**El manuscrito carmesí** Antonio Gala, 2010-07-22 La fascinante historia de Boabdil en un libro lleno de sabiduría, amor y religión. Esta novela obtuvo el Premio Planeta 1990. En los papeles carmeses que emplea el Canciller de la Alhambra Boabdil el último sultán da testimonio de su vida a la vez que la goza o la sufre. La luminosidad de sus recuerdos infantiles se oscurecerá pronto al desplomarse sobre los hombros la responsabilidad de un reino desahuciado. Su formación de príncipe refinado y culto no le servirá para las tareas de gobierno; su actitud libre la aniquilará fatalmente. Una pica llamada a la derrota. Desde las rencillas de sus padres al afecto profundo de Moraima o Farax, desde la pasión por Jalib a la ambigua ternura por Amn y Amina, desde el abandono de los amigos de su niñez a la desconfianza en sus asesores políticos, desde la veneración por su tío el Zagal o Gonzalo Fernández de Córdoba al aborrecimiento de los Reyes Católicos, una larga galería de personajes dibuja el escenario en que se mueve Boabdil el Zoguibo el Desventuradillo. La evidencia de estar viviendo una crisis perdida de antemano lo transforma en un campo de contradicción. Siempre simplificadora la Historia acumula sobre él acusaciones que se muestran injustas a lo largo de su relato sincero y reflexivo. La culminación de la reconquista con sus fanatismos, crueldades, sus traiciones y sus injusticias sacude como un viento destructor la crónica cuyo lenguaje es íntimo y apeado el de un padre que se explica ante sus hijos o el de un hombre a la deriva que habla consigo mismo hasta encontrar desprovisto pero sereno su último refugio. La sabiduría, la esperanza, el amor y la religión solo a ratos le asisten en el camino de la soledad. Y es ese desvalimiento ante el destino lo que lo erige en símbolo válido para el hombre de hoy. **El**

The Afterlife of al-Andalus Christina Civantos, 2017-11-21 Around the globe concerns about interfaith relations have led to efforts to find earlier models in Muslim Iberia, al Andalus. This book examines how Muslim Iberia operates as an icon or symbol of identity in twentieth and twenty first century narrative, drama, television and film from the Arab world, Spain and Argentina. Christina Civantos demonstrates how cultural agents in the present ascribe importance to the past and how dominant accounts of this importance are contested. Civantos's analysis reveals that alongside established narratives that use al Andalus to create exclusionary imperial identities, there are alternate discourses about the legacy of al Andalus that rewrite the traditional narratives. In the process, these discourses critique their imperial and gendered dimensions and pursue intercultural translation. *The Moor's Last Stand* Elizabeth Drayson, 2017-04-20 In 1482 Abu Abdallah Muhammad XI became the twenty third Muslim King of Granada. He would be the last. This is the first history of the ruler known as Boabdil, whose disastrous reign and bitter defeat brought seven centuries of Moorish Spain to an end. It is an action packed story of intrigue, treachery, cruelty, cunning, courtliness, bravery and tragedy. Basing her vivid account on original documents and sources, Elizabeth Drayson traces the origins and development of Islamic Spain. She describes the thirteenth century founding

of the Nasrid dynasty the cultured and stable society it created and the feuding which threatened it and had all but destroyed it by 1482 when Boabdil seized the throne The new Sultan faced betrayals by his family factions in the Alhambra palace and ever more powerful onslaughts from the forces of Ferdinand and Isabella monarchs of the newly united kingdoms of Castile and Aragon By stratagem diplomacy courage and strength of will Boabdil prolonged his reign for ten years but he never had much chance of survival In 1492 Ferdinand and Isabella magnificently attired in Moorish costume entered Granada and took possession of the city Boabdil went into exile The Christian reconquest of Spain that has reverberated so powerfully down the centuries was complete

**Changes, Conflicts and Ideologies in Contemporary Hispanic Culture** Teresa Fernandez Ulloa, 2014-06-02 This book is formed by various chapters studying the manner in which conflicts changes and ideologies appear in contemporary Hispanic discourses The contributions analyze a wide variety of topics related to the manner in which ideological and epistemological changes of the 19th 20th and 21st centuries are reflected in and shape Spanish language literature and other cultural expressions in both Spain and Latin America The 19th century was conducive to various movements of independence while in Europe radical changes of different types and in all contexts of life and knowledge occurred Language was certainly affected by these changes resulting in new terminology and discourse strategies Likewise new schools of thought such as idealism dialectic materialism nihilism and nationalism among others were established in addition to new literary movements such as romanticism evocative of r evolution individualism and realism inspired by the social effects of capitalism Scientific and technological advances continued throughout the 20th century when the women s liberation movement consolidated The notion of globalization also appears simultaneously to various crises despotism wars genocide social exclusion and unemployment Together these trends give rise to a vindicating discourse that reaches large audiences via television The classic rhetoric undergoes some changes given the explicit suasion and the absence of delusion provided by other means of communication The 21st century is defined by the flood of information and the overpowering presence of mass communication so much so that the technological impact is clear in all realms of life From the linguistic viewpoint the appearance of anglicisms and technicalities mirrors the impact of post modernity There is now a need to give coherence to a national discourse that both grasps the past and adapts itself to the new available resources with the purpose of conveying an effective and attractive message to a very large audience Discourse is swift since society does not seem to have time to think but instead seeks to maintain interest in a world filled with stimuli that in turn change constantly Emphasis has been switched to a search for historical images and moments that presumably explain present and future events It is also significant that all this restlessness is discussed and explained via new means such as the world wide web The change in communication habits e mail chats forums SMS and tools computers mobile phones that was initiated in the 20th century has had a net effect on the directness and swiftness of language [El Manuscrito Carmesi](#) Antonio Gala, 1997-12-01 **A New History of Spanish Writing, 1939 to the 1990s** Chris Perriam, 2000 A New History of

Spanish Writing 1939 to the 1990s explores the diversity of some sixty years of imaginative writing by Spaniards its interactions with Spain's peculiarly dramatic history since the end of its Civil War and its wider thematic significance It covers the famous and canonical texts of the most recent in Modern Spanish literature but also explores areas less well known outside Spain essays and editorials queer narrative new poetry comics and texts of the militant and reactionary Right More space than is usual in literary histories is allowed for commentary on famous texts but the book also makes room for the marginalized and for socially contextualized explorations of the interconnectedness of various forms of writing The overall structure is not chronological but thematic dealing with abstract and topical issues such as silence the family or realism

**Disorientations** Susan Martin-Márquez, 2008-10-01 Exploring the fraught processes of Spaniards' efforts to formulate a national identity from the Enlightenment to the present this book focuses on the nation's Islamic African legacy disputing the received wisdom that Spain has consistently rejected its historical relationship to Muslims and Africans

A Museum Studies Approach to Heritage Sheila Watson, Amy Jane Barnes, Katy Bunning, 2018-10-08 Heritage's revival as a respected academic subject has in part resulted from an increased awareness and understanding of indigenous rights and non-Western philosophies and practices and a growing respect for the intangible Heritage has thus far focused on management tourism and the traditionally heritage-minded disciplines such as archaeology geography and social and cultural theory Widening the scope of international heritage studies A Museum Studies Approach to Heritage explores heritage through new areas of knowledge including emotion and affect the politics of dissent migration and intercultural and participatory dimensions of heritage Drawing on a range of disciplines and the best from established sources the book includes writing not typically recognised as heritage but which nevertheless makes a valuable contribution to the debate about what heritage is what it can do and how it works and for whom Including heritage perspectives from beyond the professional sphere the book serves as a reminder that heritage is not just an academic concern but a deeply felt and keenly valued public and private practice This blending of traditional topics and emerging trends established theory and concepts from other disciplines offers readers international views of the past and future of this growing field A Museum Studies Approach to Heritage offers a wider more current and more inclusive overview of issues and practices in heritage and its intersection with museums As such the book will be essential reading for postgraduate students of heritage and museum studies It will also be of great interest to academics practitioners and anyone else who is interested in how we

conceptualise and use the past      La narrativa española del siglo XX en Italia Nuria Pérez Vicente, 2006      **Premodern Rulers and Postmodern Viewers** Janice North, Karl C. Alvestad, Elena Woodacre, 2018-02-01 Pop culture portrayals of medieval and early modern monarchs are rife with tension between authenticity and modern mores producing anachronisms such as a feminist Queen Isabel in RTVE's Isabel and a lesbian Queen Christina in The Girl King This book examines these anachronisms as a dialogue between premodern and postmodern ideas about gender and sexuality raising questions of intertemporality the interpretation of history and the dangers of presentism Covering a range of famous and lesser known European monarchs on screen from Elizabeth I to Muhammad XII of Granada this book addresses how the lives of powerful women and men have been mythologized in order to appeal to today's audiences The contributors interrogate exactly what is at stake in these portrayals namely our understanding of premodern rulers the gender and sexual ideologies they navigated and those that we navigate today      *Verb Classes and Aspect* Elisa Barrajón López, José Luis Cifuentes Honrubia, Susana Rodríguez Rosique, 2015-11-15 This volume offers a variety of perspectives on two of the main topics situated at the crossroads between lexical semantics and syntax namely a) aspect and its correspondence with syntactic structure and b) the delimitation of syntactic structures from verb classes Almost from Aristotle's Metaphysics it has been assumed that verbs invoke a mental image about the way in which eventualities are distributed over time When it comes to determining time schemata the lexical class to which the verb belongs represents a first step Speaking about verb classes does not exclusively mean a semantic similarity rather verb classes exhibit a bundle of common features and thus show a set of recursive behavior patterns Beyond the meaning of the verb both semantic and syntactic factors together with pragmatic ones play a decisive role when establishing the aspectual classification of an eventuality The contributions collected in this book approach the aforementioned lines either analyzing the relationships between aspect and syntactic structure or traversing the path from a verb class to its syntactic manifestation Some of them stress diachronic filiations while others include processes of word formation in the debate some of them focus on certain classes such as movement verbs or psychological verbs while others examine specific constructions A number of chapters also discuss relevant theoretical issues concerning the analysis of aspect In sum the kaleidoscopic view provided by this book allows the reader to delve deeper into one of the most controversial as well as exciting topics within current linguistics      **Al-Andalus** Howard Headworth, 2014-08-15 The exciting historical novel by Howard Headworth takes us to the 1480s in Spain For the Spaniards it is the dawn of the golden age of the country For the moors of Al Andalus in the south it is the beginning of a bitter harvest And Far west a new world beckons Glorious descriptions of battles and conflicts the horrors of the Spanish Inquisition the tracing of historical events leading to the entrance of the Catholic monarchs in Granada in 1492 a panoply of characters profiles of the traditions and skills of the Muslim peasants in Al Andalus and finally the first voyage of Christopher Columbus to the Indies make this book a unique treasure Howard Headworth lives in Almeria Spain for twenty years He was born in Wales and studied geology at

the university there and in London He uses his great experience as a scientific director as well as his passion for the history of his adopted country in this historical novel      **Models in Medieval Iberian Literature and Their Modern Reflections**
