The Philosophical Contexts of Sartre's The Wall and Other Stories Kevin W. Sweeney, 2016-05-16 The Philosophical Contexts of Sartre's The Wall and Other Stories Stories of Bad Faith presents a philosophical analysis of all five stories in Sartre's short story collection Kevin W Sweeney argues that each of the five stories has its own philosophical idea or problem that serves as the context for the narrative Sartre constructs each story as a reply to the philosophical issue in the context and as support for his position on that issue In the opening story The Wall Sartre uses the Constant Kant debate to support his view that the story's protagonist is responsible for his ally's death The Room presents in narrative form Sartre's criticism that the Freudian Censor is acting in bad faith In Erostratus Sartre opposes Descartes's claim in his hats and coats example that we recognize the humanity of others by using our reason In Intimacy Sartre again opposes a Cartesian position this time the view that our feelings reveal our emotions Sartre counters that Cartesian view by showing that the two women in the story act in bad faith because they do not distinguish their feelings from their emotions The last story The Childhood of a Leader shows how the protagonist acts in bad faith in trying to resolve the question of who he is by appealing to the view that one's roots in nature can provide one with a substantial identity The stories are unified by showing the characters in all five narratives engaged in different acts of bad faith The Philosophical Contexts of Sartre's The Wall and Other Stories is written for scholars interested in Jean Paul Sartre's early literary and philosophical work as well as for students interested in Sartre and twentieth century French literature

The harlot's progress, pt.2, and other stories Honoré de Balzac, 1899 **Lost Illusions** Honoré de Balzac, 2020-05-26 A new annotated translation of the keystone of Balzac's Com die Humaine a sweeping narrative of corrupted idealism in a cynical urban milieu Lost Illusions is an essential text within Balzac's Com die Humaine his sprawling interconnected fictional portrait of French society in the 1820s and 1830s comprising nearly one hundred novels and short stories This novel published in three parts between 1837 and 1843 tells the story of Lucien de Rubempr a talented young poet who leaves behind a scandalous provincial life for the shallow corrupt and cynical vortex of modernity that was nineteenth century Paris where his artistic idealism slowly dissipates until he eventually decides to return home Balzac poured many of his thematic preoccupations and narrative elaborations into Lost Illusions from the contrast between life in the provinces and the all consuming world of Paris to the idealism of poets the commodification of art the crushing burden of poverty and debt and the triumphant cynicism of hack journalists and social climbers The novel teems with characters incidents and settings though perhaps none so vivid as its panoramic and despairing view of Paris as the nexus of modernity's cultural social and moral infection For Balzac no institution better illustrates the new reality than Parisian journalism amoral hypocritical brazen

dishonest and murderous he writes In this new translation Raymond N MacKenzie brilliantly captures the tone of Balzac s incomparable prose a style that is alternately impassioned overheated angry moving tender wistful digressive chatty intrusive and hectoring His informative annotations guide the modern reader through the labyrinth of Balzac s allusions

A distinguished provincial at Paris Honoré de Balzac, 1901

The Selected Works of Honore de Balzac Honore de Balzac, Servin one of our most distinguished artists was the first to conceive of the idea of opening a studio for young girls who wished to take lessons in painting About forty years of age a man of the purest morals entirely given up to his art he had married from inclination the dowerless daughter of a general At first the mothers of his pupils bought their daughters themselves to the studio then they

were satisfied to send them alone after knowing the master's principles and the pains he took to deserve their confidence. It was the artist's intention to take no pupils but young ladies belonging to rich families of good position in order to meet with no complaints as to the composition of his classes. He even refused to take girls who wished to become artists for to them he would have been obliged to give certain instructions without which no talent could advance in the profession. Little by little his prudence and the ability with which he initiated his pupils into his art the certainty each mother felt that her daughter was in company with none but well bred young girls and the fact of the artist's marriage gave him an excellent reputation as a teacher in society. When a young girl wished to learn to draw and her mother asked advice of her friends the answer was invariably "Send her to Servin's." Servin became therefore for feminine art a specialty like Herbault for bonnets Leroy for gowns and Chevet for eatables. It was recognized that a young woman who had taken lessons from Servin was capable of judging the paintings of the Musée conclusively of making a striking portrait copying an ancient master or painting a genre picture. The artist thus sufficed for the educational needs of the aristocracy. But in spite of these relations with the best families in Paris he was independent and patriotic and he maintained among them that easy brilliant half ironical tone and that freedom of judgment which characterize painters. He had carried his scrupulous precaution into the arrangements of the locality where his pupils studied. The entrance to the attic above his apartments was walled up. To reach this retreat as sacred as a harem it was necessary to go up a small spiral staircase made within his own rooms. The studio occupying nearly the whole attic floor under the roof presented to the eye those vast proportions which surprise inquirers when after attaining sixty feet above the ground floor they expect to find an artist squeezed into a gutter. This gallery so to speak was profusely lighted from above through enormous panes of glass furnished with those green linen shades by means of which all artists arrange the light. A quantity of caricatures heads drawn at a stroke either in color or with the point of a knife on walls painted in a dark gray proved that barring a difference in expression the most distinguished young girls have as much fun and folly in their minds as men. A small stove with a large pipe which described a fearful zigzag before it reached the upper regions of the roof was the necessary and infallible ornament of the room. A shelf ran round the walls on which were models in plaster heterogeneously placed most of them covered with gray dust. Here and there above this shelf a head of Niobe hanging to a nail presented her pose of woe a Venus smiled a hand thrust itself forward like that of a pauper asking alms a few écorchés yellowed by smoke looked like limbs snatched over night from a graveyard. Besides these objects pictures drawings lay figures frames without paintings and paintings without frames gave to this irregular apartment that studio physiognomy which is distinguished for its singular jumble of ornament and bareness poverty and riches care and neglect. The vast receptacle of an atelier where all seems small even man has something of the air of an Opera coulisse here lie ancient garments gilded armor fragments of stuffs machinery. And yet there is something mysteriously grand like thought in it genius and death are there. Diana and Apollo beside a skull or skeleton beauty and destruction poesy and reality colors glowing in

the shadows often a whole drama motionless and silent Strange symbol of an artist's head At the moment when this history begins a brilliant July sun was illuminating the studio and two rays striking athwart it lengthwise traced diaphanous gold lines in which the dust was shimmering A dozen easels raised their sharp points like masts in a port Several young girls were animating the scene by the variety of their expressions their attitudes and the differences in their toilets The strong shadows cast by the green serge curtains arranged according to the needs of each easel produced a multitude of contrasts and the piquant effects of light and shade This group was the prettiest of all the pictures in the studio A fair young girl very simply dressed sat at some distance from her companions working bravely and seeming to be in dread of some mishap No one looked at her or spoke to her she was much the prettiest the most modest and apparently the least rich among them Two principal groups distinctly separated from each other showed the presence of two sets or cliques two minds even here in this studio where one might suppose that rank and fortune would be forgotten But however that might be these young girls sitting or standing in the midst of their color boxes playing with their brushes or preparing them handling their dazzling palettes painting laughing talking singing absolutely natural and exhibiting their real selves composed a spectacle unknown to man One of them proud haughty capricious with black hair and beautiful hands was casting the flame of her glance here and there at random another light hearted and gay a smile upon her lips with chestnut hair and delicate white hands was a typical French virgin thoughtless and without hidden thoughts living her natural real life a third was dreamy melancholy pale bending her head like a drooping flower her neighbor on the contrary tall indolent with Asiatic habits long eyes moist and black said but little and reflected glancing covertly at the head of Antinous Among them like the jocosos of a Spanish play full of wit and epigrammatic sallies another girl was watching the rest with a comprehensive glance making them laugh and tossing up her head too lively and arch not to be pretty She appeared to rule the first group of girls who were the daughters of bankers notaries and merchants all rich but aware of the imperceptible though cutting slights which another group belonging to the aristocracy put upon them The latter were led by the daughter of one of the King's ushers a little creature as silly as she was vain proud of being the daughter of a man with an office at court She was a girl who always pretended to understand the remarks of the master at the first word and seemed to do her work as a favor to him She used an eyeglass came very much dressed and always late and entreated her companions to speak low

Lost illusions, and other stories Honoré de Balzac, 1899 The Roland Legend in Nineteenth Century French Literature
Harry Redman Jr., 2021-12-14 The year was 778 Charlemagne starting homeward after an expedition onto the Iberian Peninsula left his nephew Count Roland in command of a rear guard As Roland and his troops moved through the Pyrenees a fierce enemy swooped down and annihilated them Whether the attackers were Moors Basques Gascons or Aquitainians is still disputed The massacre soon passed into legend preserved but at the same time expanded and interpreted in oral tradition and written accounts Dormant after the late Middle Ages the legend began to inspire literary works even before the

discovery and publication of the Oxford manuscript *Chanson de Roland* in 1837 The French Revolution and Empire temporarily relieving Roland of his religious aura hailed him as a patriot belaboring his country's foes The Romantics made him either a dauntless irrepressible extrovert or a noble victim struck down while making the world a better place As the twentieth century dawned a few authors scoffed at hero worship but others held up Roland as a heroic example that might help his countrymen live with the humiliation of their defeat in the Franco Prussian War and then as World War I approached retake their lost territories Fascinating as the Roland legend is in itself no one has looked into the nonacademic French literature to which it has given rise in modern times Harry Redman now shows how writers with varying outlooks and approaches and divergent purposes drew upon the legend from 1777 to the end of World War I A monumental enterprise based on primary research the book is of extraordinary value to scholars interested in the Old French epic and to all those concerned with more recent literary periods **The Cambridge Companion to Balzac** Owen Heathcote, Andrew Watts, 2017-02-02 Leading specialists shed new light on key narrative and thematic features of the writings of Honoré de Balzac **Use My Name** James T.
