Plutarch on Literature, Graeco-Roman Religion, Jews and Christians Frederick E. Brenk, 2023-05-08 The present book includes sixteen studies by Professor Frederick E Brenk on Plutarch on Literature Graeco Roman Religion Jews and Christians Of them thirteen were published earlier in different venues and three appear

here for the first time Written between 2009 and 2022 these studies not only provide an excellent example of Professor Brenk's incisiveness and deep knowledge of Plutarch they also provide an excellent overview of Plutarchan studies of the last years on a variety of themes Indeed one of the most salient characteristics of Brenk's scholarship is his constant interaction and conversation with the most recent scholarly literature *Lucrezio e il criterio di verità epicureo* Chiara Rover, 2025-06-02 Was Lucretius a fundamentalist Epicurean and a mere repeater of his Master's words or did he emerge as an innovative philosopher in his own right The relationship between Lucretius and Epicurus remains a complex and unresolved issue in Epicurean scholarship To what extent was Lucretius aware of intellectual debates following Epicurus and how did he contribute to them The volume examines these questions through an epistemological lens focusing on the Canon the science of the criterion Epicurus who died around 271-270 BC did not fully witness firsthand the impact of his doctrines on Hellenistic epistemology nor could he defend them against subsequent criticisms tasks left to his successors By systematically examining the doctrine of the criterion of truth in *De rerum natura* this study shows how Lucretius actively engaged in the defence and evolution of early Epicureanism Despite his fidelity to Epicurus the Poet displayed a remarkable philosophical ability to independently rethink and rework materials from both within the Epicurean tradition and beyond thereby reiterating on a broader scale the non-monolithic nature of the *Kepos* It appeals to scholars interested in Hellenistic and Roman philosophy alike *Epicureanism and Scientific Debates. Antiquity and Late Reception* Francesca Masi, Pierre-Marie Morel, Francesco Verde, 2023-08-28 Epicureanism is not only a defence of pleasure it is also a philosophy of science and knowledge This edited collection explores new pathways for the study of Epicurean scientific thought a hitherto still understudied domain and engages systematically and critically with existing theories It shows that the philosophy of Epicurus and his heirs from antiquity to the classical age founded a rigorous and coherent conception of knowledge This first part of a two-volume set examines more specifically the contribution of Epicureanism in the fields of language medicine and meteorology i.e. celestial geological and atmospheric phenomena Offering a renewed image of Epicureanism the book includes studies on the nature of human language and on the linguistic aspects of scientific discourse on the relationship between Epicureanism and ancient medicine from Hippocrates to Galen on meteorological phenomena and the method of explaining them and on the reception of Epicurus's legacy in Gassendi *Lucretian Receptions in Prose* George Kazantzidis, 2024-09-02 The examination of Lucretian reception in Latin poetry has been served well by scholars Lucretius' presence in later prose writers on the other hand is a topic that warrants more investigation Susanne Gatzemeier's 2013 monograph *Ut ait Lucretius Die Lukrezrezeption in der lateinischen Prosa bis Laktanz* is an invaluable contribution to the topic but by no means exhaustive either in terms of the potential intertextualities it traces or in terms of its interpretive methods and insights At the same time recent studies implicate Lucretius' name in discussions of prose writers who were not that often thought in the past to have engaged with the *De Rerum Natura* in an active way Caesar and Livy but also Vitruvius

and Tacitus are some good examples The present volume taps into this discussion and broadens further our understanding of Lucretian reception in prose writers including Cicero Celsus Seneca the Younger Quintilian Pliny the Younger Plutarch and Lactantius Building on the vast scholarship on the significance of Lucretius as a model for later poets the volume sheds new light on the *De Rerum Natura* s afterlife by looking at its presence in philosophical prose medical writing oratory epistolary writing and Christian theology

Machiavelli and Epicureanism Robert J. Roecklein, 2012-10-05 This book investigates the influence of Epicurean physics on the argument developed in Machiavelli s Discourses on Livy Towards this end the full philosophical history and origins of atomist philosophy are investigated during the first three chapters Plato s critique of the atomist philosophy from his dialogue the Parmenides is a part of that investigation In fact Plato provides a refutation of the atomist philosophy in the Parmenides A significant amount of scholarship has been accomplished that demonstrates the currents of Lucretian atomism in Machiavelli s Florence Evidence is supplied as to Machiavelli s exposure to the Lucretian text and the book then proceeds to investigate the transformational arguments of the Discourses On Livy itself Machiavelli s Discourses are saturated with terminology that is borrowed from physics materia Matter corpo body forma form accidente accident English translators have usually employed some theory as to which tradition of physics Machiavelli is relying upon in order to conduct their translations By borrowing the terminology of Lucretian physics Machiavelli becomes able to conceive of the people in a political society as something less than human as matter or materia without form In my analysis of Machiavelli s deployment of the concepts from Lucretian physics it is attempted to unveil the brutality that is inherent in Machiavelli s new definitions of the elements of politics and the general hostility of his political science to the Aristotelian concept of the human being as

political animal The classical physics of Aristotle which Machiavelli has rejected for a model indicates the forward looking momentum of natural beings For Aristotle nature intends human political society as the arena for human fulfillment In Aristotelian physics nature aims at an end in generation i e at a culmination of the natural being in its proper condition of excellence For human beings this is justice the quality of relationships that makes happiness possible In Machiavelli a new politicized physics is revealed In Machiavelli s model the human beings of formed matter are repeatedly sent through new institutions and methods of government back to their beginnings i e to a condition of isolation destitution injury and pain The last chapter of the book concludes with an examination of the particular institutions and methods that Machiavelli holds out to us for employment if his new vision of a republic is to be realized
