Picturebooks Evelyn Arizpe, Maureen Farrell, Julie McAdam, 2014-10-14 The picturebook is now recognized as a sophisticated art form that has provided a space for some of the most exciting innovations in the field of children's literature This book brings together the work of expert scholars from the UK the USA and Europe to present original theoretical perspectives and new research on picturebooks and their readers The authors draw on a variety of disciplines such as art and cultural history semiotics philosophy cultural geography visual literacy education and literary theory in order to revisit the question of what a picturebook is and how the best authors and illustrators meet and exceed artistic narrative and cultural expectations The book looks at the socio-historical conditions of different times and countries in which a range of picturebooks have been created pointing out variations but also highlighting commonalities It also discusses what the stretching of borders may mean for new generations of readers and what contemporary children themselves have to say about picturebooks This book was originally published as a special issue of the New Review of Children's Literature and Librarianship The John Michell Reader John Michell, 2015-04-23 Deepest thoughts and musings of a 1960s countercultural icon Includes 108 of Michell's most insightful erudite witty and occasionally scathing essays on diverse topics ranging from sacred practices of the Stone Age to the evils of the metric system to the madness of modernity Describes principles to live in tune with the divine order of the world and discover the paradise of the philosophers of ancient times Includes an introductory overview by Joscelyn Godwin of Michell's entire career A countercultural icon of the 1960s John

Michell 1933 2009 was perhaps best known for his books on sacred geometry Earth mysteries and unusual phenomena He was also beloved and reviled for his radical idealistic yet classically traditional views on a wide range of heretical topics from sacred practices of the Stone Age to the evils of the metric system to the madness of modernity and the unfolding apocalypse Carefully selecting 108 of Michell's most insightful erudite witty and occasionally scathing essays from his column in the monthly magazine *The Oldie* esoteric scholar Joscelyn Godwin presents a colorful collection of Michell's writings and rants that cover nearly every aspect of society history and traditional wisdom In these short essays Michell takes on agribusiness Darwinism superstition Stonehenge the insanity of modern society UFOs Jesus fairies the Grail legend among many other topics No matter how small the topic under consideration Michell always takes a larger view on it illuminating it with light from above Godwin's artful selection and ordering of essays reveals Michell's overarching grand view of the world at large We glimpse the heart of Michell as idealistic Platonist and radical traditionalist absorb his common sense lessons for living in tune with the divine order and are reminded that the elusive paradise of the philosophers of ancient times is still within reach for those with the strength of vision to see it
