endured a radical and destabilising form of communism and then hurried quickly towards a system of open market economics whilst remaining under the control of a nominally communist party. Currently the fastest growing economy in the world with an increasingly sophisticated and expanding military, China is widely expected to emerge as the world's next superpower eclipsing the United States in the not too distant future. However, not everything is going smoothly for Beijing. Unemployment rates are spiralling, inequality is rife, and official corruption at all levels remains an Achilles heel for the Chinese Communist Party despite Xi Jinping's best endeavours to wipe it out. Worst of all, environmental degradation is at such a serious level that it threatens the success of the Chinese economy and the stability of Chinese society. Against this scarcely believable backdrop and based on a series of lectures, seminars, and research conducted by the author, *Mao's China and Post Mao China* captures the dynamics, dynamism, and disasters of Chinese politics since the establishment of the People's Republic of China in 1949. This advanced textbook identifies three key themes that have underpinned the post-revolutionary era: the so-called three Rs: Revolution, Recovery, and Rejuvenation, and is essential reading for anyone interested in the politics of modern China at the undergraduate and postgraduate level.

China After Mao Frank Dikötter, 2022-11-15. A blow-by-blow account, an important corrective to the conventional view of China's rise. Financial Times. From internationally renowned historian Frank Dikötter, winner of the Samuel Johnson Prize, a myth-shattering history of China from the death of Chairman Mao to Xi Jinping. Through decades of direct experience of the People's Republic combined with extraordinary access to hundreds of hitherto unseen documents in communist party archives, the author of *The People's Trilogy* offers a riveting account of China's rise from the disaster of the Cultural Revolution. He takes us inside the country's unprecedented four-decade economic transformation from rural villages to industrial metropolises and elite party conclaves that vaulted the nation from 126th largest economy in the world to second largest. A historian at the pinnacle of his field, Dikötter challenges much of what we think we know about how this happened. Casting aside the image of a society marching unwaveringly toward growth in lockstep to the beat of the party drum, he recounts instead a fascinating tale of contradictions, illusions, and palace intrigue of disasters narrowly averted, shadow banking, anti-corruption purges, and extreme state wealth existing alongside everyday

poverty He examines China's navigation of the 2008 financial crash its increasing hostility towards perceived Western interference and its development into a thoroughly entrenched dictatorship with a sprawling security apparatus and the most sophisticated surveillance system in the world As this magisterial book makes clear the communist party's goal was never to join the democratic world but to resist it and ultimately defeat it [Review and Assessment of China's Nonprofit Sector after Mao](#) David Horton Smith,2016-11-21 Published research in English is reviewed on the Nonprofit Sector NPS in mainland China since Mao's death in 1976 A large diverse and rapidly growing NPS exists but openly political Nonprofit Organizations NPOs outside the Communist Party and its control are prohibited China has civil society in the narrower sense a substantial civil society sector or NPS exists However the party state in China continues to play a dominating role in regard to the NPS especially for registered NPOs Freedom of association is still limited in China especially for national associations which are nearly all Government Organized Nongovernmental Organizations GONGOs not genuine NGOs NPOs The broader scope definition of civil society focuses on functioning civil liberties and the ability of NPOs in general to influence significantly the government on various policy issues In these terms China has a weak but slowly emerging civil society with far more associational freedom than under Mao **Mao Zedong's China, 2nd Edition** Kathlyn Gay,2012-08-01 In 1949 Mao Zedong came to power in China after a long and brutal civil war He and his Chinese Communist Party immediately set out to transform their nation into a Communist state They seized land from wealthy and middle class farmers and distributed it to poor peasant farmers The government also took over ownership of all industries Citizens who resisted these changes were branded counterrevolutionaries and thousands were imprisoned or executed Within a few years Mao had turned China into a totalitarian state controlling all aspects of his citizens daily lives In the 1960s he sought to wipe out what remained of traditional Chinese society by launching the Cultural Revolution Millions died as the country erupted into spasms of mob violence Yet despite the tumult Chairman Mao remained a revered almost godlike figure worshiped by his people How did he do it Learn more about one of the most powerful and controversial figures of the 20th century **Sovietology in Post-Mao China** Jie Li,2023-02-13 The breakup of the Union of Soviet Socialist Republics USSR in 1991 had significant repercussions on Chinese politics foreign policy and other aspects In this book Jie Li examines the evolution of Chinese intellectual perceptions of the Soviet Union in the 1980s and 1990s before and after the collapse Relying on a larger body of updated Chinese sources Li re-evaluates many key issues in post Mao Chinese Sovietology arguing that the Chinese views on the Soviet Union had been influenced and shaped by the ups and downs of Sino Soviet and later Sino Russian relations China's domestic political climate and the political developments in Moscow By researching the country of the Soviet Union Chinese Soviet watchers did not focus on the USSR alone but mostly attempted to confirm and legitimize the Chinese state policies of reform and open door in both decades By examining the Soviet past Chinese scholars not only demonstrated concern for the survival of the CCP regime but also attempted to envision the future direction and position of China in the post communist

world **Modernism in Late-Mao China** Ke Song, 2023-04-28 This book investigates the architectural history of China in the Mao era 1949 1976 focusing on the rise of modernism in the last seven years of the Cultural Revolution from 1969 to 1976 It highlights the new architecture of this period exemplified by three clusters of buildings for foreign affairs namely buildings for foreign diplomacy in Beijing buildings for foreign trade in Guangzhou and China's foreign aid projects overseas The emergence of new architecture in the early 1970s is closely associated with China's political and diplomatic shift of the time from a radical emphasis on ideological struggle to a dynamic balance between leftist ideology and pragmatic concerns In this context China's relations with the West quickly improved culminating with American president Richard Nixon's visit to China in 1972 The increasing foreign affairs brought new opportunities to Chinese architects who referenced both Western modernism and Chinese architectural traditions to create a new version of Chinese modernism The book brings dimensions of form politics and knowledge to the analysis of architecture to construct an understanding of architectural design as an aesthetic political and intellectual practice Modernism in Late Mao China will be an enriching and useful reference for students and scholars who are interested in the global architectural history of the twentieth century especially Cold War modernism

Chinese Democracy After Tiananmen Yijiang Ding, 2002-01-25 In 1989 most observers believed that China's political reform process had been violently short circuited but few would now dispute that China is in a very important transition Central to this transition has been an extraordinary change in the formal intellectual conception of democracy In this book Yijiang Ding presents a multi dimensional picture of China at the political crossroads Chinese Democracy looks at the significant change in the state society relationship in contemporary China in three interrelated areas intellectual social and cultural Drawing heavily on recent Chinese scholarship Ding shows that the emergent theory on the dualism of state and society is contemporaneous with a new cognitive and cultural appreciation of the people's independence from state authority Is China moving toward liberal democracy Does Western engagement with China contribute economically and politically to this shift These are the questions at the heart of the book Which are especially timely given the recent reconstruction of political regimes worldwide
