Maoist Insurgency In Nepal:

Maoist Insurgency in Nepal S. D. Muni, 2003 The Maoist insurgency is the product of Nepal's failed governance and persisting under development This brief study shows that the Maoists' violent methods to capture power may not have the approval of dominant elites and international community but their political and socio-economic agenda have considerable appeal for the poor and long suppressed Nepalese masses After analyzing the seven years of insurgency the study critically examines the responses of the Nepalese government and the international community particularly the US UK and China The study also underlines that India may have to radically redefine its approach to the developments in Nepal to preserve and promote the Kingdom's peace and stability as also in its own enlightened strategic interests The Maoist Insurgency in Nepal Mahendra Lawoti, Anup Kumar Pahari, 2009-10-13 The book deals with the dynamics and growth of a violent 21st century communist rebellion initiated by the Communist Party of Nepal Maoist explaining the different causes factors that contributed to its growth strategies employed by the rebels and the state and the consequences of the insurgency

Shreshtha,2004 **The Maoist Insurgency in Nepal and the Political Economy of Violence** Avidit Raj Acharya,2010

This paper studies the incidence of political violence associated with the Maoist insurgency in Nepal I take a cross sectional approach where the unit of analysis is the district and dependent variable is total killings by state and Maoists normalized by district population I find no evidence that political and economic grievances are linked to the incidence of political violence There is also very little evidence that district prosperity or political ideology are associated with the incidence of violence On the other hand I find that the intensity of violence was greatest in the Midwestern districts and in districts with low road density Historical evidence suggests that the dummy variable for Midwestern districts that appears robust and significant reflects the political entrepreneurship of leftist leaders more than half a century ago The results support a theory of conflict that treats an insurgency as analogous to a profit maximizing firm Insurgency in Nepal Thomas A. Marks,2003-12-31 A decade has passed since the end of the Cold War and insurgency remains a major factor on the world scene Whether driven by separatism religious alienation or ideological desire to restructure the state insurgents are as active now as in the earlier Cold War era of state support Indeed forced to rely more upon their own devices insurgencies have posed increasingly complex problems for the globe s numerous weak states which find themselves challenged by a growing array of development and population issues This reality has driven continuous and extensive U S military involvement thus a renewed need to focus upon the realities of internal war Upheavals in once obscure spots such as Nepal have come routinely to demand our attention The study of such cases will prepare military practitioners for effective engagement in strategies operational art and tactics Insurgency in Nepal has existed for perhaps 5 decades but burst into the open only with the declaration of people s war on February 13 1996 by the Communist Party Maoist or CPN M the most radical offshoot of the leftwing spectrum in Nepali politics Desultory action ended when the Maoists as they are universally termed unilaterally

abrogated talks with the government and launched a nationwide general offensive in November 2001. Since that time a steadily increasing level of violence has left as many as 8 000 Nepalis dead, a majority of them in little more than a year. Terror has been integral to the Maoist campaign. US involvement has played an important role in assisting this minor but strategically located democratic state to meet the challenges posed by ruthless radical actors. **Nepal in Transition**

This volume analyzes the context, dynamics and key players shaping Nepal's ongoing peace process. **Himalayan 'People's War'** Michael J. Hutt, 2021. Nepal's People's War was launched in 1996 by the Communist Party of Nepal Maoist to overthrow the political establishment including the monarchy and establish a Maoist regime. In 1999 the Maoists announced the Fourth Stage of their war. The army was deployed against the Maoists for the first time in late 2001. By the time the first edition of this book was completed the war had begun to encroach on the capital Kathmandu and in 2003 moves towards peace talks between the government and the Maoists had taken place. India is the world's tenth largest economy and possesses the world's fourth largest military. The subcontinent houses about one fifth of the world's population and its inhabitants are divided into various tribes, clans and ethnic groups following four great religions: Buddhism, Christianity, Hinduism and Islam. Framing the debate using case studies from across the region as well as China, Afghanistan and Burma and using a wealth of primary and secondary sources, this incisive volume takes a closer look at the organization and doctrines of the shadow armies and the government forces which fight the former. Arranged in a thematic manner, each chapter critically asks: Why stateless marginal groups rebel? How do states attempt to suppress them? What are the consequences in the aftermath of the conflict, especially in relation to conflict resolution and peace building? **Unconventional Warfare in South Asia** is a welcomed addition to the growing field of interest on civil wars and insurgencies in South Asia. An indispensable read which will allow us to better understand whether South Asia is witnessing a New War and whether the twenty-first century belongs to the insurgents. **Windows into a Revolution** Alpa Shah, Judith Pettigrew, 2017-08-18. **Windows into a Revolution** edited by Alpa Shah and Judith Pettigrew, the first book in the series, offers glimpses into the spread of Maoism in India and Nepal by tracing some of its effects on the lives of ordinary people living amidst the revolutions. Weaving through the nostalgic reflections of former Bengali Naxalites, the resurgence of ancestral conflicts in the spread of the Maoists in the remote hills of western Nepal, the disillusionments of Dalits of central Bihar in the policies of the cadres to the complexities of the interrelationship between non-aligned civilians and insurgents in central Nepal, the book offers a series of windows into different stages of mobilization and transformation into what were or may become revolutionary strongholds.
