,1997 Irish in Minnesota Ann Regan,2009-06-26 As farmers and laborers policemen and politicians maids and seamstresses Irish immigrants hard work helped to build the state Author Ann Regan examines their history and tells the diverse stories of the Irish in Minnesota The Harvest Story Robert T. Rhode,2001 The Harvest Story depicts the life of rural American threshermen This collection of first person narratives chronicles the eyewitness accounts of people who threshed grain with steam engines The book selects anecdotes from over 50 volumes of material published in The Iron Men Album Magazine from 1946 until 2001 and arranges them in a coherent recitation The result is a story of hard honest work of heartfelt cooperation and of triumph not unmarred by tragedy Readers hear the recollections of those who pitched the bundles of grain onto the horse drawn wagons unloaded these bundles into the threshing machine and saw the stream of clean wheat cascade from the grain auger Readers encounter the wit and humor that characterized yesteryear s harvests They learn about the vast industries that supported the agricultural enterprise and they discover the dangers posed by mechanical equipment The Harvest Story concludes by examining the birth and development of a movement to rescue the agrarian past from oblivion This book captures authentic voices from the era of steam powered threshing and offers readable interpretation and explanation including detailed appendices *Barnstorm* Raphael Kadushin,2005-02-28 Though the best American writers live everywhere now a popular fiction persists our strongest literary voices are strictly bi coastal ones Barnstorm sets out to disprove that cliché and to undermine another one as well the sense of regional fiction as something quaint slightly regressive and full of local color The stories in this collection capture our global reality with a ruthless unaffected voice Lorrie Moore s The Jewish Hunter is a dark romance that s by turns cynical and guileless Mack Friedman catches the smoking feel of first love in his Setting the Lawn on Fire and Jesse Lee Kercheval s Brazil is a raucous ultimately mournful road trip For Jane Hamilton Wisconsin is a gorgeous but bittersweet homecoming and for Kelly Cherry in her aching elegiac As It Is in Heaven it s the hopeful new world juxtaposed with a bleak tweedy England Dwight Allen s The Green Suit evokes the young man edging toward adulthood in a New York that s as flamboyant as an opera and Tenaya Darlington in her A Patch of Skin constructs a pure horror story because the horror of loneliness is something we all know Together Barnstorm s eclectic voices suggest that every coast now even the Great Lakes shores are at the very center of our best and truest national literature Not for sale in the United Kingdom Small-scale Agriculture Today ,1989 **Placing**

Nature Joan Nassauer, 2013-02-22 Landscape ecology is a widely influential approach to looking at ecological function at the scale of landscapes and accepting that human beings powerfully affect landscape pattern and function. It goes beyond investigation of pristine environments to consider ecological questions that are raised by patterns of farming, forestry, towns and cities. *Placing Nature* is a groundbreaking volume in the field of landscape ecology, the result of collaborative work among experts in ecology, philosophy, art, literature, geography, landscape architecture, and history. Contributors asked each other: What is our appropriate role in nature? How are assumptions of Western culture and ingrained traditions placed in a new context of ecological knowledge? In this book, they consider the goals and strategies needed to bring human-dominated landscapes into intentional relationships with nature, articulating widely varied approaches to the task. In the essays, novelist Jane Smiley, ecologist Eville Gorham, and historian Curt Meine each examine the urgent realities of fitting together ecological function and culture; philosopher Marcia Eaton and landscape architect Joan Nassauer each suggest ways to use the culture of nature to bring ecological health into settled landscapes; urban geographer Judith Martin and urban historian Sam Bass Warner, geographer and landscape architect Deborah Karasov, and ecologist William Romme each explore the dynamics of land development decisions for their landscape; ecological effects artist Chris Faust's photographs juxtapose the crass and mundane details of land use with the poetic power of ecological pattern. Every possible future landscape is the embodiment of some human choice. *Placing Nature* provides important insight for those who make such choices: ecologists, ecosystem managers, watershed managers, conservation biologists, land developers, designers, planners, and for all who wish to promote the ecological health of their communities. Art Directors Annual, 1996 *Pleasant Bend* Dan Worrall, 2016 Today's Greater Houston is a vast urban place. In the mid-nineteenth century, however, Houston was a small town, a dot in a vast frontier. Extant written histories of Houston largely confine themselves to the small area within the city limits of the day, leaving nearly forgotten the history of large rural areas that later fell beneath the city's late twentieth-century urban sprawl. One such area is that of upper Buffalo Bayou, extending westward from downtown Houston to Katy. European settlement here began at Piney Point in 1824, over a decade before Houston was founded. Ox wagons full of cotton traveled across a seemingly endless tallgrass prairie from the Brazos River east to Harrisburg and later to Houston along the San Felipe Trail, built in 1830. Also here, Texan families fled eastward during the Runaway Scrape of 1836; immigrant German settlers trekked westward to new farms along the north bank of the bayou in the 1840s; and newly freed African American families walked east toward Houston from Brazos plantations after Emancipation. Pioneer settlers operated farms, ranches, and sawmills. Near present-day Shepherd Drive, Reconstruction-era cowboys assembled herds of longhorns and headed north along a southeastern branch of the Chisholm Trail. Little physical evidence remains today of this former frontier world. *Annals of Iowa*, 2002 **American Nature Writing 1997** John A.

Murray,1997-03 An inspiring collection of the finest pieces of nature writing from the previous year the fourth volume in the Sierra Club s acclaimed annual series presents 22 rich and varied selections from such celebrated nature writers as Barry Lopez Terry Tempest Williams and Rick Bass plus pieces by several impressive new voices *New York Times Saturday Book Review Supplement* ,1995-06 American Nature Writing ,1996 ID ,1996 **The Washington Post Index** ,1995
