**Many Wests** David M. Wrobel, Michael C. Steiner, 1997 What does it mean to live in the West today Do people tend to identify with states with regions or with the larger West This book examines the development of regional identity in the American West demonstrating that it is a regionally diverse entity made up of many different wests Great Plains Southwest Rocky Mountains and more in which American regionalism finds its fullest expression These fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them Wrobel and Steiner first offer a compelling overview of the West's regional nature then thirteen other rising or renowned scholars from history American Studies geography and literature tell how regional consciousness formed among inhabitants of particular regions All of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities Some focus on race and culture as the primary influences on regional consciousness while others emphasize environmental and economic factors or the influence of literature Some even examine western regionalism in areas that lie beyond the West as it has traditionally been conceived Each of the contributors believes that where a people live helps determine what they are and they write not only about the many wests within the larger West but also about the constant state of flux in which regionalism exists Many books speak of the West as a place but few others deal with the West's different places Many Wests presents a vision of the West that reflects both the common heritage and unique character of each major subregion building on the revisionist impulse of the last decade to help redirect New Western History toward an appreciation of regional diversity and integrate scholarship in the regional subfields It is a book for everyone who lives in studies or loves the West for it confirms that it is home to very different peoples economies histories and regions

many wests within the larger West but also about the constant state of flux in which regionalism exists Many books speak of the West as a place but few others deal with the West s different places Many Wests presents a vision of the West that reflects both the common heritage and unique character of each major subregion building on the revisionist impulse of the last decade to help redirect New Western History toward an appreciation of regional diversity and integrate scholarship in the regional subfields It is a book for everyone who lives in studies or loves the West for it confirms that it is home to very different peoples economies histories and regions *The Pacific Region* Jan Goggans,Aaron DiFranco,2004-12-30 Robert Penn Warren once wrote West is where we all plan to go some day and indeed images of the westernmost United States provide a mythic horizon to American cultural landscape While the five states California Oregon Washington Alaska and Hawai i which touch Pacific waters do share commonalities within the history of westward expansion the peoples who settled the region and the indigenous peoples they encountered have created spheres of culture that defy simple categorization This wide ranging reference volume explores the marvelously eclectic cultures that define the Pacific region From the music and fashion of the Pacific northwest to the film industry and surfing subcultures of southern California from the vast expanses of the Alaskan wilderness to the schisms between native and tourist culture in Hawai ii this unprecedented reference provides a detailed and fascinating look at American regionalism along the Pacific Rim The Greenwood Encyclopedia of American Regional Cultures is the first rigorous reference collection on the many ways in which American identity has been defined by its regions and its people Each of its eight regional volumes presents thoroughly researched narrative chapters on Architecture Art Ecology Ethnicity Fashion Film Folklore Food Language Literature Music Religion and Sports Recreation Each book also includes a volume specific introduction as well as a series foreword by noted regional scholar and former National Endowment for the Humanities Chairman William Ferris who served as consulting editor for this encyclopedia

Pictorial Photography and the American West, 1900-1950 Rachel Sailor,2022-10-04 This book is an investigation of the widely overlooked photographic style of pictorialism in the American West between 1900 and 1950 and argues that western pictorialist photographers were regionalists that had their roots in the formidable photographic heritage of the nineteenth century West Driven by a wealth of textual and visual primary sources the book addresses the West s relationship with the eastern centers of art in the early century the diversity of practitioners such as women Japanese Americans Indigenous Americans western rural workers etc and the style s final demise as it related to the modernism of Group F 64 Couched in the rhetoric of regionalism it is a refreshing and innovative approach to an overlooked wealth of American cultural production

Imagined Frontiers Carl Abbott,2015-09-10 We live near the edge whether in a settlement at the core of the Rockies a gated community tucked into the wilds of the Santa Monica Mountains a silicon culture emerging in the suburbs or in the future homesteading on a terraformed Mars In Imagined Frontiers urban historian and popular culture scholar Carl Abbott looks at the work of American artists who have used novels film television maps and occasionally even performance art to

explore these frontiers the metropolitan frontier of suburban development the classic continental frontier of American settlement and the yet unrealized frontiers beyond Earth Focusing on writers and artists working during the past half century an era of global economic and social reach Abbott describes the dialogue between historians and social scientists seeking to understand these frontier places and the artists reimagining them in written and visual fictions This book offers perspectives on such well known authors as T C Boyle and John Updike and on such familiar movies and television shows as *Falling Down* and *The Sopranos* By putting *The Rockford Files* and the cult favorite *Firefly* in conversation with popular fiction writers Robert Heinlein and Stephen King and literary novelists Peter Matthiessen and Leslie Marmon Silko Abbott interweaves the disparate subjects of western history urban planning and science fiction in a single volume Abbott combines all new essays with others previously published but substantially revised to integrate western and urban history literary analysis and American studies scholarship in a uniquely compelling analysis of the frontier in popular culture

**Global West, American Frontier** David M. Wrobel, 2013-10-15 This thoughtful examination of a century of travel writing about the American West overturns a variety of popular and academic stereotypes Looking at both European and American travelers accounts of the West from de Tocqueville's *Democracy in America* to William Least Heat Moon's *Blue Highways* David Wrobel offers a counter narrative to the nation's romantic entanglement with its western past and suggests the importance of some long overlooked authors lively and perceptive witnesses to our history who deserve new attention Prior to the professionalization of academic disciplines the reading public gained much of its knowledge about the world from travel writing Travel writers found a wide and respectful audience for their reports on history geography and the natural world in addition to reporting on aboriginal cultures before the advent of anthropology as a discipline Although in recent decades western historians have paid little attention to travel writing Wrobel demonstrates that this genre in fact offers an important and rich understanding of the American West one that extends and complicates a simple reading of the West that promotes the notions of Manifest Destiny or American exceptionalism Wrobel finds counterpoints to the mythic West of the nineteenth century in such varied accounts as George Catlin's *Adventures of the Ojibbeway and Ioway Indians* in England France and Belgium 1852 Richard Francis Burton's *The City of the Saints* 1861 and Mark Twain's *Following the Equator* 1897 reminders of the messy and contradictory world that people navigated in the past much as they do in the present His book is a testament to the instructive ways in which the best travel writers have represented the West

*Cultural Representation in Native America* Andrew Jolivette, 2006-08-11 An edited volume that tackles the contemporary issues facing Native Americans through community activism politics economics and legislation

*Garden of the World* Cecilia M. Tsu, 2013-06-01 *Garden of the World* examines how overlapping waves of Chinese Japanese and Filipino immigrants fundamentally altered the agricultural economy and landscape of the Santa Clara Valley as well as white residents ideas about race gender and what it meant to be an American family farmer

*Boosting a New West* John C. Putman, 2021-06-18 Inspired by Chicago's

successful 1893 World Columbian Exposition the cities of Portland Seattle San Diego and San Francisco all held fairs between 1905 and 1915 From the start of the Lewis and Clark Exposition to the close of the Panama California Exposition a decade later millions of Americans visited exhibits watched live demonstrations and performances and wandered amusement zones Millions more thumbed through brochures or read news articles Fair publicity directors embraced the emerging science of consumer marketing Conceived to attract new citizens showcase communities and highlight farming and industrial opportunities the four expositions promotional campaigns and vendor and exhibit choices offer a unique opportunity to examine western leaders perceptions of their city and region as well as their future goals and how they both fed and tried to mitigate misconceptions of a wild wooly West They also expose biased attitudes toward Native Americans Mexican Americans Filipinos and others Boosting a New West explores the fairs cultural and social meaning by focusing on and comparing the promotions that surrounded them It details their origins and describes why each city chose to host conveying the expected economic social and cultural benefits It also shows how organizers articulated their significance to urban regional and national audiences and how they attempted to shape a new western identity

Cowboy Christians Marie W. Dallam, 2018 This book examines the long history of cowboy Christians in the American West focusing on the cowboy church movement of the present day and closely related ministries in racetrack and rodeo settings Marie W Dallam demonstrates that the cowboy church s antecedents and influences include muscular Christianity the Jesus movement and new paradigm church methodology

Making San Francisco American Barbara Berglund, 2007 Focuses on the 19th century transformation in San Francisco from Gold Rush to earthquake to show how the city s diverse residents created a modern American city through everyday cultural frontiers such as restaurants hotels and annual fairs and expositions among others

*From San Francisco Eastward* Carolyn Grattan Eichin, 2020-02-12 Finalist for the 2021 Willa Literary Award in Scholarly Non Fiction Finalist for the 2021 Will Rogers Medallion Award in Western Non Fiction Carolyn Grattan Eichin s From San Francisco Eastward explores the dynamics and

influence of theater in the West during the Victorian era San Francisco Eichin argues served as the nucleus of the western theatrical world having attained prominence behind only New York and Boston as the nation s most important theatrical center by 1870 By focusing on the West s hinterland communities theater as a capitalist venture driven by the sale of cultural forms is illuminated against the backdrop of urbanization Using the vagaries of the West s notorious boom bust economic cycles Eichin traces the fiscal demographic and geographic influences that shaped western theater With an emphasis on the 1860s and 70s this thoroughly researched work uses distinct notions of ethnicity class and gender to examine a cultural institution driven by a market economy From San Francisco Eastward is a thorough analysis of the ever changing theatrical personalities and strategies that shaped Victorian theater in the West and the ways in which theater as a business transformed the values of a region

**From All Points** Elliott Robert Barkan,2007-05-11 A history of immigrants in the American West in the nineteenth and twentieth centuries and their effect on the region At a time when immigration policy is the subject of heated debate this book makes clear that the true wealth of America is in the diversity of its peoples By the end of the twentieth century the American West was home to nearly half of America s immigrant population including Asians and Armenians Germans and Greeks Mexicans Italians Swedes Basques and others This book tells their rich and complex story of adaptation and isolation maintaining and mixing traditions and an ongoing ebb and flow of movement assimilation and replenishment These immigrants and their children built communities added to the region s culture and contended with discrimination and the lure of Americanization The mark of the outsider the alien the nonwhite passed from group to group even as the complexion of the region changed The region welcomed then excluded immigrants in restless waves of need and nativism that continue to this day Written in the fashion of Oscar Handlin this study makes a convincing case that immigration history comprises an essential part of the history of the American West and that appreciation of the former and the roles played by myriad alien arrivals is essential for understanding the latter Barkan combines vignettes based on immigrant reminiscences with keen analysis to explore four related themes various groups arrivals their economic influences their effects on public policy and their adaptation and assimilation The resulting narrative is readable and informative Recommended Choice A remarkable synthesis of the West as a region of immigrants It tells the story of how vital immigrants were to economic growth and modernization This will be the prime reference for 21st century scholars of immigration and ethnicity in the American West Annals of Wyoming Spring 2010

The Spanish Redemption Charles Montgomery,2002-03-20 Charles Montgomery s compelling narrative traces the history of the upper Rio Grande s modern Spanish heritage showing how Anglos and Hispanos sought to redefine the region s social character by glorifying its Spanish colonial past This readable book demonstrates that northern New Mexico s twentieth century Spanish heritage owes as much to the coming of the Santa Fe Railroad in 1880 as to the first Spanish colonial campaign of 1598 As the railroad brought capital and migrants into the region Anglos posed an unprecedented challenge to Hispano wealth and political power Yet

unlike their counterparts in California and Texas the Anglo newcomers could not wholly displace their Spanish speaking rivals Nor could they segregate themselves or the upper Rio Grande from the image well known throughout the Southwest of the disreputable Mexican Instead prominent Anglos and Hispanos found common cause in transcending the region's Mexican character Turning to colonial symbols of the conquistador the Franciscan missionary and the humble Spanish settler they recast northern New Mexico and its people

**Popular Culture in the Age of White Flight** Eric Avila, 2006-04 In *Popular Culture in the Age of White Flight* Eric Avila offers a unique argument about the restructuring of urban space in the two decades following World War II and the role played by new suburban spaces in dramatically transforming the political culture of the United States Avila's work helps us see how and why the postwar suburb produced the political culture of balanced budget conservatism that is now the dominant force in politics how the eclipse of the New Deal since the 1970s represents not only a change of views but also an alteration of spaces George Lipsitz author of *The Possessive Investment in Whiteness*

*The Haunted States of America* James Morgart, 2022-05-15 The study highlights several writers who have not received much if any attention among Gothic scholars This allows readers exposure to writers they may have never encountered before or may realize dimensions to the authors works they have never considered The study reconsiders scholarship's understanding of post war American literature This gives readers students and scholars a new approach to discussing post war fiction that is not delimited to widely accepted understanding of how Cold War anxieties were manifested in fiction The study contextualizes the fiction it examines within each work's respective region This allows readers a new way of approaching not just post war Gothic fiction but Gothic fiction in general

**Rooted in Barbarous Soil** Kevin Starr, Richard J. Orsi, 2000-10-04 The third in a four volume series commemorating California's sesquicentennial this volume brings together the best of the new scholarship on the social and cultural history of the Gold Rush written in an accessible style and generously illustrated with black and white and color photographs

*The Cultures of the American New West* Neil Campbell, 2000 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company

**Food, Power, and Agency** Jürgen Martschukat, Bryant Simon, 2017-04-06 Grounded in the work of Roland Barthes Bruno Latour Pierre Bourdieu and Michel Foucault this exciting book uses food as a lens to examine agency and the political economic social and cultural power which underlies every choice of food and every act of eating The book is divided into three parts National Characters Anthropological Situations Health with each of the eight chapters exploring the power of food as well as the power relationships reflected and refracted through food Featuring contributions from historians sociologists anthropologists and cultural studies scholars from around the world the book offers case studies of a diverse range from German cuisine and ethnicity in San Francisco after the Gold Rush through Italian cuisine in Japan to ultragreasy bureks and teenage fast food consumption in Slovenia By directly engaging with questions of agency and power the book pushes the field of food studies in new directions An important read for students and researchers in food studies food history anthropology of food and

sociology of food
