Mapping European Security After Kosovo:

Mapping European security after Kosovo Peter Van Ham, Sergei Medvedev, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license In the story of post Cold War conceptual confusion the war in and over Kosovo stands out as a particularly interesting episode This book provides new and stimulating perspectives on how Kosovo has shaped the new Europe It breaks down traditional assumptions in the field of security studies by sidelining the theoretical worldview that underlies mainstream strategic thinking on recent events in Kosovo The book offers a conceptual overview of the Kosovo debate placing these events in the context of globalisation European integration and the discourse of modernity and its aftermath It then examines Kosovo's impact on the idea of war One of the great paradoxes of the war in Kosovo was that it was not just one campaign but two there was the ethnic cleansing campaign in Kosovo and the allied bombing campaign against targets in Kosovo and all over Serbia Serbia's killing of Kosovo has set the parameters of the Balkanisation integration nexus offering Europe and the West in general a unique opportunity to suggest itself as the strong centre that keeps the margins from running away Next it investigates Kosovo as a product of the decay of modern institutions and discourses like sovereignty statehood the warring state or the United Nations system Kosovo has introduced new overtones into the European Weltanschauung and the ways in which Europe asserts itself as an independent power discourse in a globalising world increasingly diffident looking for firm foundations in the conceptual void of the turn of the century

European Foreign Policy Dieter Mahncke, 2004 There is agreement in political and academic circles that the European Union needs a common foreign and security policy CFSP The question is how to move from recognised necessity to practical implementation from rhetoric to reality Many efforts have been made and indeed the creation of a European foreign policy is work in progress Bringing together a multinational team of both young researchers and established academics this volume offers a comprehensive analysis of this process uniquely combining the examination of the foundations institutions procedures and obstacles of EU level foreign policy with an extensive range of case studies exploring European policy on the ground in key areas such as the Balkans Africa or the Middle East Of use and interest to students of European politics and the general reader alike it breaks through the Euro jargon to provide a clear accessible and up to date account of this unprecedented system of international relations with a particular focus placed on the questions of why EU member states participate in the CFSP and what impact it enables them to have in geopolitics

Ontological Security in International Relations Brent J. Steele, 2008-03-10 This volume demonstrates that ontological security is a major motivating rationale for state action and inaction challenging and complementing realist liberal and constructivist accounts to international politics

European Public Diplomacy Mai'a K. Davis Cross, Jan Melissen, 2015-12-11 Do the various aspects of Europe's multi levelled public diplomacy form a coherent overall image or do they work against each other to some extent European Public Diplomacy pushes the literature on public diplomacy forward through a multifaceted exploration of

the European case **Cultures of Border Control** Ruben Zaiotti, 2011-02-15 In recent years a number of European countries abolished national border controls in favor of Europe's external frontiers. In doing so they challenged long established conceptions of sovereignty, territoriality and security in world affairs. Setting forth a new analytic framework informed by constructivism and pragmatism, Ruben Zaiotti traces the transformation of underlying assumptions and cultural practices guiding European policymakers and postnational Europe, shedding light on current trends characterizing its politics and relations with others. The book also includes a fascinating comparison to developments in North America where the United States has pursued more restrictive border control strategies since 9/11. As a broad survey of the origins, evolution and implications of this remarkable development in European integration, *Cultures of Border Control* will be of interest to students and scholars of international relations and political geography.

Kosovo and Serbia Leandrit I. Mehmeti, Branislav Radeljic, 2017-06-17 Azan on the Moon is an in-depth anthropological study of people's lives along the Pamir Highway in eastern Tajikistan. Constructed in the 1930s in rugged high altitude terrain, the road fundamentally altered the material and social fabric of this former Soviet outpost on the border with Afghanistan and China. The highway initially brought sentiments of disconnection and hardship, followed by Soviet modernization and development, and ultimately a sense of distinction from bordering countries and urban centers that continues to this day. Based on extensive fieldwork and through an analysis of construction, mobility, technology, media, development, Islam and the state, Till Mostowlansky shows how ideas of modernity are both challenged and reinforced in contemporary Tajikistan. In the wake of China's rise in Central Asia, people along the Pamir Highway strive to reconcile a modern future with a modern past. Weaving together the road, a population and a region, *Azan on the Moon* presents a rich ethnography of global connections.

The Struggle for the West Christopher Browning, Marko Lehti, 2009-09-29 This book problematizes the idea of and debates about a divided West that have emerged since 9/11 and the controversy over the Iraq War.

Image through Development and Diplomacy James Pamment, Karin Gwinn Wilkins, 2018-05-07 This edited collection draws upon interdisciplinary research to explore new dimensions in the politics of image and aid While development communication and public diplomacy are established research fields there is little scholarship that seeks to understand how the two areas relate to one another However international development doctrine in the US UK and elsewhere increasingly suggests that they are integrated or at the very least should be at the level of national strategy This timely volume considers a variety of cases in diverse regions drawing upon a combination of theoretical and conceptual lenses that combine a focus on both aid and image The result is a text that seeks to establish a new body of knowledge on how contemporary debates into public diplomacy soft power and the national image are fundamentally changing not just the communication of aid but its wider strategies modalities and practices

State Territoriality and European Integration Michael Burgess, Hans Vollaard, 2006-09-27 The European nation state is now placed between the interconnected processes of globalization and European integration This new book examines these evolving relationships showing how the conventional territorial basis of the state is being reappraised Bringing together leading thinkers on the nation state this volume tackles key questions about how we should conceptualize and discuss the political significance of territory in today's world For example does the era of Europeanization and globalization herald the end of citizens traditional attachment to their national territories Do our conceptions of the state no longer correspond to contemporary political realities These questions are approached from a range of positions that illuminate the debates now taking place across the world This book delivers a clear set of key concepts indicators and theoretical notions to carry out a historically and empirically grounded examination Drawing upon case studies from across Europe the lessons and conclusions detailed have a fascinating international scope and can be applied to our understanding of globalization which is intimately connected with European integration This is an invaluable book for all students of European integration political science and international relations

Losing Afghanistan Brian Brivati, 2022-02-22 Those who wonder how the international community failed so dramatically in Afghanistan need look no further *Losing Afghanistan* explores the arguments for and against intervention and highlights the difficulty of establishing unity of purpose and effort in such demanding circumstances Above all it poses a question how can we in the West claim we know so much yet demonstrate in Afghanistan that we understand so little General ret'd Sir Jack Devereux OBE former Commander in Chief of Allied Forces Northern Europe A wonderful book of insightful essays on Afghanistan from an outsider lens Ezatullah Adib head of research at Integrity Watch Afghanistan and national country representative at the World Association for Public Opinion Research The strategic question posed by these brilliant essays is how can the doctrine of liberal intervention be reframed to ensure the West intervenes overseas to manage future humanitarian calamities for reasons beyond just national security Brigadier ret'd Justin Hedges OBE When Taliban forces took Kabul on 15 August 2021 it marked the end of the Western intervention that had begun nearly twenty years earlier with the US led invasion The fall of

Afghanistan triggered a seismic shock in the West where US President Joe Biden announced an end to America's involvement in conflicts overseas. In Afghanistan itself it produced terror for the future for those who had worked with and grown up under the coalition supported administration. Now with the country spiralling into economic collapse and famine, Losing Afghanistan is a plea for us to keep our gaze on the plight of the people of Afghanistan and to understand how action and inaction in the West shaped the fate of the nation. Why was Afghanistan lost? Can it be regained? And what happens next? Edited by international development expert Brian Brivati, this collection of twenty-one essays by analysts, politicians, soldiers, commentators and practitioners interspersed with powerful eyewitness testimony from Afghan voices explains what happened in Afghanistan and why and what the future holds both for its people and for liberal intervention.

The Asian 21st Century Kishore Mahbubani, 2022-01-01. This open access book consists of essays written by Kishore Mahbubani to explore the challenges and dilemmas faced by the West and Asia in an increasingly interdependent world village and intensifying geopolitical competition. The contents cover four parts: Part One: The End of the Era of Western Domination. The major strategic error that the West is now making is to refuse to accept this reality. The West needs to learn how to act strategically in a world where they are no longer the number 1. Part Two: The Return of Asia. From the years 1 to 1820 the largest economies in the world were Asian. After 1820 and the rise of the West, however, great Asian civilizations like China and India were dominated and humiliated. The twenty-first century will see the return of Asia to the center of the world stage. Part Three: The Peaceful Rise of China. The shift in the balance of power to the East has been most pronounced in the rise of China. While this rise has been peaceful, many in the West have responded with considerable concern over the influence China will have on the world order. Part Four: Globalization, Multilateralism and Cooperation. Many of the world's pressing issues such as COVID-19 and climate change are global issues and will require global cooperation to deal with. In short, human beings now live in a global village. States must work with each other and we need a world order that enables and facilitates cooperation in our global village.
