*The Last Road Rebel—And Other Lost Stories* Robert Gilberg,2015-02-03 New Bremen Ohio was mostly like countless other small farm towns in that part of the state in the 1950s The primary business at the time was farmingcorn wheat hay

alfalfa and soybeans along with some dairy farming and there were always cows and pigs in the fields. And it's where author Robert Gilberg spent the first twenty-two years of his life. In *The Last Road Rebel* he shares what it was like growing up in that small town. In this memoir Gilberg admits he is probably lucky to have survived his childhood; some of his friends did not. He is also lucky to have met the right girl at the right time who unknowingly gave him the push needed for him to climb out of an early life with a limited future. The stories—some hilarious, some horribly sad, and some just fun—tell of a young person who experienced the tortures of found and lost teen love, knew the disappointment of poor preparation for life after school, and finally looked himself in the mirror and decided it was time to get out of that place. Against the backdrop of the times when the sounds on the radio were changing from Perry Como and Patti Page to Bill Haley and the Comets, Elvis and Little Richard, *The Last Road Rebel* recalls the times, places, people, events, and experiences that have stayed with Gilberg forever. **The**

Davis, 2015-09-06. *The Lost Road* **England's Lost Transport Heritage from the Air** Allan Brodie, 2025-03-21. Britain was the first country in the world to industrialise, and alongside new means of production came novel forms of transport, including steam trains and steamships in the 19th century, and jet aircraft and hovercrafts in the middle of the 20th century. Aerofilms, flying across the country from 1919 onwards, recorded the country's complex infrastructure of road, rail, and maritime transport that was in place between the wars, and the company was evolving alongside and was part of the new aviation industry that was being created. While flying across the country, Aerofilms' remarkable photographers also recorded how Britain communicated with its imperial territories. The collection includes images of the country's vast merchant fleet of liners and cargo vessels, as well as the flying boats that formed an international network before jets came to dominate the sky. Aerofilms were there to record the first flight of the ill-fated airship R101. Much of this interesting transport history that the company's photographers witnessed has now disappeared or has been relegated to being museum exhibits. This book uses Aerofilms' photographs to tell the story of England's lost transport heritage, from Roman roads to supersonic Concorde.
