*Overshot* Susan Falls, Jessica R. Smith, 2020-03 Woven coverlets have appeared in several guises within the history of folk textiles Created on four harness looms coverlets made in the nineteenth century American South typically featured colored wool and cotton threads woven into striking geometric patterns Although they are not as well known as other textiles and domestic objects overshot coverlets were and continue to be significant examples of material culture that require tremendous skill and creativity to produce They also express currents of conformity and dissent In addition to being pleasing to the eye and hand overshot coverlets have advanced a variety of social and political ends At times exhibited in slave quarters along the seaboard in Georgia and South Carolina in association with plantation properties they also appear in piedmont areas attached to the antebellum yeomanry in the context of nationalist craft revivals and in white box contemporary art With *Overshot* Susan Falls and Jessica R Smith analyze what we can learn by examining the exhibition and interpretation of these materials within American public history By showing how geometric overshot coverlets can be understood in relationship to the global economy and within politicized cultural movements Falls and Smith demonstrate how these erstwhile domestic utilitarian objects explode the art craft dichotomy belong to a rich narrative of historical art forms and tell us far more about American culture today than simply representing a nostalgic past particularly with regard to ideas about race class

**Linthead Stomp** Patrick Huber, 2008-10-20 Contrary to popular belief the roots of American country music do not lie solely on southern farms or in mountain hollows Rather much of this music recorded before World War II emerged from the bustling cities and towns of the Piedmont South No group contributed more to the commercialization of early country music than southern factory workers In Linthead Stomp Patrick Huber explores the origins and development of this music in the Piedmont's mill villages Huber offers vivid portraits of a colorful cast of Piedmont millhand musicians including Fiddlin' John Carson Charlie Poole Dave McCarn and the Dixon Brothers and considers the impact that urban living industrial work and mass culture had on their lives and music Drawing on a broad range of sources including rare 78 rpm recordings and unpublished interviews Huber reveals how the country music recorded between 1922 and 1942 was just as modern as the jazz music of the same era Linthead Stomp celebrates the Piedmont millhand fiddlers guitarists and banjo pickers who combined the collective memories of the rural countryside with the upheavals of urban industrial life to create a distinctive American music that spoke to the changing realities of the twentieth century South

*George Henry White* Benjamin R. Justesen, 2012-07-02 Although he was one of the most important African American political leaders during the last decade of the nineteenth century George Henry White has been one of the least remembered A North Carolina representative from 1897 to 1901 White was the last man of his race to serve in the Congress during the post Reconstruction period and his departure left a void that would go unfilled for nearly thirty years At once the most acclaimed and reviled symbol of the freed slaves whose cause he heralded White remains today largely a footnote to history In this exhaustively researched biography Benjamin R Justesen rescues from obscurity the fascinating story of this compelling figure s life and accomplishments The mixed race son of a free turpentine farmer White became a teacher lawyer and prosecutor in rural North Carolina From these modest beginnings he rose in 1896 to become the only black member of the House of Representatives and perhaps the most nationally visible African American politician of his time White was outspoken in his challenge to racial injustice but as Justesen shows he was no militant racial extremist as antagonistic white democrats charged His plea was always for simple justice in a nation whose democratic principles he passionately loved A conservative by philosophy he was a dedicated Republican to the end After he retired from Congress he remained active in the fight against racial discrimination working with national leaders of both races from Booker T Washington to the founders of the NAACP Through judicious use of public documents White s speeches newspapers letters and secondary

**Enemies of the Country** John C. Inscoe, Robert C. Kenzer, 2004-09-01 Exploring family and community dynamics *Enemies of the Country* profiles men and women of the Confederate states who in addition to the wartime burdens endured by most southerners had to cope with being a detested minority With one exception these featured individuals were white but they otherwise represent a wide spectrum of the southern citizenry They include natives to the region foreign immigrants and northern transplants affluent and poor farmers and merchants politicians and journalists slaveholders and nonslaveholders Some resided in highland areas and in remote parts of border states the two locales with which southern Unionists are commonly associated Others however lived in the Deep South and in urban settings Some were openly defiant others took a more covert stand Together the

portraits underscore how varied Unionist identities and motives were and how fluid and often fragile the personal familial and local circumstances of Unionist allegiance could be For example many southern Unionists shared basic social and political assumptions with white southerners who cast their lots with the Confederacy including an abhorrence of emancipation The very human stories of southern Unionists as they saw themselves and as their neighbors saw them are shown here to be far more complex and colorful than previously acknowledged
