Low Cost High Tech:

Low-Cost, Low-Tech Innovation Vijay Vyas, 2014-11-13 Like much of SMEs research innovation studies of small enterprises have commenced later and are less numerous The focus of such studies remains high technology enterprises which continue to attract both academic and popular interest oblivious to the innovative endeavours of people in traditional low tech industries This book attempts to address this imbalance through a comprehensive analysis of innovation in this largely neglected area Based on case studies of seven small innovative food companies this book presents an in depth analysis of innovation in the Scottish food and drinks industry and unravels a lesser known approach to effective low cost product innovation which is simple and economical yet elegant and successful Using careful data collection and rigorous statistical testing the analysis and findings in this book address a wide spectrum of interests academics in business schools policy makers in governments and executives and entrepreneurs in food and other low technology sectors **High**

Technology and Regional Development United States. Congress. Joint Economic Committee. Subcommittee on Trade, Productivity, and Economic Growth, 1982 **The High-Tech Potential** Amy K. Glasmeier, 2017-07-05 Rural America is at a crossroads in its economic development Like regions of other First World nations the traditional economic base of rural communities in the United States is rapidly deteriorating Natural resources including agriculture show little prospect for generating future job growth and manufacturing has become a new source of instability Faced with these changes and an increasing vulnerability to international economic events rural communities have begun to seek high technology industries and advanced services as candidates for job growth and economic stability What is the potential for high tech growth outside the largest cities What is the role of high tech industry in the economic development of non metropolitan America This book provides a hard nosed look at the high tech potential in rural economic development Some of the questions Glasmeier addresses include Are rural areas attractive to high tech Will high tech follow earlier patterns and filter down the lowest paid jobs to rural areas Will rural communities be bypassed completely for even lower wage Third World locations Glasmeier answers in a sober analysis that separates fact from myth Empirical data reveals the kinds of high tech jobs that locate in rural areas and the kinds of rural areas that attract high tech jobs This analysis leads to a highly critical evaluation of state and local economic development policy and recommendations for its improvement This book is a must for policymakers practitioners scholars and an informed public interested in the promise of high tech and the future of US economic development *Strategic Marketing* Tony Proctor, 2014-02-25 Fully updated and revised to include the latest case studies and examples from a broad range of industry sectors this second edition of Strategic Marketing An Introduction is a concise thorough and enlightening textbook that demonstrates how organizations can cope with a myriad of demands by better understanding themselves their products or services and the world around them From assessing internal relationships to planning and implementing marketing strategies and featuring analysis of relationship marketing and strategic alliances

Proctor uses insights from a range of key models and theoretical frameworks to illustrate how an organization can successfully take advantage of strategic windows to improve its position. Core issues covered include marketing strategy, analyzing the business environment, the customer in the market place, targeting and positioning, marketing mix strategy. This textbook is the complete guide to assessing and imposing a realistic and successful marketing strategy to fit an organization's resources and objectives and the environment in which it operates. Accessibly written and supported by a user-friendly companion website, this new edition of *Strategic Marketing: An Introduction* is an essential resource for all students of marketing and business and management.

Growth Policy in the Age of High Technology Jürgen Schmandt, Robert Wilson, 2018-03-29. Originally published in 1990, this book provides an authoritative and detailed account of the initiatives of US state governments with science and technology programs designed to foster economic growth. Two key questions are posed: Do state governments have policy instruments that are sufficiently powerful to affect the levels and growth rates of their regional economies? And are national and global economic forces so powerful that they render state action ineffective? Several subsidiary themes are discussed in this context, namely the most commonly used policy instruments, the impacts on federalism and on governance, and how well the universities and other educational institutions serve the economic activities imposed on them.

Managing Technological Innovation Frederick Betz, 2003-07-03. Technology management as a field came together during the 1980s in response to the question of how society could deliberately create new technology and exploit it in economic development. This updated edition introduces technology management, covers the importance of managing information technologies, and compares them to existing physical technologies.

The East Asian High-tech Drive Yunpeng Zhu, Hal Hill, 2006-04-26. East Asia has been an area of high economic growth for several decades. The East Asian High Tech Drive argues that to maintain the growth momentum, the more advanced East Asian economies need to pay particular attention to policies designed to upgrade their industrial capabilities. The authors argue that effectively functioning institutions, predictable commercial policies, investments in human capital, and infrastructure openness and macroeconomic stability are essential for growth and technological development. Regarding the two lower income economies in the sample, Indonesia is found to have the smallest improvement in the skill intensity of its exports, while the Philippines has registered the slowest economic growth. For both countries, industrial upgrading issues are not as imperative as achieving or regaining rapid labour-intensive growth, as both recently experienced major political instabilities.

Automation in Automotive Industries Anna Comacchio, Giuseppe Volpato, Arnaldo Camuffo, 2012-12-06. G. Volpato, A. Camuffo, A. Comacchio. 1. The background. During recent years, the dynamics of the automotive industry and its supply chain has catalysed the attention and the research effort of a wide international group of scholars, as the International Motor Vehicle Program (JMVP) of Massachusetts Institute of Technology, the Permanent Study Group for the Automobile Industry, and

Its Employees GERPISA of Paris and the International Car Distribution l Programme ICDP of Solihull This favoured the publication of relevant studies and the growth of networks of academicians and practitioners interested in studying the patterns of industry evolution and in organising meetings to present and discuss issues of common interest In 1992 some members of these research projects decided to organize a first conference in Berlin dedicated to the main theme of automation and organization in the automobile industry In 1993 a second conference took place in Tokyo followed by a technical visit to a few automobile manufacturers and components suppliers plants Toyota Nissan Mitsubishi etc
