**Invisible Cultures** Francesco Carrer, Viola Gheller, 2015-10-05 Cultural and social groups whose outlines are difficult to identify are often considered invisible Occasionally material remains compensate for the absence of historiographical records or literary sources concerning these groups sometimes communities or individuals mentioned in literary sources do not appear to have left material signs of their presence On the other hand there are groups or individuals whose existence has to be assumed in every historical period even though they are invisible in both historiography and archaeology Before trying to understand the lifestyle and historical agency of these invisible cultures it is necessary to highlight the reasons why the memory of certain marginalized individuals or socio cultural units disappeared or was obliterated in material culture and in literary sources The postgraduate conference *Invisible Cultures: Historical and Archaeological Perspectives* brought together young scholars from various backgrounds and research interests to discuss these issues This volume presents the results of this debate through a series of selected papers from various interdisciplinary perspectives which analyse a variety of case studies leading to the identification of new theoretical and methodological perspectives aimed at returning voice and presence to the invisibles of history
