Low Ceiling A World War II Pilots Diary:

The Women with Silver Wings Katherine Sharp Landdeck, 2020 The thrilling true story of the daring female aviators who helped the United States win World War II only to be forgotten by the country they served When Japanese planes executed a sneak attack on Pearl Harbor in December 1941 Cornelia Fort was already in the air At twenty two Cornelia had escaped Nashville s debutante scene for a fresh start as a flight instructor in Hawaii She and her student were in the middle of their lesson when the bombs began to fall and they barely made it back to ground that morning Still when the U S Army Air Forces put out a call for women pilots to aid the war effort Cornelia was one of the first to respond She became one of just over 1 100 women from across the nation to make it through the Army s rigorous selection process and earn her silver wings In The Women with Silver Wings historian Katherine Sharp Landdeck introduces us to these young women as they meet even tempered methodical Nancy Love and demanding visionary Jacqueline Cochran the trailblazing pilots who first envisioned sending American women into the air and whose rivalry would define the Women Airforce Service Pilots For women like Cornelia it was a chance to serve their country and to prove that women aviators were just as skilled and able as men While not authorized to serve in combat the WASP helped train male pilots for service abroad and ferried bombers and pursuits across the country Thirty eight of them would not survive the war But even taking into account these tragic losses Love and Cochran s social experiment seemed to be a resounding success until with the tides of war turning and fewer male pilots needed in Europe Congress clipped the women s wings The program was disbanded the women sent home But the bonds they d forged never failed and over the next few decades they came together to fight for recognition as the military veterans they were and for their place in history

A Vision So Noble Daniel Ford, 2010-05-04 John Boyd was arguably the greatest American strategist since the sea power theorist Alfred Thayer Mahan Known for formulating the OODA Loop as a model for competitive decision making Colonel Boyd also literally wrote the book on modern air combat tactics He led the design of two great aircraft the F15 and especially the F 16 which are still the backbone of the U S Air Force In this short book Daniel Ford looks at how John Boyds thinking can be applied to the difficult campaign against Osama bin Laden and his jihad against the West p 4 of cover
