A Manual of Medical Jurisprudence for the Use of Students at Law and of Medicine (Classic Reprint) Marshall D. Ewell,2015-07-06 Excerpt from A Manual of Medical Jurisprudence for the Use of Students at Law and of Medicine The subject of Medical Jurisprudence is one which does not receive from schools either of law or of medicine anything like the attention which its importance deserves The author when a student of the law some twenty years since and more recently when a student of medicine did not have the benefit of a single lecture upon this subject and it is believed that many if not a majority of the law and medical colleges of the present day dismiss the subject either with no attention whatever or with so

little attention that students derive no practical benefit from the instruction given For a medical man to study the subject as is usually the case if he studies it at all clinically so to speak as the defendant in an action for malpractice or as a so called expert witness while certainly calculated to make an impression upon his memory cannot be said to be wholly agreeable and profitable On the other hand it is not uncommon to see attorneys engaged in the trial of cases involving important interests betray culpable ignorance of this subject About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
