Mapping The Political Landscape An Introduction To Political Science:

Mapping the Political Landscape Reeta Chowdhari Tremblay, 2012 **Teaching Political Science to Undergraduates** Laure Paquette, 2016-01-15 By 2020 half of the world's population and most university students will have a supercomputer in their pockets This revolution will affect the way students respond to higher education The university classroom must henceforth engage students and the classic lecture format alone might not be enough to do so This book answers the question how university students can learn in the classroom what they cannot learn in any other way The answer is inspired by options that are not available to political scientists in the way that they are in the laboratories for the sciences in the performances for the live arts and in the studios for visual arts as well as ideas that are already present but not widespread in the discipline problem solving and case studies as in the professional schools and simulation exercises in many other disciplines This book proposes therefore an active pedagogy for political science at a time when active pedagogy is more important than ever Prof Laure Paquette PhD has been a visiting researcher or professor in 23 countries She has advised several foreign governments as well as her own Canada and has published extensively in four languages This is her sixteenth Canadian Books in Print. Fisher, Robert Stewart, 2015-03-24 This book presents a varied and critical picture of how the Arab Spring demands a re examination and re conceptualization of issues of transitional justice It demonstrates how unique features of this wave of revolutions and popular protests that have swept the Arab world since December 2010 give rise to distinctive concerns and problems relative to transitional justice. The contributors explore how these issues in turn add fresh perspective and nuance to the field more generally In so doing it explores fundamental questions of social justice reconstruction and healing in the context of the Arab Spring Including the perspectives of academics and practitioners Transitional Justice and the Arab Spring will be of considerable interest to those working on the politics of the Middle East normative political theory transitional justice international law international relations and human rights **Decline?** Arjun Tremblay, 2018-12-28 In this book Arjun Tremblay considers the future of multiculturalism contextualised within an ideological and political shift to the right Is there any hope that multiculturalism will survive alongside the rise of the political right across democracies How can policy makers continue to recognize and to accommodate minorities in an increasingly inhospitable ideological environment Based on evidence from three case studies Tremblay develops a hypothesis of multicultural outcomes arguing that while the threat to multiculturalism is real there still is hope and that not only is the fate of minority rights in liberal democracies far from sealed but it may still be possible to further protect the rights of immigrant and other minority groups in years to come In order to do this proponents of diversity politics may need to reconceptualise multiculturalism and other minority rights along instrumental lines as a means to fulfil policy objectives above and beyond the recognition and accommodation of immigrant minorities This will be an important read for scholars interested in minority rights multiculturalism diversity politics comparative politics institutionalism right wing and far right studies and public policy The Routledge Handbook of Political Ecology Tom Perreault, Gavin Bridge, James McCarthy, 2015-06-12 The Routledge Handbook of Political Ecology presents a comprehensive and authoritative examination of the rapidly growing field of political ecology Located at the intersection of geography anthropology sociology and environmental history political ecology is one of the most vibrant and conceptually diverse fields of inquiry into nature society relations within the social sciences The Handbook serves as an essential guide to this rapidly evolving intellectual landscape With contributions from over 50 leading authors the Handbook presents a systematic overview of political ecology s origins practices and core concerns and aims to advance both ongoing and emerging debates While there are numerous

edited volumes textbooks and monographs under the heading political ecology these have tended to be relatively narrow in scope either as collections of empirically based mostly case study research on a given theme or broad overviews of the field aimed at undergraduate audiences The Routledge Handbook of Political Ecology is the first systematic comprehensive overview of the field With authors from North and South America Europe Australia and elsewhere the Handbook of Political Ecology provides a state of the art examination of political ecology addresses ongoing and emerging debates in this rapidly evolving field and charts new agendas for research policy and activism The Routledge Handbook of Political Ecology introduces political ecology as an interdisciplinary academic field By presenting a state of the art examination of the field it will serve as an invaluable resource for students and scholars It not only critically reviews the key debates in the field but develops them The Handbook will serve as an excellent resource for graduate and advanced undergraduate teaching and is a key reference text for geographers anthropologists sociologists environmental historians and others working in and around **Political Landscapes of the Late** political ecology Bulletin - Société Québécoise de Science Politique ,2003 **Intermediate Period in the Southern Andes** Alina Álvarez Larrain, Catriel Greco, 2018-04-18 This book studies the relationship between pukaras and their surrounding landscape focusing on the architectural and settlement variability registered in both contexts It is the outcome of a symposium held at the XIX National Congress of Argentine Archaeology San Miguel de Tucuman August 8 12 2016 entitled Pukaras strategic settlements and dispersed settlements Political landscapes of the Late Intermediate Period in the Southern Andes Based on the topics discussed at the event this book presents nine case studies covering a large geographic area within the Southern Andes northwestern Argentina northern Chile and southern Bolivia and breaking the national barriers that tend to atomize pre Hispanic landscapes The respective chapters cover a wide range of themes from architectural and settlement variability ways to build and inhabit space social segmentation and hierarchy to endemic conflict analysis of accessibility and visibility spatiality and temporality of landscapes as well as new dating This book goes beyond the Late Intermediate Period LIP analyses from the perspective of fortified settlements and material evidence related to war by placing the focus on how ancient political landscapes were constructed from the relation between the pukaras and other sites as part of the same territory. The methodologies used include pedestrian surveys photogrammetric surveys with UAVs unmanned aerial vehicles or drones topographic and architectural surveys excavations of households ceramic and rock art analysis and spatial analysis with geographic information systems GISs Given the numerous thematic interconnections between the contributions the Editors have organized the chapters geographically moving from south to north from the southern valleys of Catamarca Province in Argentina to Lipez in the southern part of the Bolivian Altiplano passing through the Calchaqui valleys of Catamarca the puna and Quebrada de Humahuaca of Jujuy in northwest Argentina and the Antofagasta region in northern Chile The book provides valuable new theoretical and methodological perspectives on the study of political landscapes of the Late Intermediate Period in the

Hansen, 2015-01-22 Mapping the Germans explores the development of statistical science and cartography in Germany between the beginning of the nineteenth century and the start of World War One examining their impact on the German national identity It asks how spatially specific knowledge about the nation was constructed showing the contested and difficult nature of objectifying this frustratingly elastic concept Ideology and politics were not themselves capable of providing satisfactory answers to questions about the geography and membership of the nation rather technology also played a key role in this process helping to produce the scientific authority needed to make the resulting maps and statistics realistic In this sense Mapping the Germans is about how the abstract idea of the nation was transformed into a something that seemed objectively measurable and politically manageable Jason Hansen also examines the birth of radical nationalism in central Europe advancing the novel argument that it was changes to the vision of nationality rather than economic anxieties or ideological shifts that radicalized nationalist practice at the close of the nineteenth century Numbers and maps enabled activists to see nationality in local and spatially specific ways enabling them to make strategic decisions about where to best direct their resources In essence they transformed nationality into something that was actionable that ordinary people could take real actions to influence Political Science in South Africa Peter Vale, Pieter Fourie, 2016-01-13 In 2013 and in 2014 respectively the South African Association of Political Studies SAAPS and

Politikon the South African Journal of Political Studies celebrate their 40th anniversary Also in April 2014 South Africa celebrates twenty years since the advent of the post Apartheid democracy and the birth of the rainbow nation This book provides a timely account of the birth and evolution of South African politics over the past four decades but also of the study of Political Science and International Relations in this country Fourteen political scientists contribute chapters to this volume situating the study of politics within its global context and recounting the development of politics as a field of study at South African universities The fourteen contributions evaluate the state of the discipline s and suggest conclusions that are surprising and in many instances unsettling not only with regards to what and how politics is taught but also how its study has variously gained and lost pertinence for South Africans understanding of their own polity as well as its place in the world The implications are uncomfortable and pose interesting challenges for South African scholarship pedagogy and national self reflection This book was published as a special issue of Politikon **Vance Policy Evolution** Forest Mindscape, AI, 2025-02-18 Vance Policy Evolution offers a deep dive into the shifting political ideology of Senator Vance examining the forces that shape a politician s stances over time The book addresses the critical need to understand how politicians balance personal convictions with constituent needs providing insights into the complexities of modern American politics It highlights how factors like constituent demands and party dynamics can influence a politician s stance illustrating the adaptive nature of political ideologies. The analysis focuses on key areas such as economic policy foreign relations and social issues to trace the evolution of Vance's perspectives Intriguingly the book uses primary sources like speech transcripts and voting records to substantiate its claims offering a data driven approach to understanding policy shifts By exploring the granular details of Vance's career the book provides a nuanced understanding of policy evolution The book progresses systematically starting with an overview of core concepts and methodologies then moves to Vance's early career and later delves into specific policy areas It concludes with a comprehensive assessment of Vance's current political profile and potential future trajectory This approach makes Vance Policy Evolution valuable for those seeking a detailed understanding of political pragmatism and the evolution of political thought
