of the Cantonese residents of the newly founded city of Torreón were massacred over the course of three days It is considered the largest slaughter of Chinese people in the history of the Americas but more than a century later the facts continue to be elusive mistaken and repressed And what do you know about the Chinese people who were killed here Julián Herbert asks anyone who will listen An exorcism of persistent and discomfiting ghosts *The House of the Pain of Others* attempts a reckoning with the 1911 massacre Looping digressive and cinematic Herbert blends reportage personal reflection essay and academic research to portray the historical context as well as the lives of the perpetrators and victims of the small genocide This brilliant historical excavation echoes profoundly in an age redolent with violence and xenophobia

Afro-Asian Connections in Latin America and the Caribbean Debbie Lee-DiStefano, Luisa Marcela Ossa, 2018-11-27 *Afro-Asian Connections in Latin America and the Caribbean* explores the connections between people of Asian and African descent in Latin America and the Caribbean Although their journeys started from different points of origin spanning two separate oceans their point of contact in this hemisphere brought them together under a hegemonic system that would treat these seemingly disparate continental ancestries as one Historically an overwhelming majority of people of African and Asian descent were brought to the Americas as sources of labor to uphold the plantation agrarian economies leading to complex

relationships and interactions The contributions to this collection examine various aspects of these connections The authors bring to the forefront perspectives regarding history literature art and religion and engage how they are manifested in these Afro Asian relationships and interactions They investigate what has received little academic engagement outside the acknowledgement that there are groups who are of African and Asian descent In regard to their relationships with the dominant Europeanized center references to both groups typically only view them as singular entities What this interdisciplinary collection presents is a more cohesive approach that strives to place them at the center together and view their relationships in their historical contexts

Reading José Martí from the Margins Miguel A. De La Torre, 2024-01-05 Reading Jos Mart from the Margins explores the construction of Cuban homophobia racism sexism sinophobia and ethnic discrimination which continues unabated today on both sides of the Florida Straits The apotheosis of Mart and the falsification of his thoughts have made it difficult to provide a critical assessment of his contributions to the cause of political and social liberation In his writings and in his declaration Montecristo Manifesto he is among the first Latin Americanists to envision the future of Cuba and the rest of Latin America with the full and equal inclusion of Indian and Black people However he also unwillingly created the foundation for a paternalistic colorblind social order which contributed to the marginalization of those who fell short of the cis gendered male Eurocuban ideal Relying primarily on Mart s own writings some of which has yet to be translated into English Miguel De La Torre provides a critical assessment of Mart and shows how some of his work contributes to the construction of intra Cuban oppression

The Chinese in Latin America and the Caribbean Walton Look Lai, Chee Beng Tan, 2010 The Chinese migration to the Latin America Caribbean region is an understudied dimension of the Asian American experience There are three distinct periods in the history of this migration the early colonial period pre 19th century when the profitable three century trade connection between Manila and Acapulco led to the first Asian migrations to Mexico and Peru the classic migration period 19th to early twentieth centuries marked by the coolie trade known to Chinese diaspora studies and the renewed immigration of the late 20th century to the present Written by specialists on the Chinese in Latin America and the Caribbean this book tells the story of Asian migration to the Americas and contributes to a more comprehensive understanding of the Chinese in this important part of the world

Orientalism and Identity in Latin America Erik Camayd-Freixas, 2013-03-14 Building on the pioneering work of Edward Said in fresh and useful ways contributors to this volume consider both historical contacts and literary influences in the formation of Latin American constructs of the Orient and the Self from colonial times to the present In the process they unveil wide ranging manifestations of Orientalism Contributors scrutinize the other great encounter not with Europeans but with Arabic Chinese and Japanese cultures as they marked Latin American societies from Mexico Central America and the Caribbean to Peru Argentina and Brazil The perspectives experiences and theories presented in these examples offer a comprehensive framework for understanding wide ranging manifestations of Orientalism in Latin America and elsewhere in the developing world Orientalism and Identity in Latin America expands current theoretical frameworks juxtaposing historical biographical and literary depictions of Middle Eastern and Asian migrations both of people and cultural elements as they have been received perceived refashioned and integrated into Latin American discourses of identity and difference Underlying this intercultural dialogue is the hypothesis that the discourse of Orientalism and the process of Orientalization apply equally to Near Eastern and Far Eastern subjects as well as to immigrants regardless of provenance and indeed to any individual or group who might be construed as Other by a particular dominant culture

Chinese Cubans Kathleen M.
