LOST TRIBES AND SUNKEN CONTINENTS ,1962 *The Ten Lost Tribes* Zvi Ben-Dor Benite,2013-11 In *The Ten Lost Tribes* Zvi Ben Dor Benite shows for the first time the extent to which the search for the lost tribes of Israel became over two millennia an engine for global exploration and a key mechanism for understanding the world [Encyclopedia of Dubious Archaeology](#) Kenneth L. Feder,2010-10-11 This book provides a fascinating encyclopedic antidote for the mysticism and pseudoscience surrounding well known or highly publicized archaeological and anthropological discoveries Archaeology attempts to answer the question where do we come from in the broadest sense possible as a result it is a highly interesting topic for all mankind When did human beings first walk the earth How did civilization develop What compelled our human ancestors to build things like the pyramids the Great Sphinx or Monk s Mound This book presents the widely unknown scientific facts behind the most popular and enthralling mysteries of our world from an expert archaeological perspective and lays out the information and research in a manner that is approachable engaging and entertaining for any reader *Encyclopedia of Dubious Archaeology* From Atlantis to the Walam Olum contains detailed and highly descriptive definitions for and explanations of terms related to extraordinary claims about human antiquity and its study Some of the terms in this extensive list of topics relate to archaeological hoaxes Many of the entries relate to dubious interpretations of the human past some of the terms relate to far fetched arguments that actually have produced evidence in support of their veracity *The Sea-Craft of Prehistory* Paul Johnstone,2013-11-12 The nautical dimension of prehistory has not so far received the attention it deserves It is also too often assumed that early man was land bound yet this is demonstrably not the case Recent research has shown that man travelled and tracked over greater distances and at a much earlier date than has previously been thought possible Some of these facts can be explained only by man s mastery of water transport from earliest times This book by an acknowledged expert on prehistoric sea craft examines these problems looking at the new archaeological information in the light of the author s nautical knowledge The result is a detailed account of man s use of inland and ocean going craft from earliest times until the dawn of recorded history All forms of evidence are critically assessed from the vessels of Ancient Egypt to the Chinese junk to present of comprehensive picture of the vessels men have built through the ages and of the variety of ways in which they have been used **An Introduction to Native North America** Mark Q. Tripp Evans,2010-06-28 During Mexico s first century of independence European and American explorers rediscovered its pre Hispanic past Finding the jungle covered ruins of lost cities and artifacts inscribed with unintelligible hieroglyphs and having no idea of the age authorship or purpose of these antiquities amateur archaeologists artists photographers and religious writers set about claiming Mexico s pre Hispanic patrimony as a rightful part of the United States cultural heritage In this insightful work Tripp Evans explores why nineteenth century Americans felt entitled to appropriate Mexico s cultural heritage as the United States own He focuses in particular on five well known figures American writer and amateur archaeologist John Lloyd Stephens British architect Frederick Catherwood Joseph Smith founder of the Church of Jesus Christ of Latter Day Saints and the French migr photographers D sir Charnay and Augustus Le Plongeon Setting these figures in historical and cultural context Evans uncovers their varying motives including the Manifest Destiny inspired desire to create a national museum of American antiquities in New York City the attempt to identify the ancient Maya as part of the Lost Tribes of Israel and so substantiate the Book of Mormon and the hope of proving that ancient Mesoamerica was the cradle of North American and even Northern European civilization Fascinating stories in themselves these accounts of the first explorers also add an important new chapter to the early history of Mesoamerican archaeology

The Catherwood Project Leandro Katz,Jesse Lerner,2017-10-15 The work of Argentine photographer Leandro Katz is presented here in dialogue with the nineteenth century artist Frederick Catherwood whose images of Maya ruins have fascinated viewers for more than a century Catherwood s daguerreotypes and sketches originally published to illustrate the travel narratives of John Lloyd Stephens are among the most accurate depictions of important Maya sites before the advent of modern archaeology Katz s photos of the same sites most of which are previously unpublished are presented alongside Jesse Lerner s essay which explores their connections to the history of archaeology their resonance in contemporary art and the evolution of an artist who seamlessly integrates form and content [Origins of the American Indians](#) Lee Eldridge Huddleston,2014-12-15 An examination of early European theories about the origin of American indigenous peoples The American Indian origin culture and language engaged the best minds of Europe from 1492 to 1729 Were the Indians the result of a co creation Were they descended from the Ten Lost Tribes of Israel Could they have emigrated from Carthage

Phoenicia or Troy All these and many other theories were proposed How could scholars account for the multiplicity of languages among the Indians the differences in levels of culture And how did the Indian arrive in America by using as a bridge a now lost continent or as was later suggested by some persons in the light of an expanding knowledge of geography by using the Bering Strait as a migratory route Most of the theories regarding the American Indian were first advanced in the sixteenth century The two most influential men in an early developing controversy over Indian origins were Joseph de Acosta and Gregorio Garc a Approaching the subject with restraint and with a critical eye Acosta in 1590 suggested that the presence of diverse animals in America indicated a land connection with the Old World On the other hand Garc a accepted several theories as equally possible and presented each in the strongest possible light in his Origen de los indios of 1607 In this distinctive book Lee E Huddleston looks carefully into those theories and proposals From many research sources he weaves an historical account that engages the reader from the very first The Chinook Indians Robert H. Ruby, John A. Brown, 1976 The Chinook Indians who originally lived at the mouth of the Columbia River in present day Oregon and Washington were experienced traders long before the arrival of white men to that area When Captain Robert Gray in the ship Columbia Rediviva for which the river was named entered the Columbia in 1792 he found the Chinooks in an important position in the trade system between inland Indians and those of the Northwest Coast The system was based on a small seashell the dentalium as the principal medium of exchange The Chinooks traded in such items as sea otter furs elkskin armor which could withstand arrows seagoing canoes hollowed from the trunks of giant trees and slaves captured from other tribes Chinook women held equal status with the men in the trade and in fact the women were preferred as traders by many later ships captains who often feared and distrusted the Indian men The Chinooks welcomed white men not only for the new trade goods they brought but also for the new outlets they provided Chinook goods which reached Vancouver Island and as far north as Alaska The trade was advantageous for the white men too for British and American ships that carried sea otter furs from the Northwest Coast to China often realized enormous profits Although the first white men in the trade were seamen land based traders set up posts on the Columbia not long after American explorers Lewis and Clark blazed the trail from the United States to the Pacific Northwest in 1805 John Jacob Astor s men founded the first successful white trading post at Fort Astoria the site of today s Astoria Oregon and the North West Company and the Hudson s Bay Company soon followed into the territory As more white men moved into the area the Chinooks began to lose their favored position as middlemen in the trade Alcohol new diseases such as smallpox influenza and venereal disease intertribal warfare and the growing number of white settlers soon led to the near extinction of the Chinooks By 1 51 when the first treaty was made between them and the United States government they were living in small fragmented bands scattered throughout the territory Today the Chinook Indians are working to revive their tribal traditions and history and to establish a new tribal economy within the white man s system *Indians--origin* United States. web as seen above the geometric probability distribution is given by $p \times x \times 1 - p$ express $p \times x$ for $x = 1, 2, n$ to obtain $p \times 1 - p$
 $p \times 2 \times 1 - p$
 $p \times 3 \times 1 - p$
 $p \times n \times 1 - p$ we note that the above are the terms of a geometric sequence hence
