Mao Against Khrushchev A Short History:

Mao Against Khrushchev David Floyd, 1964 *A Short History of Sino-Soviet Relations, 1917-1991* Zhihua Shen, 2019-10-31 Drawing on the rich trove of recently declassified Russian and Chinese archival materials this history of Sino Soviet relations in the 20th century sheds new light on key events during this period It offers fresh insights into the role of ideology and national interests in the evolution of the complex and turbulent relationship between not just the two countries but also their respective Communist Parties The chapters on the normalization of bilateral ties provide an in depth analysis of divisions in the socialist camp that culminated in both its collapse and the disintegration of the Soviet Union The book argues that 20th century Sino Soviet relations reflected both long standing and emerging political and geopolitical challenges facing members of the Cold War socialist camp in particular tensions between the ideal of internationalism and national aspirations between commitment to the principle of sovereignty and commitment to that of equality in international relations and between inter party relations and inter state relations This makes for a valuable addition to the reading lists of all those interested in the development of the relationship between two of the world s most important countries

Contending with Contradictions Mercy Kuo, 2001-01-01 A long overdue contribution to the study of Cold War history and Chinese foreign policy Contending with Contradictions provides an incisive interpretation of China s relations with Poland and its irreversible impact on the communist world Mercy A Kuo provides a unique contribution to the miniscule corpus of literature on the subject Her approach is threefold Kuo offers a comprehensive interpretation of the historical relevance of the PRC s policy towards Soviet Eastern Europe during this era she sheds new light on the intentions of the Chinese Communist Party and finally her research for the book was based on an archival approach utilizing post 1989 declassified sources Because this area of Cold War history has long been understudied and certainly without the benefit of newly available archival materials Kuo s study is the first of its kind *Two Suns in the Heavens* Sergey Radchenko, 2009 Using newly available archival sources Two Suns in the Heavens examines the dramatic deterioration of relations between the USSR and China in the 1960s whereby once powerful allies became estranged competitive and increasingly hostile neighbors Sergey Radchenko s authoritative account of these years shows how the intrinsic inequality of the Sino Soviet alliance seen as entirely natural by the Russians but bitterly resented by the Chinese resulted in its ultimate collapse Through a careful and comprehensive investigation of policymaking in both Moscow and Beijing Radchenko creates a new framework for understanding the role of power struggle ideology personalities and culture in Sino Soviet relations **The Routledge Companion to World History since 1914** Chris Cook, John Stevenson, 2006-01-27 The Routledge Companion to World History since 1914 is an outstanding compendium of facts and figures on World History Fully up to date reliable and clear this volume is the indispensable source of information on a thorough range of topics such as the Arab Israeli conflict anti semitism and the Holocaust all the world s major famines and natural disasters since 1914 whether all countries of the

world have a king president prime minister or other governance GNP of the world s major states year by year biographies of key figures civil rights movements the Vietnam War the rise of terrorism globalization Thematically presented the book covers topics relevant from the First World War to the Iraq war of 2003 and from post colonial Africa to conflicts and movements in Southeast Asia With maps chronologies and full bibliography this user friendly reference work is the essential companion for students of history politics and international relations and for all those with an interest in world history

The Faces of Janus A. James Gregor, 2004-03-04 Attempting to understand the catalogue of horrors that has characterised much of twentieth century history Western scholars generally distinguish between violent revolutions of the right and the left Fascist regimes are assigned to the evil right Marxist Leninist regimes to the benign left But this distinction has left us without a coherent understanding of the revolutionary history of the twentieth century contends A James Gregor in this insightful book He traces the evolution of Marxist theory from the 1920s through the 1990s and argues that the ideology of Marxism Leninism devolved into fascism Fascist regimes and Communist regimes both anti democratic ideocracies are far more closely related than has been recognised Employing wide ranging primary source materials in Italian German Russian and Chinese the book opens with an examination of the first standard Marxist interpretation of Mussolini s fascism in the early 1920s and proceeds through the emergence of fascist phenomena in post Communist Russia A clearer understanding of the relation between fascism and communism provides a sharper lens through which to view twentieth century history as well as the present and future politics of Russia Communist China and other non democratic states Gregor concludes

China and Russia Philip Snow, 2023-03-14 A compelling expansive history of the relationship between China and Russia from the seventeenth century to the present Russia and China the largest and most populous countries in the world respectively have maintained a delicate relationship for four centuries In addition to a four thousand kilometer border they have periodically shared a common outlook on political and economic affairs But they are in essence profoundly different polities and cultures and their intermittent alliances have proven difficult and at times even volatile Philip Snow provides a full account of the relationship between these two global giants Looking at politics religion economics and culture Snow uncovers the deep roots of the two nations alignment We see the shifts in the balance of power from the wealth and strength of early Qing China to the Tsarist and Soviet ascendancies and episodes of intense conflict followed by harmony He looks too at the experiences and opinions of ordinary people which often vastly differed from those of their governments and considers how long the countries current amicable relationship might endure

Triangles, Symbols, and Constraints Charles M. Dobbs, 2010 In his five plus years as president of the United States Lyndon Johnson witnessed dramatic power struggles within and between the Soviet Union the People s Republic of China and the United States of America New Soviet leaders were determined to build Soviet power and extend Soviet influence Mao s revolutionary ideology so dominated China that there were few levers to move Sino American relations ahead Johnson wanted to ease Cold War tensions by reaching a range

of agreements with the Soviet Union on nuclear weapons and establishing relations with the People's Republic of China in order to end its isolation in the world community. However, multiple events frustrated Johnson's good intentions. The Soviet leadership that overthrew Nikita Khrushchev was committed to expanding its military might before negotiating with Washington; it also began focusing more and more on the worsening Sino-Soviet split. Mao Zedong entered into the Great Proletarian Cultural Revolution, and China seemed to devour itself. Meanwhile, the Vietnam War made negotiations among all three great powers more difficult, limiting room to maneuver. But Johnson persevered, and by 1968 the apparent American retreat symbolized by the North Korean seizure of the USS Pueblo and the Communist Tet Offensive in Vietnam, along with the Soviet invasion of Czechoslovakia, seemed to change the construct between the great powers. Beijing, emerging from the worst of the Cultural Revolution, increasingly feared Soviet intentions, and Moscow wanted to prevent a Sino-American rapprochement. Although Johnson did not achieve his lofty goals, he created the preconditions that Richard Nixon later harvested for the détente with Moscow and rapprochement with Beijing. Johnson's best intentions fell prey to triangles, symbols, and constraints.

The Cold War in the 1950s Nicolas Lewkowicz, 2024-03-12. The book claims that the United States and the Soviet Union attained the mastery of the international order by projecting universalist values that responded to the particularist markers of the domestic order that was generated in the 1950s. The geopolitical orientation adopted by the superpowers in the 1950s was shaped by the way in which their societies developed politically, socially, and economically in the 1950s. The main argument of this book is that the quest for the mastery of the international order that informed superpower relations in the 1950s was guided by the need to respond to the local circumstances that emerged in the United States and the Soviet Union. The particularist markers that arose in the 1950s led to the establishment of a geopolitical project underpinned by certain universalist values that could be applied in order to build the superpowers' sphere of influence.

A Short History of Communism Robert Harvey, 2014-12-23. Today, global communism seems just a terrible memory, an expressionist nightmare as horrific as Nazism and the Holocaust or the slaughter in the First World War. Was it only just over a decade ago that stone-faced old men were still presiding over workers' paradises in the name of the people, while hundreds of millions endured grinding poverty under a system of mind-controlling servitude which did not hesitate to murder and imprison whole populations in the cause of progress? Or that the world seemed under threat from revolutionary hordes engulfing one country after another, backed by a vast military machine and the threat of nuclear annihilation? In the 1970s, with the fall of South Vietnam, Cambodia, and Laos, the march of Marxism-Leninism across the world seemed irresistible. Less than two decades later, the experiment had collapsed, leaving perhaps 100 million dead, as well as economic

devastation spanning continents Even China now increasingly embraces free market economics Only in a few backwaters does communism endure as obsolete as rust belt industry This book is the first global narrative history of that defining human experience It weighs up the balance sheet why did communism occur largely in countries wrenched from feudalism or colonialism to twentieth century modernism rather than as Marx had predicted in developed countries groaning under the weight of a parasitic middle class Were coercion and state planning in fact the only way forward for backward countries What was the explanation for its appeal not least among many highly intelligent observers in the West Why did it grow so fast and collapse with such startling suddenness A Short History of Communism sets out the whole epic story for the first time a panorama of human idealism cruelty suffering and courage and provides an intriguing new analysis [Bulletin of the Atomic Scientists](#), 1966-06 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **Myth, Manifesto, Meltdown** Edward M. Collins, 1998-01-21 Collins traces Communist strategy in the so called Cold War from its ideological roots through its successes to the system s collapse He demonstrates that Communist ideology made the Cold War inevitable shaped Communist strategy and the resultant structure and purpose of Communist states and assured that Soviet and other Communist states and party strategies would be subsets of a larger Communist world strategy Collins challenges American perception and conduct of the Cold War as essentially a conflict between Great Powers in a bipolar world demonstrating that it was in fact a real war with its objective to create a Communist world He illuminates the central role of internal strategy conflicts in fractionating the Communist world and the direct linkage between the failure of Communist world strategy and the system s collapse This is a major synthesis that will be of interest to scholars and researchers of international Communism and security issues as well as lay readers [The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University](#) Hoover Institution on War, Revolution, and Peace, 1969 **The Cambridge History of China: Volume 15, The People's Republic, Part 2, Revolutions Within the Chinese Revolution, 1966-1982** Roderick MacFarquhar, John K. Fairbank, Denis Crispin Twitchett, 1991-11-29 In continuing the post revolution study started in Volume 14 Volume 15 considers the developments in Mao s thoughts and how they related to China s government The most comprehensive account of this turbulent period in Chinese history [The Origins of the Cultural Revolution](#) Roderick MacFarquhar, 1999-11 This is the final volume in a trilogy that examines the politics personalities economics culture and international relations of China from the mid 1950s to the mid 1960s It seeks to answer the central question Why did Chairman Mao Zedong launch the Cultural Revolution 1966-76 which plunged China into chaos and almost destroyed its Communist Party The Coming of the Cataclysm starts with the great famine of the early 1960s which resulted in tens of millions of deaths and set in train a series of emergency measures that increasingly divided Mao from his comrades in arms His anger that they were prepared to adopt capitalist methods to

rescue the country was sharpened by his belief that Moscow had actually gone capitalist and sold out to the imperialist West From 1961 to 1966 the period covered by this volume the increasingly urgent question for Mao was how to prevent a similar revolutionary degeneration in China The Cultural Revolution was his answer Drawing upon new evidence from Party documents personal interviews books and journals MacFarquhar details the growing rift between Mao and his colleagues as they attempted to cope with domestic privation and an increasingly hostile international environment until the Chairman finally decided to smash the unity of the Yan an Round Table by unleashing society against the party state **The**

Tricontinental Revolution R. Joseph Parrott, Mark Atwood Lawrence, 2022-01-20 The Tricontinental Revolution provides a major reassessment of the global rise and impact of Tricontinentalism the militant strand of Third World solidarity that defined the 1960s and 1970s as decades of rebellion Cold War interventions highlighted the limits of decolonization prompting a generation of global South radicals to adopt expansive visions of self determination Long associated with Cuba this anti imperial worldview stretched far beyond the Caribbean to unite international revolutions around programs of socialism armed revolt economic sovereignty and confrontational diplomacy Linking independent nations with non state movements from North Vietnam through South Africa to New York City Tricontinentalism encouraged marginalized groups to mount radical challenges to the United States and the inequitable Euro centric international system Through eleven expert essays this volume recenters global political debates on the priorities and ideologies of the Global South providing a new framework chronology and tentative vocabulary for understanding the evolution of anti imperial and decolonial politics This title is also available as Open Access on Cambridge Core **National Role Conception and Neoclassical Realism**

Guangyi Pan, 2025-06-27 Despite China s alignment with Russia being one of the most significant factors shaping the international order the dynamics of their historic relationships and more importantly the sources of China s alignment policy remain underexplored In this book National Role Conception and Neoclassical Realism a synthetic exploration into the Sino Soviet alignment Guangyi Pan investigates this question by analysing the changes in China s national role conception from a cross level perspective Adding value to existing scholarly works on China s decision making logic he examines two critical and dramatic moments in the history of Beijing s alignment policy towards Moscow the Sino Soviet split in the 1960s and the normalisation in the 1980s Based on massive historic documents and archives he argues that the evolution of Beijing s approach to aligning with Moscow results from its changing perception of China s role in the world platform especially its role relationship with the Soviet Union The fundamental logic lies in how China positions itself with the Soviet Union long serving as a mirror reflecting Beijing s desired roles during pivotal transformations By developing a more rigorous and coherent framework to analyse role conceptions Guangyi Pan explores unit level factors including leader images elite cohesion and political culture alongside the impact of systemic stimuli This approach constructs the complex process of role formation evolution performance and policy outcomes offering a comprehensive understanding of China s alignment with

Russia throughout modern history Aimed primarily at scholars whose research fields include international relations theory the Cold War history and politics of China National Role Conception and Neoclassical Realism may also be of interest to foreign policymakers students and political history enthusiasts

Cohesion and Conflict in International Communism

Peter Mayer, 2012-12-06 The current conflict which threatens the very existence of the international communist movement as a single coherent entity must be looked for in the roots of Marxian philosophy The central concept of pre Leninist communism is contained in the notion of proletarian internationalism Yet the emergence of the communist party states has been squarely predicated on the requirements of single national states as viewed through the training and experience of the various communist leaders Thus the Soviet version has been shaped by the nationalism of Lenin Stalin and Khrushchev The only aberrant case the internationalism of Trotsky was doomed to failure The Chinese version of communism has as its root concepts the spirit of prolonged struggle against a superior enemy whose ultimate defeat is ensured through the dialectics of political growth The non communist societies are by definition decadent The movement came to power by exploiting the nationalism engendered within China by the Japanese invasion Its mass support was based on the peasantry although the transparent fiction of proletarian leadership was strictly maintained Further communism is a term which has lost its original encompassing definition Peking now narrowly defines it as policies consonant with the thought of Mao Tse tung Thus both the Soviet and the Chinese interpretation of communism are based on a concept which was anathema to the intellectual founders of the movement
