**Reclaiming Patriotism in an Age of Extremes** Steven B. Smith,2021-02-23 A rediscovery of patriotism as a virtue in line with the core values of democracy in an extremist age The concept of patriotism has fallen on hard times What was once a value that united Americans has become so politicized by both the left and the right that it threatens to rip apart the social fabric On the right patriotism has become synonymous with nationalism and an us versus them worldview while on the left it is seen as an impediment to acknowledging important ethnic religious or racial identities and a threat to cosmopolitan globalism Steven B Smith reclaims patriotism from these extremist positions and advocates for a patriotism that is broad enough to balance loyalty to country against other loyalties Describing how it is a matter of both the head and the heart Smith shows how patriotism can bring the country together around the highest ideals of equality and is a central and ennobling disposition that democratic societies cannot afford to do without
