Link, 2006 The terms entrepreneur and entrepreneurship take on a very specific and somewhat narrow meaning with regard to the connection between entrepreneurship and technology policy In the context of this volume entrepreneurship is defined to refer to the innovative and risk taking activities that are specific to small firms This authoritative volume is divided into four parts Government's Direct Support of R D Government's Leveraging of R D Government's Infrastructure Policies and Knowledge Flows from Universities and Laboratories Most of the journal articles are relatively new being published since the mid to late 1990s but these key articles represent what could become the cornerstone for all future research related to entrepreneurship and technology policy *Strengthening American Manufacturing* Committee on 21st Century Manufacturing: The Role of the Manufacturing Extension Partnership Program of the National Institute of Standards and Technology, Board on Science, Technology, and Economic Policy, Policy and Global Affairs, National Research Council, 2013-10-03 The Manufacturing Extension Partnership MEP a program of the U S Department of Commerce's National Institute of Standards and Technology NIST has sought for more than two decades to strengthen American manufacturing It is a national network of affiliated manufacturing extension centers and field offices located throughout all fifty states and Puerto Rico Qualified MEP Centers work directly with small and medium manufacturing firms in their state or sub state region providing expertise services and assistance directed to foster growth improve supply chain positioning leverage emerging technologies upgrade manufacturing processes develop work force training and apply and implement new information Strengthening American Manufacturing The Role of the Manufacturing Extension Partnership is the summary of a symposium convened to review current operations and some of the recent MEP initiatives in the broader context of global manufacturing trends and the opportunities for high value manufacturing companies Business leaders academic experts and state and federal officials addressed the metrics and impacts of MEP and identified potential areas of improvement The meeting drew attention to the scale and focuses of MEP and highlighted the role it plays in supporting and enabling U S manufacturers to compete more effectively in the global marketplace This report includes an overview of key issues raised at this workshop and a detailed summary of the conference presentations **Manufacturing Extension** Jeffrey Paul Smith, 1999 *Manufacturing Extension Partnership Program* Randolph S. Perkins, 2016-05 The Hollings Manufacturing Extension Partnership MEP program is a national network of centers established by the Omnibus Trade and Competitiveness Act The programs objectives are to enhance productivity and technological performance and to strengthen the global competitiveness of target manufacturing firms namely small and medium sized U S based firms Under this program National Institute of Standards and Technology NIST partners with 60 nonfederal organizations called MEP centers The centers located in 50 states and Puerto Rico help target firms develop new customers and expand capacity among other things NIST awards federal funding to centers under annually renewed cooperative agreements subject to the centers providing matching funds and receiving a

positive performance evaluation This book describes over the past 5 years how NIST spent federal MEP program funds and examines the basis for NIST's cooperative agreement award spending Manufacturing Extension Partnership Program Wendy H. Schacht, Library of Congress. Congressional Research Service, 1997 The Omnibus Trade and Competitiveness Act of 1988 P L 100 418 created a program of regional centers to assist small and medium sized manufacturing companies in using knowledge and technologies developed under the auspices of the National Institute of Standards and Technology NIST a laboratory of the Department of Commerce Now known as the Hollings Manufacturing Extension Partnership MEP centers in all 50 states and Puerto Rico provide technical and managerial assistance to firms Federal funding is matched by non federal sources As the program expanded funding increased until FY1999 when support declined reflecting a decrease in the federal portion of financing from one half to one third as individual centers operated longer than six years Through FY2004 funding remained fairly constant despite the Administration's FY2003 budget that proposed an 88% reduction in support such that MEP centers with more than six years experience operate without federal contribution Financing was cut 63% in FY2004 but restored in FY2005 The President's FY2006 and FY2007 budget proposed funding reductions however in FY2006 MEP was financed at 104.6 million after mandated rescissions and because no final FY2007 appropriation was enacted during the 109th Congress the program was financed through February 15 2007 at the FY2006 level by a series of continuing resolutions Enacted in the 110th Congress P L 110 5 provides 104.6 million for MEP in FY2007 The President's FY2008 budget request includes a significant reduction in support for MEP to 46.3 million This report will be updated as events warrant
