**Mapping Men and Empire** Richard Phillips, 1997 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company *Mapping Men and Empire* Richard Phillips, 2013-10-28 First published in 1996 Adventure stories produced and consumed in vast quantities in eighteenth nineteenth and twentieth century Europe narrate encounters between Europeans and the non European world They map both European and non European people and places In the exotic uncomplicated and malleable settings of stories like Robinson Crusoe they make it possible to imagine and to naturalise and normalise identities that might seem implausible closer to home This book discusses the geography of literature and looking at where adventure stories chart colonies and empires projecting European geographical fantasies onto non European real geographies including the Americas Africa and Australasia *Mapping Men and Empire* Richard Phillips, 1996 **Britain and the Narration of Travel in the Nineteenth Century** Kate Hill, 2017-05-15 Interrogating the multiple ways in which travel was narrated and mediated by and in response to nineteenth century British travelers this interdisciplinary collection examines to what extent these accounts drew on and developed existing tropes of travel The three sections take up personal and intimate narratives that were not necessarily designed for public consumption tales intended for a popular audience and accounts that were more clearly linked with discourses and institutions of power such as imperial processes of conquest and governance Some narratives focus on the things the travelers carried such as souvenirs from the battlefields of Britain s imperial wars while others show the complexity of Victorian dreams of the exotic Still others offer a disapproving glimpse of Victorian mores through the eyes of indigenous peoples in contrast to the imperialist vision of British explorers Swiss hotel registers guest books and guidebooks offer insights into the history of tourism while new photographic technologies the development of the telegraph system and train travel transformed the visual audial and even the conjugal experience of travel The contributors attend to issues of gender and ethnicity in essays on women travelers South African travel narratives and accounts of China during the Opium Wars and analyze the influence of fictional travel narratives Taken together these essays show how these multiple narratives circulated cross fertilised and reacted to one another to produce new narratives new objects and new modes of travel *Perspectives on Mobility* Ingo Berensmeyer, Christoph Ehland, 2013-08-01 Literature as cultural discourse has always courted mobility From the nomadic wanderings of the heroes of Homer and Virgil through the adventures of the medieval knight errants to the travellers of modern times movement and mobility have been constitutive elements of story telling Since writers have begun to explore the experiential dimension of movement their texts have embraced the essential changeability and instability of mobile worlds In this sense literature reflects and processes the transformative force of movement on the perception of the world and is part of the broader cultural discourses of mobility From the 1936 film Night Mail to the rapid movements of the dime novel detective and the metaphorical coding of automobility in Futurist poetry the essays in this volume offer new perspectives on the phenomenon of mobility at the

intersection between the literary imagination and cultural experience They explore movement as a decisive force of change in the story of modernity and show how literature in its representation of mobility simultaneously aims both to mirror and to grasp the phenomenon

Mapping European Empire Russell Foster, 2015-06-26 Empire and maps are mutually reliant phenomena and traceable to the dawn of civilisation Furthermore maps retain a supremely authoritative status as unquestioned reflections of reality In today's image saturated world their influence is more powerful now than at any other time in history This book argues that in the 21st century we are seeing an imperial renaissance in the European Union EU a political organisation which defies categorisation but whose power and influence grows by the year It examines the past present and future of the EU to demonstrate that empire is not a category of state but rather a collective imagination which reshapes history and appropriates an artificial past to validate the policies of the present and the ambitions of the future In doing so this book illuminates the imperial discourse that permeates the mass maps of the modern EU This text will be of key interest to students and scholars of political science EU Studies Human Geography European political history cartography and visual methodologies and international relations

*Livingstone's 'lives'* Justin Livingstone, 2014-11-01 David Livingstone the missionary explorer has attracted more commentary than nearly any other Victorian hero Beginning in the years following his death he soon became the subject of a major biographical tradition Yet

out of this extensive discourse no unified image of Livingstone emerges Rather he has been represented in diverse ways and in a variety of socio political contexts Until now no one has explored Livingstone s posthumous reputation in full This book meets the challenge In approaching Livingstone s complex legacy it adopts a metabiographical perspective in other words this book is a biography of biographies Rather than trying to uncover the true nature of the subject metabiography is concerned with the malleability of biographical representation It does not aim to uncover Livingstone s real identity but instead asks what has he been made to mean Crossing disciplinary boundaries Livingstone s lives will interest scholars of imperial history postcolonialism life writing travel writing and Victorian studies **Social Geographies** Ruth

Panelli,2004-01-31 Providing students with the resources to understand both the theoretical and empirical approaches social geographers take when investigating social difference this text outlines key theoretical approaches and traces the core geographies of difference class gender race ethnicity and sexuality It concludes by showing how geographers work across these ideas of difference to understand questions of identity power and action Publisher *New Perspectives in Celtic*

*Studies* Aleksander Bednarski,Paweł Tomasz Czerniak,Maciej Czerniakowski,2015-02-05 This volume provides accounts of well established themes of general Celtic inquiry from new theoretical perspectives in addition to addressing new areas of research that have remained largely unexplored The collection includes contributions by both established and young scholars on diverse aspects of culture literature and linguistics reflecting the multidisciplinary character of current trends in Celtology The linguistic section of the book includes chapters dealing with Welsh phonology and possible areas of influence of the Brittonic language on English as well as with the issues of translating culture specific aspects of medieval Welsh texts and the problems of standardising Irish orthography and font The second part of the volume is devoted to literature and considers neglected and heretofore unexplored aspects of Welsh language poetry fiction and children s literature the work of John Cowper Powys and Scottish film in the theoretical context of post humanism Approaching these issues from different angles and using different methodologies the collection highlights the connections between long established academic areas of interest and popular culture broadening the horizon of Celtic scholarship *Dangerous Sexualities* Frank

Mort,2002-09-11 *Dangerous Sexualities* takes a look at how our ideas of health and disease are linked to moral and immoral notions of sex Beginning in the 1830s Frank Mort relates his social historical narratives to the sexual choices and possibilities facing us now This long awaited second edition has been thoroughly updated to include new discussions of eugenics race hygiene and social imperialism in the late nineteenth and early twentieth centuries With a new and extended bibliography introduction and illustrations this second edition brings a classic into the 21st Century **The New Expatriates**

Anne-Meike Fechter,Katie Walsh,2013-09-13 While scholarship on migration has been thriving for decades little attention has been paid to professionals from Europe and America who move temporarily to destinations beyond the West Such migrants are marginalised and depoliticised by debates on immigration policy and thus there is an urgent need to develop nuanced

understanding of these more privileged movements In many ways these are the modern day equivalents of colonial settlers and expatriates yet the continuities in their migration practices have rarely been considered The New Expatriates advances our understanding of contemporary mobile professionals by engaging with postcolonial theories of race culture and identity The volume brings together authors and research from across a wide range of disciplines seeking to evaluate the significance of the past in shaping contemporary expatriate mobilities and highlighting postcolonial continuities in relation to people practices and imaginations Acknowledging the resonances across a range of geographical sites in Asia Africa and the Middle East the chapters consider the particularity of postcolonial contexts while enabling comparative perspectives A focus on race and culture is often obscured by assumptions about class occupation and skill but this volume explicitly examines the way in which whiteness and imperial relationships continue to shape the migration experiences of Euro American skilled migrants as they seek out new places to live and work This book was originally published as a special issue of the Journal of Ethnic and Migration Studies

*Nineteenth-Century Theatre and the Imperial Encounter* Marty Gould, 2011-05-09 In this study Gould argues that it was in the imperial capital s theatrical venues that the public was put into contact with the places and peoples of empire Plays and similar forms of spectacle offered Victorian audiences the illusion of unmediated access to the imperial periphery separated from the action by only the thin shadow of the proscenium arch theatrical audiences observed cross cultural contact in action But without narrative direction of the sort found in novels and travelogues theatregoers were left to their own interpretive devices making imperial drama both a powerful and yet uncertain site for the transmission of official imperial ideologies Nineteenth century playwrights fed the public s interest in Britain s Empire by producing a wide variety of plays set in colonial locales India Australia and to a lesser extent Africa These plays recreated the battles that consolidated Britain s hold on overseas territories dramatically depicted western humanitarian intervention in indigenous cultural practices celebrated images of imperial supremacy and occasionally criticized the sexual and material excesses that accompanied the processes of empire building An active participant in the real world drama of empire the Victorian theatre produced popular images that reflected interrogated and reinforced imperial policy Indeed it was largely through plays and spectacles that the British public vicariously encountered the sights and sounds of the distant imperial periphery Empire as it was seen on stage was empire as it was popularly known the repetitions of character types plot scenarios and thematic concerns helped forge an idea of empire that though largely imaginary entertained informed and molded the theatre going British public

second half of the nineteenth century As well as a story of British imperial aggression and Haitian resistance it is also one of a more complicated set of relations of rivalry cultural exchange and intellectual dialogue At particular moments in the Victorian period ideas about Haiti had wide reaching relevancies for British anxieties over the quality of British imperial administration over what should be the relations between the British and people of African descent and defining the limits of black sovereignty Haitians were key in formulating disseminating and correcting ideas about Haiti Through acts of dialogue Britons and Haitians impacted on the worldviews of one another and with that changed the political and cultural landscapes of the Atlantic World
