**Constructions and the Construction of Meaning** Marjolyn Verspoor,Ki-dong Yi,Eve Sweetser,1997-01-01 The basic tenet of cognitive linguistics is that every linguistic expression is a construal relation The first section of this volume focuses on issues of such construal and presentation of information including figure ground relations image schematic structures and the role of syntactic constructions in information structure In sections two and three papers are presented on cross categorial polysemy between lexical and grammatical uses of a morpheme and between different grammatical senses and on the relationship between earlier lexical senses and later grammatical ones The final section of the volume brings together studies which shed further light on transitivity and argument structure The study of transitivity necessarily entails exploration of the relationship between syntactic constructions and the pragmatics and semantics conveyed by such constructions As a whole this collection of papers gives new evidence on the complexity and motivation of the mapping between linguistic form and function and offers a wealth of new directions for research on the construction of meaning at every level of the sentence

**Ontología del mercadillo**

Antonio Gutierrez Resa, 2021 En Ontología del mercadillo sociología de la vida diaria presentamos relatos reales que indican el compromiso diario de lo que nos ocurre y preocupa para seguir orientados. El espacio escogido para constatar lo que decimos es el mercadillo donde se saludan y comunican los vecinos donde cuentan sus experiencias. También acudimos a la literatura y novela contemporánea para ver cómo se reflejan en ellas los problemas y miradas de preocupación del mercadillo y finalmente nos serviremos de los estudios y datos tanto cuantitativos como cualitativos sobre aquello que le pasa al ser humano. Esto último lo llamamos ontología del mercadillo y al esfuerzo de tanta gente anima lo denominamos autotranscendencia.
