Manufacturing Culture Vindications Of Early Victorian Industry:

Manufacturing Culture Joseph Bizup, 2003 Bizup concludes with an examination of John Ruskin's and William Morris's efforts to counter this sort of rhetorical maneuvering by treating cultured manliness as a figure for the cooperative impulse they both hoped would replace competitive self interest as society's organizing value Jacket *Consuming Culture in the Long Nineteenth Century* Tamara S. The Material Interests of the Victorian Novel Daniel Hack, 2005 Taking as his point of departure the competing uses of the critical term the materiality of writing Daniel Hack turns to the past in this provocative new book to recover the ways in which the multiple aspects of writing now conjured by that term were represented and related to one another in the mid nineteenth century Diverging from much contemporary criticism he argues that attention to the writing's material components and contexts does not by itself constitute reading against the grain On the contrary the Victorian discourse on authorship and the novels Hack discusses including works by Thackeray Dickens Collins and Eliot actively investigate the significance and mutual relevance of the written word or printed word's physicality the exchange of texts for money the workings of signification and the corporeality of writers readers and characters Hack shows how these investigations which involve positioning the novel in relation to such widely denigrated forms of writing as the advertisement and the begging letter bring into play such basic novelistic properties as sympathetic identification narrative authority and fictionality itself Combining formalist and historicist critical methods in innovative fashion Hack changes the way we think about the Victorian novel's simultaneous status as text book and commodity

Victorian Poets and the Changing Bible Charles LaPorte, 2011-11-17 Victorian Poets and the Changing Bible charts the impact of post Enlightenment biblical criticism on English literary culture The eighteenth and nineteenth centuries saw a widespread reevaluation of biblical inspiration in which the Bible's poetic nature came to be seen as an integral part of its religious significance Understandably then many poets who followed this interpretative revolution including Alfred Lord Tennyson Robert Browning and Elizabeth Barrett Browning came to reconceive their highest vocational ambitions if the Bible is essentially poetry then modern poetry might perform a cultural role akin to that of scripture This context equally illuminates the aims and achievements of famous Victorian unbelievers such as Arthur Hugh Clough and George Eliot who also responded enthusiastically to the poetic ideal of an inspired text Building upon a recent and ongoing reevaluation of religion as a vital aspect of Victorian culture Charles LaPorte shows the enduring relevance of religion in a period usually associated with its decline In doing so he helps to delineate the midcentury shape of a literary dynamic that is generally better understood in Romantic poetry of the earlier part of the century The poets he examines all wrestled with modern findings about the Bible's fortuitous historical composition yet they owed much of their extraordinary literary success to their ability to capitalize upon the progress of avant garde biblical interpretation This book's revisionary and provocative thesis speaks not only to the course of English poetics but also to the logic of nineteenth century literary hierarchies and to the continuing evolution of religion in the

modern era Victorian Literature and Culture Series **"The Art-Journal and Fine Art Publishing in Victorian England, 1850-1880"** Katherine Haskins, 2017-07-05 Focusing on an era that both inherited and irretrievably altered the form and the content of earlier art production *The Art Journal and Fine Art Publishing in Victorian England 1850-1880* argues that fine art practices and the audiences and markets for them were influenced by the media culture of art publishing and journalism in substantial and formative ways perhaps more than at any other time in the history of English art The study centers on forms of Victorian picture making and the art knowledge systems defining them and draws on the histories of art literature journalism and publishing The historical example employed in the book is that of the more than 800 steel plate prints after paintings published in the London based *Art Journal* between 1850 and 1880 The cultural phenomenon of the *Art Journal* print is shown to be a key connector in mid Victorian art appreciation by drawing out specific tropes of likeness This study also examines the important links between paint and print the aesthetic values and domestic aspirations of the Victorian middle class and the inextricable intertwining of fine art and trade publishing *The Lives of Machines* Tamara S. Ketabgian, 2011-03-22 DIVE Expanded views of the connection between humans and machines in the Victorian era div *The Outward Mind* Benjamin Morgan, 2017-05-01 Though underexplored in contemporary scholarship the Victorian attempts to turn aesthetics into a science remain one of the most fascinating aspects of that era In *The Outward Mind* Benjamin Morgan approaches this period of innovation as an important origin point for current attempts to understand art or beauty using the tools of the sciences Moving chronologically from natural theology in the early nineteenth century to laboratory psychology in the early twentieth Morgan draws on little known archives of Victorian intellectuals such as William Morris Walter Pater John Ruskin and others to argue that scientific studies of mind and emotion transformed the way writers and artists understood the experience of beauty and effectively redescribed aesthetic judgment as a biological adaptation Looking beyond the Victorian period to humanistic critical theory today he also shows how the historical relationship between science and aesthetics could be a vital resource for rethinking key concepts in contemporary literary and cultural criticism such as materialism empathy practice and form At a moment when the tumultuous relationship between the sciences and the humanities is the subject of ongoing debate Morgan argues for the importance of understanding the arts and sciences as incontrovertibly intertwined Personal Business Aeron Hunt, 2014-09-23 In recent years the analysis of the intersection of literature and economics has generated a vibrant conversation in literary and cultural studies of the Victorian period But Aeron Hunt argues that an emphasis on abstraction and impersonality as the crucial features of the Victorian economic experience has led to a partial and ultimately misleading vision of Victorian business culture In contrast she asserts that the key to understanding the relationship of literary writing to economic experience is what she calls personal business the social and interpersonal relationships of Victorian commercial life in which character was a central mediating concept Juxtaposing novels by Charles Dickens George Eliot and Margaret Oliphant with such nonfiction works as popular biographies periodicals

and business handbooks the author builds on and extends the insights of the new economic criticism by highlighting the embodied interpersonal and socially embedded interactions of everyday economic life Hunt analyzes the productive and disciplinary roles that character played in the Victorian economy and traces the proliferation of different models of character as literary writing and commercial discourse responded to the challenges and opportunities presented by personal business She suggests that the dynamic interchange between forms of character employed in the everyday practice of business and those imagined in literary writing helped shape character as a crucial mode of power in Victorian business culture and economic life Ultimately *Personal Business* provides new ways to understand both the history of the Victorian novel and its implications in middle class culture and the turbulent experience of nineteenth century capitalism

Designing the

Department Store Emily M. Orr, 2019-11-28 The book builds an original argument for the department store as a significant site of design production and therefore offers an alternative interpretation to the mainstream focus on consumption within retail history Emily M Orr presents a fresh perspective on the rise of modern urban consumer culture of which the department store was a key feature By investigating the production processes of display as well as fascinating information about display making's tools and technologies the skills of the displayman and the meaning and context of design decisions which shaped the final visual effect are revealed In addition the book identifies and isolates display as a distinct moment in the life of the commodity and understands it as an influential channel of mediation in the shopping experience The assembly and interpretation of a diverse range of previously unexplored primary resources and archives yields fascinating new evidence showing how display achieved an agency which transformed everyday objects into commodities and made consumers out of passersby

The Literate Eye Rachel Teukolsky, 2009-07-30 Rather than focusing on German philosophy or the French avant gardes as many books on the history of aesthetics do Teukolsky takes up British responses to modern art controversies thus providing a unique view on the development of artistic forms and art history She considers the canonical writing of authors like John Ruskin Walter Pater and Oscar Wilde alongside texts belonging to the rich field of Victorian print culture gallery reviews scientific treatises satirical cartoons advertisements and early photography monographs among them Spanning the years 1840 to 1910 her argument also adds substance to our understanding of the transition from Victorianism to modernism a period of especially lively exchange between artists and intellectuals here narrated with careful attention given to the historical particularities and real events that stamped their imprint on such interactions

The State of

Freedom Patrick Joyce, 2013-04-04 What is the state The *State of Freedom* offers an important new take on this classic question by exploring what exactly the state did and how it worked Patrick Joyce asks us to re-examine the ordinary things of the British state from dusty government files and post offices to well-thumbed primers in ancient Greek and Latin and the classrooms and dormitories of public schools and Oxbridge colleges This is also a history of the who and the where of the state of the people who ran the state the government offices they sat in and the college halls they dined in Patrick Joyce

argues that only by considering these things people and places can we really understand the nature of the modern state This is both a pioneering new approach to political history in which social and material factors are centre stage and a highly original history of modern Britain *Sculpture and the Vitrine* JohnC. Welchman,2017-07-05 Vitrines and glass cabinets are familiar apparatuses that have in large part defined modern modes of display and visibility both within and beyond the museum They separate objects from their contexts group them with other objects both similar and dissimilar and often serve to reinforce their intrinsic or aesthetic values The vitrine has much in common with the picture frame the plinth and the gallery but it has not yet received the kind of detailed art historical and theoretical discussion that has been brought to these other modes of formal display The twelve contributions to this volume examine some of the points of origin of the vitrine and the various relations it brokers with sculpture first in the Wunderkammer and cabinet of curiosities and then in dialog with the development of glazed architecture beginning with Paxton s Crystal Palace 1851 The collection offers close discussions of the role of the vitrine and shop window in the rise of commodity culture and their apposition with Constructivist design in the work of Frederick Kiesler as well as original readings of the use of vitrines in Surrealism and Fluxus and in work by Joseph Beuys Paul Thek Claes Oldenburg and his collaborators Jeff Koons Mike Kelley Dan Graham Vito Acconci Damien Hirst and Josephine Meckseper among others *Sculpture and the Vitrine* also raises key questions about the nature and implications of vitrinous space including its fronts onto desire and the spectacle transparency and legibility and onto ideas and practices associated with the archive collecting preserving and ordering *Gothic Romanticism* Tom Duggett,2022-06-03 Gothic Romanticism Wordsworth Architecture Politics Form offers a revisionist account of both Wordsworth and the politics of antiquarianism in the late eighteenth and early nineteenth centuries As a historically driven study that develops a significant critique and revision of genre and theory based approaches to the Gothic it covers many key works by Wordsworth and his fellow Lake Poets Samuel Taylor Coleridge and Robert Southey The second edition incorporates new materials that develop the argument in new directions opened up by changes in the field over the last decade The book also provides a sustained reflection upon Romantic conservatism including the political thought and lasting influence of Edmund Burke New material places the book in wider and longer context of the political and historical forms seen developing in Wordsworth and proposes Gothic Romanticism as the alternative line of cultural development to Victorian Medievalism *Sir Thomas More: or, Colloquies on the Progress and Prospects of Society, by Robert Southey* Tom Duggett,Tim Fulford,2018-02-06 In 1829 Robert Southey published a book of his imaginary conversations with the original Utopian Sir Thomas More or *Colloquies on the Progress and Prospects of Society* The product of almost two decades of social and political engagement *Colloquies* is Southey s most important late prose work and a key text of late Lake School Romanticism It is Southey s own *Esperilla* s Letters 1807 reimaged as a dialogue of tory and radical selves Coleridge s *Church and State* 1830 cast in historical dramatic form Over a series of wide ranging conversations between the Ghost of More and his own Spanish alter ego

Montesinos Southey develops a richly detailed panorama of British history since the 1530s from the Reformation to Catholic Emancipation Exploring issues of religious toleration urban poverty and constitutional reform and mixing the genres of dialogue commonplace book and picturesque guide the Colloquies became a source of challenge and inspiration for important Victorian writers including Macaulay Ruskin Pugin and Carlyle **Sir Thomas More V1** Tom Duggett,Tim Fulford,2018-10-08 In 1829 Robert Southey published a book of his imaginary conversations with the original Utopian Sir Thomas More or Colloquies on the Progress and Prospects of Society The product of almost two decades of social and political engagement Colloquies is Southey s most important late prose work and a key text of late Lake School Romanticism It is Southey s own Espriella s Letters 1807 reimagined as a dialogue of tory and radical selves Coleridge s Church and State 1830 cast in historical dramatic form Over a series of wide ranging conversations between the Ghost of More and his own Spanish alter ego Montesinos Southey develops a richly detailed panorama of British history since the 1530s from the Reformation to Catholic Emancipation Exploring issues of religious toleration urban poverty and constitutional reform and mixing the genres of dialogue commonplace book and picturesque guide the Colloquies became a source of challenge and inspiration for important Victorian writers including Macaulay Ruskin Pugin and Carlyle **Christina Rossetti** Constance W. Hassett,2005 Although the cultural and literary influence of Christina Rossetti has recently been widely acknowledged the belatedness of this critical attention has left wide gaps in our understanding of her poetic contribution Often focusing solely on her early work and neglecting her later volumes many critics minimized her relevance by measuring her stature through either her early poems or her relationships with well known Victorian literary figures In Christina Rossetti The Patience of Style Constance W Hassett argues against this diminishment by reopening Rossetti s canon challenging both critics and readers to trade their silent appreciation of her most familiar verse for a patient and active scrutiny of her body of work which contains some of the finest lyric poetry of the nineteenth century Keeping her primary focus on the poems themselves Hassett traces Rossetti s career through her five poetry collections Goblin Market and Other Poems 1862 The Prince s Progress and Other Poems 1866 Sing Song A Nursery Rhyme Book 1872 A Pageant and Other Poems 1881 and Verses 1893 In a comprehensive account of Rossetti s evolving style and genre Hassett analyzes the strengths and failures of the poetry its attention to the resources of rhythm and the shifts of diction its momentum and reserve and the rationale for its revision The book also explores Rossetti s innovative poetry for children her daring reconfiguration of religion and poetry in a late life commentary on the Apocalypse and the influences both of female precursors she admired and outgrew and of the male circle of Pre Raphaelite poets For art historians of the Pre Raphaelites scholars of women s writing and gender studies students of children s literature and researchers in religious studies not to mention readers in Victorian poetry Christina Rossetti The Patience of Style will serve as an indispensable and eye opening guide **What is a Woman to Do?** Kyriaki Hadjiafxendi,Patricia Zakreski,2011 This anthology contributes to a scholarly understanding of the aesthetics and economics

of female artistic labour in the Victorian period. It maps out the evolution of the Woman Question in a number of areas including the status and suitability of artistic professions for women, their engagement with new forms of work and their changing relationship to the public sphere. The wealth of material gathered here from autobiographies, conduct manuals, diaries, periodical articles, prefaces and travelogues traces the extensive debate on women's art, feminism and economics from the 1830s to the 1890s. Combining for the first time nineteenth-century criticism on literature and the visual arts, performance and craftsmanship, the selected material reveals the different ideological positions surrounding the transition of women from idleness to serious occupation. The distinctive primary sources explore the impact of artistic labour upon perceptions of feminine sensibility and aesthetics, the conflicting views of women towards the pragmatics of their own creative labour as they encompassed vocations, trades and professions, and the complex relationship between paid labour and female fame and notoriety.
