sociopolitical margins both of China and of Tibet's medical establishment in Lhasa exploring the work of medical practitioners or amchi and of Medical Houses in the west central region of Tsang Due to difficult research access and the power of state institutions in the writing of history the perspectives of more marginal amchi have been absent from most accounts of Tibetan medicine Theresia Hofer breaks new ground both theoretically and ethnographically in ways that would be impossible in today's more restrictive political climate that severely limits access for researchers She illuminates how medical practitioners safeguarded their professional heritage through great adversity and personal hardship [The CIA's Secret War in Tibet](#) Kenneth Conboy, James Morrison, 2002-04-04 Defiance against Chinese oppression has been a defining characteristic of Tibetan life for more than four decades symbolized most visibly by the much revered Dalai Lama But the story of Tibetan resistance weaves a far richer tapestry than anyone might have imagined Kenneth Conboy and James Morrison reveal how America's Central Intelligence Agency encouraged Tibet's revolt against China and eventually came to control its fledgling resistance movement While the CIA's presence in Tibet has been alluded to in other works the authors provide the first comprehensive as well as most compelling account of this little known agency enterprise The CIA's Secret War in Tibet takes readers from training camps in the Colorado Rockies to the scene of clandestine operations in the Himalayas chronicling the agency's help in securing the Dalai Lama's safe passage to India and subsequent initiation of one of the most remote covert campaigns of the Cold War Establishing a rebel army in the northern Nepali kingdom of Mustang and a para commando force in India designed to operate behind Chinese lines Conboy and Morrison provide previously unreported details about secret missions undertaken in extraordinarily harsh conditions Their book greatly expands on previous memoirs by CIA officials by putting virtually every major agency participant on record with details of clandestine operations It also calls as witnesses the people who managed and fought in the program including Tibetan and Nepalese agents Indian intelligence officers and even mission aircrews Conboy and Morrison take pains to tell the story from all perspectives particularly that of the former Tibetan guerrillas many of whom have gone on record here for the first time The authors also tell how Tibet led America and India to become secret partners over the course of several presidential administrations and cite dozens of Indian and Tibetan intelligence documents directly related to these covert operations Ultimately they are persuasive that the Himalayan operations were far more successful as a proving ground for CIA agents who were later reassigned to southeast Asia than as a staging ground for armed rebellion As the movement for Tibetan liberation continues to attract international support Tibet's status remains a contentious issue in both Washington and Beijing This book takes readers inside a covert war fought with Tibetan blood and U S sponsorship and allows us to better understand the true nature of that controversy [A Buddhist Ritual Manual on Agriculture](#) Gergely Hidas, 2019-09-02 This volume is the first in depth study of a recently discovered Sanskrit dharani spell text from around the 5th century CE surviving in two palm leaf and three paper manuscript compendia from Nepal This rare Buddhist scripture focuses on the

ritual practice of thaumaturgic weather control for successful agriculture through overpowering mythical Nagas. Traditionally these serpentine beings are held responsible for the amount of rainfall. The six chapters of the *Vajratundasamayakalparaja* present the vidyadhara spell master as a ritualist who uses mandalas, mudras and other techniques to gain mastery over the Nagas and thus control the rains. By subjugating the Nagas, favourable weather and good crops are guaranteed. This links this incantation tradition to economic power and the securing of worldly support for the Buddhist community.
